DISCUSSION:

On September 29, 2016, the Zoning Administrator continued the public hearing to October 13, 2016 requesting the applicant consider design modifications to address the added mass of the building created by covered patios, and elevated deck areas. The applicant discussed design modifications with staff and submitted revised plans showing the removal of the roof over the rear yard ground level patio, a reduction in the size of the second floor deck on the south side and realignment of the retaining wall along the southern property line to protect the roots of an 18 inch Monterey cypress tree located on the neighboring property. If the Zoning Administrator accepts these revisions, staff should be directed to return on October 27, 2016 with a resolution

approving the revised project.

FINANCING:

Funding for staff time associated with this project is included in the FY2016/17 Adopted Budget for RMA-Planning.
