ARTICLE 4: CHANGE ORDERS

- 4.1 **Change Order:** "Change Order" means a written modification of the AGREEMENT between the AGENCY and the CONTRACTOR, signed by the AGENCY and the CONTRACTOR.
- 4.2 **Change Order Proposal:** "Change Order Proposal" means a CONTRACTOR-generated document in response to a Change Order Request (COR).
- 4.3 **Change Order Request:** "Change Order Request" (COR) means a document which informs the CONTRACTOR of a proposed change in the Work, and appropriately describes or otherwise documents such change.
- 4.4 **Change Orders:** The AGENCY, without invalidating the AGREEMENT, may order changes in the work within the general scope of the AGREEMENT consisting of additions, deletions, or other revisions. The AGREEMENT shall be adjusted accordingly. All such changes in the work shall be authorized by change order, and shall be executed under the applicable conditions of the AGREEMENT documents. The AGREEMENT sum may be changed only by change order.

The amount to be paid to the CONTRACTOR pursuant to the AGREEMENT shall, where applicable, be increased or decreased in the manner hereinafter set forth; provided however, that if the CONTRACTOR should proceed with a Change in the Work upon an oral order, by whomsoever given, it shall constitute a waiver by the CONTRACTOR of any claim for an increase in the Contract Sum on account thereof. Upon receipt of a written Change Order, the CONTRACTOR shall promptly proceed with the Change in the Work, even though the amount of any resultant increase or decrease in the contract sum has not yet been determined. All Changes in the Work shall be performed in accordance with the AGREEMENT.

4.5 Method to Calculate Adjustments in Contract Price:

Determination of the method to be used to calculate adjustments in the AGREEMENT Price shall be at the sole discretion of the AGENCY. The use by the CONTRACTOR of the Total Cost Method (calculating the total sum of expenses incurred on the project, less amounts paid,

marked up by overhead and profit) of pricing changes and claims is expressly prohibited (provided however, the AGENCY may use a “make whole” analysis to determine the reasonableness of the CONTRACTOR’s claim). One of the following methods shall be used:

- A. Unit Price Method;
- B. Firm Fixed Price Method (also known as Lump Sum); or
- C. Time and Materials Method.

4.5.1 Unit Price Method:

1. Whenever AGENCY or its representative authorizes CONTRACTOR to perform on a Unit Price basis, AGENCY’s authorization shall clearly state the:
 - a. Scope of Work to be performed;
 - b. Applicable Unit Price; and
 - c. Not to exceed amount of reimbursement as established by the AGENCY.
2. The applicable unit price shall include reimbursement for all direct and indirect costs of the Work, including overhead and profit.
3. CONTRACTOR shall only be paid under this method for the actual quantity of materials incorporated in or removed from the Work and such quantities must be supported by field measurement statements verified by AGENCY.

4.5.2 Firm Fixed Price Method:

1. The CONTRACTOR and AGENCY may mutually agree on a fixed amount as the total compensation for the performance of changed work.
2. Any adjustments to the AGREEMENT Price using the Firm Fixed Price Method shall include, when appropriate, all reasonable costs for labor, equipment, material, overhead and profit.
3. Whenever the AGENCY authorizes CONTRACTOR to perform changed work on a Firm Fixed Price Method, the AGENCY’s authorization shall clearly state:
 - a. Scope of Work to be performed; and
 - b. Total Fixed Price payment for performing such work.

4.5.3 Time and Materials Method:

1. Whenever the AGENCY authorizes the CONTRACTOR to perform Work on a Time and Materials basis, AGENCY’s authorization shall clearly state:
 - a. Scope of Work to be performed; and
 - b. Not to exceed amount of reimbursement as established by the AGENCY.
2. CONTRACTOR shall:
 - a. Cooperate with AGENCY and assist in monitoring the Work being performed;

- b. The CONTRACTOR's and subcontractors' labor hours, materials, and equipment charged to work under the Time and Materials Method shall be substantiated by detailed time cards or logs completed on a daily basis before the close of business each working day. The CONTRACTOR shall initial each time card and/or log at the close of each working day. Records of the CONTRACTOR and subcontractors pertaining to work paid for on a Time and Material method shall be maintained and available for inspection as requested by the AGENCY or its representatives;
 - c. Perform all work in accordance with this provision as efficiently as possible; and
 - d. Not exceed any cost limit(s) without AGENCY's prior written approval.
3. CONTRACTOR shall submit costs and any additional information requested by the AGENCY to support CONTRACTOR's requested price adjustment.

