and 009-312-011-000), Carmel Area Plan Use Plan,
Coastal Zone]

The SOLOMONE & LEATHERBERRY application (PLN240029) came on for public hearing before the County of Monterey Planning Commission on May 14, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Planning Commission finds and decides as follows:

FINDINGS

1. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.
EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:
 - the 1928 Monterey County General Plan;
 - Carmel Area Land Use Plan;
 - Monterey County Coastal Implementation Plan Part 4;
 - Monterey County Zoning Ordinance (Title 20); and
 - Monterey County Subdivision Ordinance (Title 19).No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.

- b) **Proposed Project.** Both parcels (Parcel A and Parcel B) are currently developed with a single-family dwelling. The purpose of the proposed Lot Line Adjustment (LLA) is to adjust the adjoining property line to align with an existing standing fence.
- c) **Allowed Use.** The properties are located at 26217 and 26219 Atherton Place, Carmel, in the Carmel Area Land Use Plan (Assessor's Parcel Numbers 009-312-011-000 and 009-312-012-000), Coastal Zone. The parcels are zoned Medium Density Residential, 2 units per acre density, with Design Control overlay (Coastal Zone) [MDR/2-D(CZ)], which allows lot line adjustments (LLA) with the granting of a Coastal Development Permit. Therefore, as proposed, the project involves an allowed land use for this site.
- d) The project planner conducted a site inspection on February 18, 2025 to verify that the project on the subject parcel conforms to the plans listed above.
- e) **Lot Legality.** Parcel A (0.25 acres, APN: 009-312-011-000) and Parcel B (0.32 acres, APN: 009-312-012-000) are both identified in their current configuration, and under separate ownership, on a Record of Survey as Lot A and B, Block 38 of the Hatton Fields subdivision, recorded in December 1957 (Volume X-1, Page 164). Therefore, the County recognizes both parcels as legal lots of record.
- f) **Subdivision Map Act Consistency.** Pursuant to section 66412(d) of the Subdivision Map Act (SMA), the SMA is inapplicable to the lot line adjustment due to the fact that the final outcome of the LLA is not more than four adjoining parcels, and a greater number of parcels than previously existed is not being created. See also Finding No. 7 and supporting evidence.
- g) **Review of Development Standards – Structural Coverage & Floor Area Ratio.** Pursuant to Title 20 section 20.12.060.E and 20.12.060.F, the maximum site coverage and floor area ratio in this MDR district are 35 percent and 45 percent, respectively. Development on Existing Parcels A and B is below the allowable coverage and floor area ratio. No development is proposed with implementation of this LLA. Therefore, the resulting parcels continue to conform to the maximum allowed site coverage and floor area ratio.
- h) **Review of Development Standards – Setbacks.** Pursuant to Title 20 section 20.12.060.C, the required main structure setbacks in this MDR district are 20 feet (front), 5 feet (sides), 10 feet (rear). Existing development on Existing Parcel A and Parcel B comply with the required setbacks and will continue to meet required setbacks with implementation of the proposed lot line adjustment.
- i) **Review of Development Standards- Minimum Lot Size & Density.** Pursuant to Title 20 section 20.12.060.B, the maximum development density shall not exceed the units/acre as shown for the specific "MDR" district as shown on the zoning map. The subject parcels are zoned MDR/2-D (CZ), which has a maximum gross density of 2 units per acre. Existing Parcel A (0.25 acres) and existing Parcel B (0.32 acres) are both currently developed with single-family dwellings. As proposed, the project does not involve any new structural development. Maximum allowed development would remain the same for both parcels with

implementation of this LLA, and the existing development will continue to conform to the maximum development density requirement. Any future permitting of additional residences or accessory structures would depend on other factors in addition to zoning (e.g., potable water credits and sewage disposal) and would require separate discretionary review.

- j) The project was referred to the Carmel Highlands Land Use Advisory Committee (LUAC) for review. Based on the LUAC Procedure Guidelines adopted by the Monterey County Board of Supervisors, this application warranted referral to the LUAC because it involves a lot line adjustment in the Coastal Zone. On April 7, 2025, the Carmel Unincorporated/Highlands Land Use Advisory Committee (LUAC) reviewed the project and voted 4 to 0, in support of the project as proposed with no suggested changes.
- k) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN240029.

2. **FINDING:** **SITE SUITABILITY** – The site is physically suitable for the use proposed.

- EVIDENCE:**
- a) The project has been reviewed for site suitability by the following departments and agencies: HCD- Planning, Carmel Highlands Fire Protection District, HCD-Engineering Services, HCD-Environmental Services, and Environmental Health Bureau. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.
 - b) Staff identified no potential impacts to the environment. There are no physical or environmental constraints that would indicate that the site is not suitable for the use LLA.
 - c) Staff conducted a site inspection on February 18, 2025 to verify that the site is suitable for this use.
 - d) The application, project plans, and related support materials submitted by the project applicant to the Monterey County HCD - Planning for the proposed development found in Project File PLN240029.

3. **FINDING:** **HEALTH AND SAFETY** - The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

- EVIDENCE:**
- a) The project was reviewed by HCD - Planning, Carmel Highlands Fire Protection District, HCD-Engineering Services, Environmental Health Bureau, and HCD-Environmental Services. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.
 - b) Potable water will continue to be provided by the California American Water (MPWMD) for both Parcels A and B. Both properties are within

the Carmel Area Wastewater District (CAWD) service area and will continue to be provided sewer service.

- c) Staff conducted a site inspection on February 18, 2025, to verify that the site is suitable for this use.
- d) The application, project plans, and related support materials submitted by the project applicant to the Monterey County HCD - Planning for the proposed development found in Project File PLN240029.

