Cost Allocation Methodology to Share Agreed Upon Infrastructure Costs

Because of the need to provide maximum flexibility to accommodate our partners, costs, and budgets in the local area, the cost allocation methodology to share infrastructure costs for the comprehensive AJCC/One-Stop is based on the following:

- Monterey County Workforce Development Board - infrastructure costs shall be calculated based on a specific program's occupancy percentage of the AJCC/One-Stop (square footage).

The comprehensive AJCC/One-Stop is a leased building which includes utilities such as gas, water, sewer connections, and internet access. Some space costs are not allocable to all co-located partners and are therefore assigned proportionately to the partners that use that space. The percentages and usage will be reviewed annually and revised as needed.