4.6 Unallowable Costs:

No change in the Contract Price shall be allowed to the extent (1) CONTRACTOR's changed cost of performance is due to the fault, acts, or omissions of CONTRACTOR, or anyone for whose acts or omissions CONTRACTOR is responsible; (2) the change is concurrently caused by CONTRACTOR and AGENCY; or (3) the change is caused by an act of *Force Majeure*.

The AGENCY shall not be responsible for, and the CONTRACTOR shall not be entitled to, unallowable costs. Unallowable costs include, but are not limited to: (1) interest or attorney's fees of any type other than those mandated by California statutes; (2) claim preparation or filing costs; (3) the cost of preparing or reviewing Change Proposals or Requests for Change Orders; (4) lost profits, lost income or earnings; (5) rescheduling costs; (6) costs for idle equipment when such equipment is not at the Site, has not been employed in the Work and is not scheduled to be used at the Site; (7) lost earnings or interest on unpaid retention; (8) claims consulting costs; (9) the costs of corporate officers or staff visiting the Site or participating in meetings with the AGENCY; (10) any compensation due to the fluctuation of foreign currency conversions or exchange rates; (11) loss of other business; and (12) any other special, consequential, or incidental damages incurred by the CONTRACTOR or subcontractors.

4.7 Signatures on Change Orders:

A change order shall be in writing and shall be signed by the AGENCY's General Manager, or his or her designee. Except as otherwise provided herein, the change order shall also be signed by the CONTRACTOR in order to be effective, indicating the CONTRACTOR's consent to the changes made.

4.8 Changes Requiring an Increase in Contract Sum:

- 4.8.1 If the AGENCY elects to have the Change in the Work performed on a lump sum basis, its election shall be based on a lump sum proposal which shall be submitted by the CONTRACTOR to the AGENCY within five (5) workdays of the AGENCY's request, but the AGENCY's request for a lump sum proposal shall not be deemed an election by the AGENCY to have the Change in the Work performed on a lump sum basis.
- 4.8.2 If the AGENCY elects to have the Change in the work performed on a unit-cost basis, its election shall be based on a unit price proposal which shall be submitted by the

CONTRACTOR to the AGENCY within five (5) workdays of the AGENCY's request, but the AGENCY's request for a unit price proposal shall not be deemed an election by the AGENCY to have the Change in the work performed on a unit price basis.

- 4.8.3 If the AGENCY elects to have the Change in the work performed on a time and material basis, the same shall be performed, its election shall be based on a time and materials price proposal which shall be submitted by the CONTRACTOR within five (5) workdays of the AGENCY's request, but the AGENCY's request for a time and materials price proposal shall not be deemed an election by the AGENCY to have the Change in the work performed on a time and materials basis.
- 4.8.4 Nothing herein contained shall preclude the AGENCY from requesting a lump sum proposal, a unit price proposal, and a time and materials price proposal, or any two of those, with respect to the same Change in the Work, in which event, the CONTRACTOR shall submit all proposals requested.
- 4.8.5 Until such time as the AGENCY makes its election under this paragraph, the CONTRACTOR shall submit daily time and material tickets to the AGENCY as required under subparagraph 4.8.3, which shall be subject to authentication as therein provided. At such time as the AGENCY makes its election under this paragraph, an appropriate Change Order will be issued; provided however, that until such time, the AGENCY shall pay to the CONTRACTOR up to the AGENCY's reasonable estimated value of the Change in the Work.

4.9 Changes Requiring a Decrease in Contract Sum:

If the Change in the Work will result in a decrease in the contract sum, the AGENCY may request a quotation by the CONTRACTOR of the amount of such decrease for use in preparing a Change Order. The CONTRACTOR's quotation shall be forwarded to the AGENCY within five (5) days of the AGENCY's request and, if acceptable to the AGENCY, shall be incorporated in the Change Order. If not acceptable, the parties shall make every reasonable effort to agree as to the amount of such decrease, which may be based on a lump sum properly itemized, on unit prices stated in the Contract Documents and/or on such other basis as the parties may mutually determine. If the parties are unable to so agree, the amount of such decrease shall be the total of the estimated reduction in actual cost of the work, as determined by the AGENCY in its reasonable judgment, plus ten percent (10%) thereof as overhead and profit.

