SUMMARY/DISCUSSION:

The Health Department Clinic Services Bureau (Clinic Services) operates ten community clinic sites designated as Federally Qualified Health Centers (FQHCs) which provide preventive, primary, and specialty medical care services Pursuant to Section 340B of the Public Health Services Act, the United States Congress established the 340B Drug Pricing Program requiring pharmaceutical manufacturers participating in the Medicaid program to enter into agreements with Health Resources and Services Administration (HRSA) to provide discounts on covered outpatient drugs to certain government-supported health care providers. Apexus is the authorized prime vendor for the 340B Prime Vendor Program (PVP) which allows covered entities, such as Clinic Services, enrolled in the PVP, to purchase products through supplier and distributor agreements under Apexus’ network of suppliers and distributors.

Cardinal is part of Apexus’ network of suppliers and distributors and has contracted with Clinic Services since June 2011, when the Board of Supervisors first approved Agreement Nos. A-12009 and A-12010 to provide Clinic Services’ access to 340B discounted drugs. The Board of Supervisors approved a new Letter of Participation with Cardinal (Agreement No. A 14005) on June 26, 2018. Agreement A-14005 was amended on January 1, 2020 to update 340B ID numbers in scope, on April 1, 2020 to add the NIDO clinic to scope, and on July 1, 2021 to extend the term to August 31, 2022.

Approval of Amendment No. 4 will provide Clinic Services with continued access to Cardinal’s discounted drug prices without interruption and allow Clinic Services’ resources to be stretched further by providing more care and services to vulnerable patients with the savings from these discounted drugs.

This work supports the Monterey County Health Department 2018-2022 Strategic Plan Goals: 1. Empower the community to improve health; and 2. Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one or more of the ten essential public health services, specifically: 4. Mobilize community partnerships and action to identify and solve health problems; and 7. Link people to needed personal health services and assure the provision of health care when otherwise

unavailable.
