Adopt a Resolution amending Article I.E. of the Monterey County Master Fee Resolution effective July 1, 2019, to adjust fees relating to oversight and services provided by the Health Department's Environmental Health Bureau pursuant to the attached Fee Schedule.

### RECOMMENDATION:

It is recommended that the Board of Supervisors:

Adopt a Resolution amending Article I.E. of the Monterey County Master Fee Resolution effective July 1, 2019, to adjust fees relating to oversight and services provided by the Health Department's Environmental Health Bureau pursuant to the attached Fee Schedule.

### SUMMARY/DISCUSSION:

The Health Department's Environmental Health Bureau (EHB) is requesting approval of a proposed across-the-board fee increase to the County Master Fee schedule, Article I.E., to more closely reflect, while still not exceeding, the actual and reasonable costs of services and benefits provided to the public by the EHB. A detailed summary of these services is included as attachment 3, Environmental Health Bureau Services Overview. Adoption of the proposed fees will contribute to the self-sufficiency of the indicated programs; however, the fee increase will not fully cover cost of services and benefits and may still result in the need for additional future General Fund Contributions for those services to remain at 2018-19 staffing levels.

In Fiscal Year 2016-17, the Environmental Health Bureau contracted with MGT America to conduct a comparison analysis of its facility and permit fees. The results of this analysis included a recommendation to increase fees by 14%, however, after evaluation of the impact of this increase to the public, Environmental Health was requested by the Board of Supervisors to implement increases incrementally. The Environmental Health Bureau has adhered to this request by asking for Board approval of an across-the-board fee increase of 4% in Fiscal Year 2017-18, an across-the-board fee increase of 3% for Fiscal Year 2018-19 and now asks for an across-the-board 3% fee increase, effective July 1, 2019 for the Fiscal Year 2019-20 proposed budget.

In addition to this across-the-board fee increase, increases to specific fee categories is requested to bring these fees in alignment with the analysis recommendation as well as fees charged in comparable counties.

Environmental Health is charged with the regulation of cannabis businesses, which requires more time and effort operationally and administratively to address the specific environmental and public health issues, both known and unknown, related to specific categories. Cannabis related fees were introduced and included in the Article I.E. Master Fee Schedule for 2018-19. These fees are also subject to the requested across-the-board 3% increase.

An increase in fees for the Environmental Health Review Services (EHRS) program is not requested at this time due to the requisite public noticing of any changes to this program's fees. A restructuring of fees and a fee adjustment was approved by the Board in Fiscal Year 2017-18, a nominal fee change request comparable to the 3% increase will be presented at a later date once sufficiently noticed. New fees for the Consumer Health Protection Services program are introduced for inspections of Catering Operations (AB2524), Host Facilities (AB2424), Microenterprise Home Kitchens (AB626) and Charitable Feeding Operations (AB2178).

By definition, the changes to these charges are not a 'tax' and are exempt from voter approval pursuant to Article XIII C section 1(e)(1)-(3) and (5) of the California Constitution (Prop. 26; charges imposed for specific benefit conferred/privilege/service or product, reasonable regulatory costs provided or granted to the payor, and/or fines and/or penalties). As such, they reflect no more than the actual cost of the service/benefit received by the payor.

The proposed fee adjustments are attached as follows: Attachment 1 - Proposed Article I.E. Fee Schedule for Fiscal Year 2019-20, Attachment 2 - Board Resolution and Attachment 3 - Supportive Fiscal Assessment.

This work supports the Monterey County Health Department 2018-2022 Strategic Plan Initiatives to enhance community health and safety through prevention and engage MCHD workforce and improve operational functions to meet current and developing population health needs. It also supports three of the ten essential public health services, specifically, 2. diagnose and investigate health problems and health hazards in the community; 3. inform, educate, and empower people about health issues; and 6. enforce laws and regulations that protect health and ensure safety.

#### OTHER AGENCY INVOLVEMENT:

County Counsel has reviewed, and approved as to legal form, the proposed amendment to Article I.E. of the Monterey County Master Fee Resolution.

#### FINANCING:

The recommended fee adjustments are intended to improve on the recapture of costs associated with the provision of the indicated services, and do not exceed actual costs for providing these services. As such, the fees represent a charge imposed for the specific regulatory service provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the County for providing the regulatory service. Anticipated revenues resulting from the proposed fee adjustments are included in the Fiscal Year (FY) 2019-20 Recommended Budget.

The proposed fee adjustments will offset actual expenditures incurred associated with the proposed fees. This action will have no impact on the General Fund Contributions for these services.

#### BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

Check the related Board of Supervisors Strategic Initiatives:

☐ Economic Development:

- Through collaboration, strengthen economic development to ensure a diversified and healthy economy.

☐ Administration:

- Promote an organization that practices efficient and effective resource management and is recognized for responsiveness, strong customer orientation, accountability and transparency.

☐ Health & Human Services:

- Improve health and quality of life through County supported policies, programs, and services; promoting access to equitable opportunities for healthy choices and healthy environments in collaboration with communities.

☒ Infrastructure:

- Plan and develop a sustainable, physical infrastructure that improves the quality of life for County residents and supports economic development results.

☐ Public Safety:

- Create a safe environment for people to achieve their potential, leading businesses and communities to thrive and grow by reducing violent crimes as well as crimes in general.