4.10 Disputes Regarding Changes:

If any dispute should arise between the parties with respect to an increase or decrease in the AGREEMENT Sum or an expansion or contraction in the contract time as a result of a Change in the Work, the CONTRACTOR shall not suspend performance of a Change in the Work or the Work itself unless otherwise so ordered by the AGENCY in writing. The AGENCY shall, however, pay to the CONTRACTOR up to the AGENCY's reasonable estimate of the value of the Change in the Work, regardless of the dispute, if said Change in the Work results in an increase in the AGREEMENT Sum; and the AGENCY shall have the right to decrease the AGREEMENT Sum to the AGENCY's reasonable estimated value of the Change in the Work, regardless of the dispute, if said Change in the Work results in a decrease in the contract sum.

4.11 Limitations:

Except as expressly provided by this Section, there shall be no change whatsoever in the plans and specifications and in the work. CONTRACTOR shall not vary the work, the AGREEMENT documents, or change, add to or omit any element, component part, or portion of the work without the express written consent of AGENCY's Project Manager contained in an executed change order or field order as herein provided. AGENCY shall not be liable for the cost for any extra work or any substitutions, changes, additions, omissions, or deviations from the plans and specifications unless the same have been authorized by and the cost thereof approved in writing by change order. No extension of time for performance of the work shall be allowed hereunder unless claim for such extension shall be made at the time changes in the work are ordered and such duly adjusted in writing by AGENCY. CONTRACTOR recognizes and acknowledges that timely completion of the work is paramount and that its duty is to proceed with the work in accordance with the AGREEMENT, notwithstanding any request for change in the work, to the extent that proceeding is reasonable and feasible under the circumstances.

ARTICLE 5: WARRANTIES

- 5.1** CONTRACTOR shall warrant the work performed under this AGREEMENT against faulty or defective materials, equipment, or workmanship for a period of one (1) year from the date of Substantial Completion.
- 5.2** CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this AGREEMENT are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this AGREEMENT and are not employees of the AGENCY, or immediate family of an employee of the AGENCY.
- 5.3** CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. - 5.4** CONTRACTOR shall at all times enforce strict discipline and good order among its employees and shall not employ on the work any unfit person or anyone not skilled in the task assigned. Any person in the employ of the CONTRACTOR whom the AGENCY may deem incompetent or unfit shall be dismissed from the work and shall not again be employed on it except with the written consent of the AGENCY.

ARTICLE 6: INDEMNIFICATION

- 6.1** CONTRACTOR shall indemnify, defend, and hold harmless AGENCY, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this AGREEMENT, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with CONTRACTOR's performance of this AGREEMENT, unless such claims, liabilities, or losses

arise out of the sole negligence or willful misconduct of AGENCY. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

ARTICLE 7: INVOICES AND PURCHASE ORDERS

7.1 Invoice amounts shall be billed directly to the AGENCY, and delivered to:

ATTN: Tamara Voss

7.2 CONTRACTOR shall reference the Project Name and contract number on all invoices submitted to AGENCY. CONTRACTOR shall submit such invoices monthly or at the completion of services, but in any event, not later than thirty (30) days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed as called for in the Bid Form and such other information pertinent to the invoice. AGENCY shall certify the invoice, either in the requested amount or in such other amount as AGENCY approves in conformity with this AGREEMENT, and shall promptly submit such invoice to AGENCY Auditor-Controller for payment. AGENCY Auditor-Controller shall pay the amount certified within thirty (30) days of receiving the certified invoice.

7.3 **Unauthorized Surcharges or Fees:**

Invoices containing unauthorized surcharges or unauthorized fees of any kind shall be rejected by AGENCY. Surcharges and additional fees not included in the AGREEMENT must be approved by AGENCY in writing via Change Order.

ARTICLE 8: BOND REQUIREMENTS

The CONTRACTOR shall furnish Performance and Payment Bonds, each in the amount one hundred percent (100%) of the contract total price as security for the faithful performance and payment of all CONTRACTOR's obligations under the AGREEMENT. Section 5 – Scope of Work – F. Construction Schedule and Safety Plan

While it is extremely difficult to provide a construction schedule for a project of this size and nature due to weather, site accessibility, permitting and other items beyond our control, Maggiora Bros. Drilling, Inc. would expect to complete a minimum of 6 well destructions per month. In addition we would also be able to utilize multiple crews which would increase the well destructions to 12 well destructions per month. Below is a guideline as to how Maggiora Bros. Drilling, Inc. would approach this project for timely completion.