4. **FINDING:** **NO VIOLATIONS** - The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

- EVIDENCE:**
- a) Staff reviewed Monterey County HCD- Planning and Building Services Department records and is not aware of any violations existing on subject property.
 - b) Staff conducted a site inspection on February 18, 20205, and researched County records to assess if any violation exists on the subject property.
 - c) There are no known violations on the subject parcel.
 - d) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development are found in Project File PLN240029.

5. **FINDING:** **CEQA (Exempt):** - The project is categorically exempt from environmental review and no unusual circumstances were identified to exist for the proposed project.

- EVIDENCE:**
- a) California Environmental Quality Act (CEQA) Guidelines section 15305(a) categorically exempts minor lot line adjustments not resulting in the creation of any new parcel.
 - b) The project includes a minor lot line adjustment between two legal lots of record: Parcel A (0.25 acres) and Parcel B (0.32 acres), resulting in two lots of record containing 0.25 acres [Adjusted Parcel A] and 0.31 acres [Adjusted Parcel B]. No new lots will be created by the lot line adjustment and therefore the project qualifies as a Class 5 Categorical Exemption.
 - c) The lot line adjustment will not intensify the level of development allowed on the parcels, either individually or cumulatively. After the implementation of the proposed lot line adjustment, the adjusted/resulting parcels will continue to conform with regard to site coverage, floor area ratio, and setbacks. Therefore, the proposed development is consistent with CEQA Guidelines Section 15305(a) and Title 19 Section 19.09.005.C.
 - d) None of the exceptions under CEQA Guidelines Section 15300.2 apply to this project. The project does not involve alterations to a designated historical resource, a hazardous waste site, nor development that would result in a cumulatively significant impact. Although the project would allow development (Title 20 section 20.06.310.4.b, defines a lot line adjustment as development), the lot line adjustment will not intensify the level of development allowed on the parcels. There are no unusual circumstances associated with undertaking the project that would create

the reasonable possibility that the project would have a significant effect on the environment.

- e) No adverse environmental effects were identified during staff review of the development application during a site visit on February 18, 2025.
- f) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN240029.

6. **FINDING:** **PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources Code) and Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

- EVIDENCE:**
- a) No access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in Section 20.146.130 of the Monterey County Coastal Implementation Plan can be demonstrated.
 - b) Although the subject properties are shown in an area where the applicable Local Coastal Program requires public access (Figure 3, Public Access, Carmel Area Land Use Plan), no evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property. Additionally, the proposed LLA, demolition, and CSE Amendment will not affect the processes of the shoreline.
 - c) County staff conducted a site inspection on February 18, 2025, to verify that the proposed project will not impact public access.
 - d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN240029.

7. **FINDING:** **LOT LINE ADJUSTMENT**- Section 66412(d) of the California Government Code (Subdivision Map Act) and Title 19 (Subdivision Ordinance – Coastal) of the Monterey County Code (MCC) allow a lot line adjustment that meets the following standards:

- 1. The lot line adjustment is between four or fewer existing adjoining parcels;
- 2. A greater number of parcels than originally existed will not be created as a result of the lot line adjustment; and
- 3. The parcels resulting from the lot line adjustment conform to the County's general plan, any applicable specific plan, any applicable coastal plan, and zoning and building ordinances.

- EVIDENCE:**
- a) The parcels are zoned Medium Density Residential, 2 units per acre, with a Design Control overlay (Coastal Zone) [MDR/2-D (CZ)].
 - b) The lot line adjustment is between four or fewer existing adjoining parcels. The two existing legal lots of record have a total combined area of 0.56 acres. After the adjustment, there will be two lots of record containing 0.25 acres [Adjusted Parcel A] and 0.31 acres [Adjusted Parcel B].
 - c) The lot line adjustment will not create a greater number of parcels than originally existed. Two contiguous separate legal parcels of record will be

adjusted, resulting in two contiguous separate legal parcels of record. Therefore, no new parcels will be created.

- d) The proposed lot line adjustment is consistent with the Monterey County Zoning Ordinance (Title 20). County staff verified that the subject property is in compliance with all rules and regulations pertaining to the use of the property, and that no violations exist on the property (see Finding Nos. 1, 2, 3, and 4; and supporting evidence).
- e) The subject properties are zoned for residential purposes. Parcel A is currently developed with single family dwelling, which will remain on Adjusted Parcel A. Parcel B is also currently developed with single family dwelling, which will remain on Adjusted Parcel B. No changes in use are proposed. None of the property area is under Williamson Act contract or used for agricultural purposes.
- f) The proposed lot line adjustment does not interfere with existing access and/or utility easements, which will remain unchanged.
- g) As an exclusion to the Subdivision Map Act, no map is recorded for a Lot Line Adjustment. To appropriately document the boundary changes, execution and recordation of deeds reflecting the lot line adjustment as well as a Certificate of Compliance for each adjusted lot is required per incorporated standard conditions of approval (Condition Nos. 4 and 5; and supporting evidence).
- h) The project planner conducted a site inspection on February 18, 2025, to verify that the project will not conflict with zoning or building ordinances.
- i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN240029.

8. **FINDING:** **APPEALABILITY** - The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

- EVIDENCE:**
- a) Board of Supervisors. Section 19.01.050.A of the Monterey County Subdivision Ordinance (Title 19 – Coastal Zone) and Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20) allows an appeal to be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.
 - b) Coastal Commission. Pursuant to Section 20.86.080.A.3 of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development that is permitted in the underlying zone as a conditional use.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Planning Commission does hereby:
