Please state the reasons that you believe are important for the Board to consider when reviewing your application:

Thank you for the opportunity to submit my interest to service on the Board.

I have lived in the District for over 23 years. I have volunteer in many different organizations thought-out my life. While I was the president of Vega Road Mutual Water Association I led the homeowners to tax themselves and rebuild our water entire system. This system is the best system in Pajaro Sunny Mesa's list of water systems. In the 10 years I volunteered for Vega Road Mutual Water company I dealt with every possible problem that came up. I worked well with both Don and Joe Rosa and the office staff and service technicians. I would appreciate the chance to volunteer for Pajaro Sunny Mesa Community Service District.