Proposed Schedule of Work:

A)

Final Contract executed by Maggiora Bros. and the Monterey County Water Resources Agency.

Finalize Bonding requirements & Proofs of Appropriate Insurance Documents.

Begin process of obtaining Well Destruction Permits from Monterey County Environmental Health Department.

B)

Work with MCWRA personnel to identify which job sites may have extenuating circumstances.

Examples:

- Access issues.
- Power lines or other potential obstructions.
- Sites that may require extended negotiations by the County to obtain access.
- Sites that need to be addressed early in the project.
- Sites that may be difficult to access under winter/rainy season conditions.
- Sites with crops that can only be accessed at certain times.

C)

Once the wells are prioritized, develop a flexible schedule that will allow the Contractor and the County to perform the work of actually destroying targeted wells in a timely manner.

D)

Typical well destructions of this nature would take approximately 5 working days to complete the work. However, there are some well destruction that can be completed in less time and others that may take more time depending on the depth and condition of the well itself.

Please Note: It is extremely difficult to provide fixed price estimates to drill out debris in wells. The specifications cannot tell us what the debris is composed of, or how many feet of fill needs to be removed by the drilling method. Particularly if there is no information, such as an original well completion report. And even then, the well may be collapsed, or perhaps a pump was dropped at some point in the past. These types of conditions, require a day and hourly rate.

If the County requires Maggiora Bros. Drilling, Inc. to bring in a drill rig on any given well, the pricing schedule listed above would apply, and would be cumulative as a day rate charge. This would be in addition to the Unit rates listed in each group. If the drilling slows to either refusal, or a penetration rate of <6' in two hours, the rate reverts to hourly per Item 5 listed below.

1. Pricing includes all labor, equipment, applicable taxes and freight charges.
2. County is to provide access to all sites.
3. County and MBD to work with owners on any equipment to be left on site. If owner wants equipment transported to a different location, that would be at an additional charge to the owner.
4. Pricing is based on current available information. Any costs that go up by 5%; Fuel, concrete, etc. would require a change in contract pricing to reflect this.
5. If, in the course of cleaning out by a drill rig, and the rig hits refusal, the drilling operations will switch to an hourly rate: \$985/hour.
6. Payment terms; Net 30 after receipt of invoice. Billing to be completed by the 25th of the month - per the schedule of values agreed upon by Maggiora Bros. Drilling, Inc. and Monterey County Water Resources Agency.

MBD notes there are two (2) addendum(s).

Maggiora Bros. Drilling, Inc is a Union company; Operating Engineers, Local #3, as well as, a Certified Small Business. (34073)

The proposal should include well pump removal, video logging, well destruction design, permitting, mobilization and demobilization, well borehole cleaning and drilling, casing perforation, well grouting, well casing excavation and removal, and concrete pad and wiring removal.
- 1.2 The one hundred five (105) wells that will be destroyed as part of the project have been divided into five (5) subgroups (Exhibit A). Qualified CONTRACTORS may submit proposals to destroy the wells in one or more of the subgroups defined in Exhibit A. All wells within a defined subgroup shall remain grouped for the purposes of the RFP. Multiple subgroups may be included in a single proposal.

2. In cases where shaped charges are used, admixtures shall be added to retard the grout set time to a minimum hold time of ten (10) hours. Admixtures shall conform to requirements of ASTM C494. The required quantity of cement shall be used in the ready-mixed regardless of whether an admixture is used.
3. Water used in grout mix shall be of potable quality, free of deleterious material, compatible with water quality conditions at the site, and suitable for cement mixtures.
4. Delivered ready-mixed is subject to rejection by the AGENCY if grout mix is not in accordance with these specifications. Disposal of grout mix not meeting these specifications shall be the responsibility of the CONTRACTOR at no additional cost to the AGENCY.

5. If other than an equivalent to Graniterock's ready-mixed #00-3-105 is proposed, CONTRACTOR shall mix a trial batch of two (2) cubic feet, or more, of grout with admixture(s) at ambient air temperature. The CONTRACTOR and AGENCY shall witness preparation of trial batch and mutually verify grout pumpability for the required setting time. CONTRACTOR shall notify AGENCY 48 hours prior to trial batch preparation, and AGENCY shall be provided permission and access to witness the trial batch preparation and verify grout pumpability and setting time.

