### SUMMARY/DISCUSSION:

A Combined Development Permit (Martinez/PLN170705) was approved by the Planning Commission on November 14, 2018. Part of the approval process for the Martinez project involved a condition (Condition No. 16) requiring the applicant to convey a conservation easement over the portions of the property where environmentally sensitive habitat (ESHA) exists, pursuant to Section 20.144.040.B.6 in the North County Coastal Implementation Plan. The ESHA on site is comprised mainly of central maritime chaparral and includes the sensitive species pajarito manzanita.

Recordation of this easement will prevent any future permitted development from encroaching into the sensitive area and impacting sensitive habitat. Conditions of Approval run with the land, and the owners are now satisfying Condition No. 16 by the recordation of this easement.

Staff has reviewed the condition of approval and finds the dedicated area satisfies the requirements for allowing the approved development. Further, the easement will serve as an effective instrument to permanently protect central maritime chaparral.

The applicant has submitted the conservation easement deed and map showing the general location of the easement on the property, along with the metes and bounds description (Attachment A). Therefore, staff recommends the Board accept, execute, and consent to the recordation of the Conservation and Scenic Easement Deed.

This action is exempt from CEQA because it is not a project and will not cause a direct physical change in the environment.

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has reviewed the Scenic and Conservation Easement and has approved it as to form and legality.

FINANCING:

Funding for staff time associated with this project is included in the FY 19-20 Adopted Budget for RMA-Planning. All costs associated with maintenance of the easement will be borne by the project applicant (Grantor) of the easement, not the County (Grantee).

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This action represents effective and timely response to our RMA customers. Processing this application in accordance with all applicable policies and regulations also provides the County accountability for proper management of our land resources.
