### SUMMARY:

An application was submitted by Tom Johnson (Applicant) for the construction of a 100-foot tall, wireless communication facility (monopole) and support equipment. The property is located at 37501 Tassajara Road,

Carmel Valley site and is approximately 42 acres.

The matter was scheduled for consideration before the Zoning Administrator at the May 30, 2019 public hearing, however, during the course of review and preparation for the public hearing, staff identified the potential for the proposed monopole to constitute “ridgeline development.” Additional time is needed to conduct a more detailed visual analysis, including erection of a visual marker (s) for the purpose of determining whether the monopole would meet the definition of “ridgeline development” and if so, to determine if the project would result in a substantial adverse visual impact. If the project is determined to be “ridgeline development” this matter would be scheduled for Planning Commission consideration rather than Zoning Administrator consideration. New notices of future hearings on this matter will be required in any case. Therefore, staff is requesting that the Zoning Administrator remove this item from the agenda pending further review.

OTHER AGENCY INVOLVEMENT:

The following agencies have reviewed the project, have comments, and/or have recommended conditions:

RMA-Environmental Services (complete/no conditions)

RMA-Public Works (complete/no conditions)

RMA-Environmental Health Bureau (complete/no conditions)

Cachagua Fire Protection District (complete/no conditions)

The Cachagua Land Use Advisory Committee (LUAC) will review the project application at their May 22, 2019 meeting.