Grout mix shall be placed progressively upward from the bottom of the well up to the surface. Tremie pipe shall always remain submerged a minimum of five (5) feet below the grout level; the tremie pipe should be kept full of grout without air space until grouting operation is completed. Total grout mix volume used to fill well shall at a minimum equal the well borehole volume.
- b. CONTRACTOR shall not introduce wash water or any other fluid or material into the grout emplaced in the well.
- c. In cases where shaped charges will be used, perforate the well casing within eight (8) hours from the time the first mixer truck leaves the batch plant. It is critical that shaped charges be detonated while the grout inside the well is in a liquid state.

12.0 PREFERENCE FOR LOCAL CONTRACTORS

- 12.1 General Requirements: Each local CONTRACTOR providing goods, supplies or services funded in whole or in part by AGENCY funds, or funds which the AGENCY expends or administers, shall be eligible for a local preference as provided in this section.
- 12.2 "Local CONTRACTOR" Defined - For the purpose of this section, the term "local CONTRACTOR" shall mean a business or resident doing business as a CONTRACTOR in Monterey County, San Benito County, or Santa Cruz County for not less than the past five (5) consecutive years. For full policy visit: <https://www.co.monterey.ca.us/home/showdocument?id=22313>
- 12.3 Local Preference Policy: The AGENCY desires, whenever possible, to contract with qualified Local Vendors to provide goods and services to the AGENCY. A *five percent (5%) preference* will be applied to the scoring evaluation for a firm that qualifies as a Local Vendor. Local Vendor is defined as:
 - 12.3.1 Vendor either owns, leases, rents, or otherwise occupies a fixed office or other commercial building, or portion thereof, having a street address within Monterey

County, Santa Cruz County, or San Benito County (the “Area”). Vendor possesses a valid and verifiable business license, if required, issued by a city within the Area or by one of the three counties within the Area when the address is located in an unincorporated area within one of the three counties: and

- 12.3.2 Vendor employs at least one full time employee within the Area, or if the business has no employees, the business shall be at least fifty percent (50%) owned by one or more persons whose primary residence(s) is located within the Area; and
- 12.3.3 Vendor’s business must have been in existence, in Vendor’s name, within the Area for at least two (2) years immediately prior to the issuance of either a request for competitive bids or request for qualifications for the AGENCY; and
- 12.3.4 Newly established businesses which are owned by an individual(s) formerly employed by a Local Vendor for at least two (2) years also qualify for the preference; and
- 12.3.5 If applicable, vendor must possess a valid resale license from the State Franchise Tax Board showing vendor’s local address within the Area and evidencing that payment of the local share of the sales tax goes to either a city within the Area or to one of the three counties within the defined Area.

A firm seeking to be recognized as a Local Vendor for purposes of this procurement shall register as a local vendor with the County via the Vendor Registration Link: Vendor Self Service (VSS) located at <https://www.co.monterey.ca.us/government/departments-a-h/administrative-office/contracts-purchasing/vendor-registration> and submit the *Local Business Declaration Form* with their proposal. (Attachment B)

- 12.4 Small Local Business Outreach Program: The County has implemented a policy to promote utilization of local businesses which are small or minority-owned, such as Disadvantaged Business Enterprises, Minority Business Enterprises, Woman Business Enterprises, and Disabled Veteran Business Enterprises. A “small business” as defined by Government Code section 14837(d)(1) means an independently owned and operated business that is not dominant in its field of operation, the principal office of which is located in California, the officers of which are domiciled in California, and which, together with affiliates, has 100 or fewer employees, and average annual gross receipts of ten million dollars (\$10,000,000) or less over the previous three years, or is a manufacturer, as defined in subdivision (c), with 100 or fewer employees. The County offers online Self-Certification specifically for these types of businesses to formulate partnerships which create an environment of inclusion in County procurement and contracting.

13.0 INSURANCE REQUIREMENTS

13.1 Evidence of Coverage:

- 13.1.1 Prior to commencement of an AGREEMENT, CONTRACTOR shall provide a “Certificate of Insurance” certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, CONTRACTOR upon request shall provide a certified copy of the policy or policies.

