SUMMARY/DISCUSSION:

A classification and compensation study of the Storekeeper classification series was requested by Service Employees International Union (SEIU) Local 521 on behalf of Natividad employees on June 25, 2018, citing changes in technology and equipment; required knowledge for certain patient products, medical terminology, procedures, and equipment; and increased consequence of error.

The Human Resources Department (HRD) and Natividad Human Resources participated in conducting the classification and compensation study. The study was expanded to include the Warehouse Worker series as it was identified that incumbents in the Warehouse Worker series may perform similar duties yet are paid a higher base wage than the Storekeepers. The classification study analysis identified that in departments/units other than County Administrative Office (CAO)-Fleet Administration, the Storekeeper and Warehouse Worker classifications are universal not only as it reads, but in the duties that are performed by the assigned incumbents. It is therefore recommended to consolidate and retitle the Warehouse Worker series with the Storekeeper classification series. The classification analysis further found the Warehouse Worker incumbent in CAO Contracts/Purchasing primary job duties are more appropriately defined in the Senior Warehouse Worker classification and is recommended to be reclassified to the consolidated classification of Senior Storekeeper.

The base wage compensation survey of the County comparable agencies found that based on the duties performed, the salary of the Warehouse Worker classification appropriately aligns with the salary mean of the comparable agency's classifications. It is recommended to adjust the base wage of the Storekeeper and Senior Storekeeper to the same rate of the former classifications of Warehouse Worker and Senior Warehouse Worker and maintain the Supervising Storekeeper at the same rate plus 4.94% in order to maintain the current spread between the Senior and Supervising levels of the Storekeeper series. Setting the salary of the recommended consolidated Storekeeper series as identified above will equate to approximately a 4.94% base wage increase for incumbents currently assigned to the Storekeeper series and an approximate 1.93% increase for incumbents currently assigned to the Supervising Warehouse Worker classification.

The Personnel Policies and Practices Resolution (PPPR) No. 98-394 defines Consolidation of Classes as “An

act whereby classes having similar scope, responsibilities and requirements of education, experience, knowledge, and ability are combined into a single class for the purpose of reorganizing the classification structure. The consolidation of classes has a neutral affect on the employee (i.e. no start of new probationary period, no change in salary step, no change in step advancement date, no less of seniority in class, etc.).”

Incumbents assigned to CAO-Fleet Administration were found to be performing job duties that are not within the scope of either the Warehouse Worker or the Storekeeper classification series. It is recommended a new classification series of Fleet Parts Coordinator be created that more accurately reflects the duties being performed with associated salary ranges established based on the salary mean of the comparable agency’s classifications. It is further recommended the Storekeepers assigned to Fleet Administration be reclassified to the appropriate new classification(s).