13.1.2 This verification of coverage shall be sent to the Agency, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor

13.2 Qualifying Insurers: All coverages, except surety, shall be issued by companies that hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current Best's Key Rating Guide, or a company of equal financial stability that is approved by the Agency.

13.3 Insurance Coverage Requirements:

13.3.1 Without limiting CONTRACTOR's duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of an AGREEMENT a policy or policies of insurance with the following minimum limits of liability:

- (i) Commercial general liability insurance including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than \$1,000,000 per occurrence.

Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.

- (ii) Automobile Insurance Threshold:

Agreement Over \$100,000 Business Automobile Liability Insurance: covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than \$1,000,000 per occurrence.

Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to AGENCY approval.

- (iii) Workers' Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than \$1,000,000 each person, \$1,000,000 each accident and \$1,000,000 each disease.

Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out

in blue ink. All proposed modifications are subject to AGENCY approval.

- (iv) Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than \$1,000,000 per claim and \$2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to AGENCY approval.

13.4 Other Insurance Requirements:

- 13.4.1 All insurance required by an AGREEMENT shall be with a company acceptable to the AGENCY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by an AGREEMENT, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under an AGREEMENT.
- 13.4.2 Each liability policy shall provide that AGENCY shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insureds with respect to claims arising from each subcontractor, if any, performing work under an AGREEMENT, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.
- 13.4.3 **Commercial general liability and automobile liability policies shall provide an endorsement naming the Monterey County Water Resources Agency, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the Agency and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.** The required

endorsement form for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement form for Automobile Additional Insured endorsement is ISO Form CA 20 48 02 99.

13.4.4 Prior to the execution of an AGREEMENT by AGENCY, CONTRACTOR shall file certificates of insurance with AGENCY's contract administrator showing that CONTRACTOR has in effect the insurance required by an AGREEMENT. CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in an AGREEMENT, which shall continue in full force and effect.

13.4.5 CONTRACTOR shall always during the term of an AGREEMENT maintain in force the insurance coverage required under an AGREEMENT and shall send, without demand by AGENCY, annual certificates to AGENCY. If the certificate is not received by the expiration date, AGENCY shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of an AGREEMENT, which entitles AGENCY, at its sole discretion, to terminate an AGREEMENT immediately.

The AGREEMENT shall be written by the AGENCY in a standard format approved by AGENCY Counsel, similar to the “**SAMPLE AGREEMENT SECTION**” herein. 17.0 RIGHTS TO PERTINENT MATERIALS

All responses, inquiries, and correspondence related to this solicitation and all reports, charts, displays, schedules, exhibits, and other documentation produced by the CONTRACTOR that are submitted as part of the submittal will become the property of the AGENCY when received by the AGENCY **and may be considered public information under applicable law.** Any proprietary information in the submittal must be identified as such and marked “CONFIDENTIAL INFORMATION” or “PROPRIETARY INFORMATION”, in conformity with the specific requirements set forth in section 8.3, above. The AGENCY will not disclose proprietary information to the public, unless required by law; however, the AGENCY cannot guarantee that such information will be held confidential. **As a California government entity, the AGENCY is subject to the California Public Records Act and other public transparency laws and, as such, cannot guarantee the confidentiality of information marked confidential or proprietary.** The AGENCY will respond to requests for disclosure of records related to this solicitation in accord with applicable law on disclosure requirements and exemptions to disclosure.

Applicable ASTM C 150 Notes:

Note B: There are cases where the optimum SO₃ (using Test Method C563) for a particular cement is close to or in excess of the limit in this specification. In such cases where properties of a cement can be improved by exceeding the SO₃ limit stated in this table it is permissible to exceed the values in the table, provided it has been demonstrated by Test Method C1038 that the cement with the increased SO₃ will not develop expansion in water exceeding 0.020% at 14 days. When the manufacturer supplies cement under this provision, he shall, upon request, supply supporting data to the purchaser.

Note C: Limestone addition as per C 150-09 Item 5.1.3

Note D: ASTM C 150 Table 4 for "Optional Physical Requirements" can use ASTM C 452 "Expansion of Mortar Exposed to Sulfate" to qualify instead of chemistry (CSA)

Proposition 1 Implementation Grant
Protection of Domestic Drinking Water Supplies for the Lower Salinas Valley

Well Destruction Design Plan

Agreement No. D1912532
Monterey County Water Resources Agency
March 2021

Introduction

This Well Destruction Design Plan document has been prepared in order to describe the procedures, methods, and materials that will be used to destroy wells as part of the *Protection of Domestic Drinking Water Supplies for the Lower Salinas Valley* project ("Project").

All Project well destruction activities will be conducted in accordance with standards outlined in Bulletins 74-81 and 74-90, *Water Well Standards: State of California* from the California Department of Water Resources and *Monterey County Code Chapter 15.08 Water Wells* and any updates thereto. Well destruction permits for each well will be obtained from the Monterey County Health Department, Environmental Health Bureau.

Well Destruction Design Plan

Wells will be destroyed as part of the Project by moving through a defined process, each step of which is described in this Well Destruction Design Plan. The process includes well depth confirmation, debris removal, and well destruction with specified materials.

- I. Well depth confirmation
 - A. The current depth of each well shall be determined prior to destruction using a weighted graduated steel tape.
 - B. Wells with a measured current depth that differs by more than 5% from the depth recorded on the Well Completion Report, or wells where the original well depth is unknown, shall be video logged.
- II. Debris removal methods
 - A. The well casing shall be cleaned out of all obstructions and bridged or poorly compacted material to original well depth, if known. In cases where the original well depth is unknown, the total depth will be based on the depth that is measured or recorded during video logging.
 - A. Debris removal may be accomplished by bailing, air lifting, or overdrilling. Bailing or air lifting shall be attempted first. All obstructions and bridged or poorly compacted materials shall be removed from the well by overdrilling if the other debris removal methods described in this Plan are unsuccessful.

III. Well destruction methods

A. Once the well has been cleared of any debris or bridged material, the casing must be perforated either mechanically or using explosives. The appropriate method will be based on the well construction method and current condition of the well. The intent of perforating the well casing prior to placement of cement is to penetrate the existing well casing, annular well seal (if damaged), and surrounding geologic formation such that cement can be placed in the voids made accessible by the perforations and prevent vertical hydraulic movement across aquitards. Where available, construction details for wells that are part of the Project are listed in Table 1: Well Destruction List (see end of document).

a. Cable tool wells

- i. Cable tool wells without a conductor casing that extends across one or more aquitards may be perforated mechanically or using explosive charges.
- ii. Cable tool wells with a conductor casing that extends across one or more aquitards must be perforated using explosive charges.
- iii. The depths at which the casing perforations are made will be specified for each well.

b. Rotary wells with annular seal

- i. The casing of a well drilled using a rotary drilling method shall be perforated using explosive charges.
- ii. The charges shall penetrate the well casing and a minimum of ten horizontal inches beyond the well casing.
 1. If there is evidence of failure of the existing annular seal, or suspected failure of the existing annular seal, the seal shall be perforated by the charges as well.
- iii. The depths at which the casing perforations are made will be specified for each well.

IV. Materials for well destruction

- A. Neat cement (grout) shall be emplaced in the well to prevent vertical hydraulic movement across aquitards.
- B. Grout shall be emplaced from the bottom of the well to five feet below the ground surface through a tremie pipe by positive displacement pumping. To ensure that there has been no bridging of the sealing material, verification will be made that the volume of material placed in the well is, at a minimum, equal to the volume of the well.

- C. If explosive charges are not used, the grouting material shall consist of neat cement, consisting of one sack (94 pounds) of Type IV Portland cement and no more than six gallons of water.
- D. Wells that will be perforated with explosive charges may use neat cement or grout consisting of other concrete mixtures as deemed appropriate by the well drilling contractor and blasting contractor, and approved by the Monterey County Health Department - Environmental Health Bureau.
- E. Water used for mixing grout shall be of potable quality, free of deleterious material, suitable for cement mixtures, and compatible with the water chemistry at the well site in order to avoid adverse reactions during the cementing process.
- F. Well casings shall be cut off five feet below grade and completed with a cement "mushroom cap". After the well has been properly filled, including sufficient time for sealing material in the excavation to set, the excavation shall be filled with native soil.

OWNER'S REPRESENTATIVE (Architect,
Engineer or other party):

1. The Contractor and the Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner for the performance of the Construction Contract, which is incorporated herein by reference.
2. If the Contractor performs the Construction Contract, the Surety and the Contractor shall have no obligation under this Bond, except to participate in conferences as provided in Subparagraph 3.1.
3. If there is no Owner Default, the Surety's obligation under this Bond shall arise after:
 - 3.1 The Owner has notified the Contractor and the Surety at its address described in Paragraph 10 below that the Owner is considering declaring a Contractor Default and has requested and attempted to arrange a conference with the Contractor and the Surety to be held not later than fifteen days after receipt of such notice to discuss methods of performing the Construction Contract. If the Owner, the Contractor and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement shall not waive the Owner's right, if any, subsequently to declare a Contractor Default; and
 - 3.2 The Owner has declared a Contractor Default and formally terminated the Contractor's right to complete the contract. Such Contractor Default shall not be declared earlier than twenty days after the Contractor and the Surety have received notice as provided in Subparagraph 3.1; and
 - 3.3 The Owner has agreed to pay the Balance of the Contract Price to the Surety in accordance with the terms of the Construction Contract or to a contractor selected to perform the Construction Contract in accordance with the terms of the contract with the Owner.
4. When the Owner has satisfied the conditions of Paragraph 3, the Surety shall promptly and at the Surety's expense take one of the following actions:
 - 4.1 Arrange for the Contractor, with consent of the Owner, to perform and complete the Construction Contract; or
 - 4.2 Undertake to perform and complete the Construction Contract itself, through its agents or through independent contractors; or
 - 4.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and the contractor selected with the Owner's concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Paragraph 6 in excess of the Balance of the Contract Price incurred by the Owner resulting from the Contractor's default; or
 - 4.4 Waive its rights to perform and complete, arrange for completion, or obtain a new contractor and with reasonable promptness under the circumstances:
 1. After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, tender payment therefor to the Owner; or
 2. Deny liability in whole or in part and notify the Owner citing reasons therefor.
5. If the Surety does not proceed as provided in Paragraph 4 with reasonable promptness, the Surety shall be deemed to be in default on this Bond fifteen days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Subparagraph 4.4, and the Owner refuses the payment tendered or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.
6. After the Owner has terminated the Contractor's right to complete the Construction Contract, and if the Surety elects to act under Subparagraph 4.1, 4.2, or 4.3 above, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Construction Contract. To the limit of the amount of this Bond, but subject to commitment by the Owner of the Balance of the Contract Price to mitigation of costs and damages on the Construction Contract, the Surety is obligated without duplication for:
 - 6.1 The responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;
 - 6.2 Additional legal, design professional and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Paragraph 4; and
 - 6.3 Liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.
7. The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Construction Contract, and the Balance of the Contract Price shall not be reduced or set off on account of any such unrelated obligations. No right of action shall accrue on this Bond to any person or entity other than the Owner or its heirs, executors, administrators, or successors.
8. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders and other obligations.
9. Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and shall be instituted within two years after Contractor Default or within two years after the Contractor ceased working or within two years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions of this Paragraph are void or prohibited by law, the minimum period of limitation available

to sureties as a defense in the jurisdiction of the suit shall be applicable.

10. Notice to the Surety, the Owner or the Contractor shall be mailed or delivered to the address shown on the signature page.

11. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the construction was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted here from and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

1. The Contractor and the Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner to pay for labor, materials and equipment furnished for use in the performance of the Construction Contract, which is incorporated herein by reference.
2. With respect to the Owner, this obligation shall be null and void if the Contractor:
 - 2.1 Promptly makes payment, directly, or indirectly, for all sums due Claimants, and
 - 2.2 Defends, indemnifies and holds harmless the Owner from claims, demands, liens or suits by any person or entity whose claim, demand, lien or suit is for the payment for labor, materials, or equipment furnished for use in the performance of the Construction Contract, provided the Owner has promptly notified the Contractor and the Surety (at the address described in Paragraph 12) of any claims, demands, liens, or suits and tendered defense of such claims, demands, liens or suits to the Contractor and the Surety, and provided there is no Owner Default.
3. With respect to Claimants, this obligation shall be null and void if the Contractor promptly makes payment, directly or indirectly, for all sums due.
4. The Surety shall have no obligation to Claimants under this Bond until:
 - 4.1 Claimants who are employed by or have a direct contract with the Contractor have given notice to the Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to the Owner, stating that a claim is being made under this Bond and, with substantial accuracy, the amount of the claim.
 - 4.2 Claimants who do not have a direct contract with the Contractor:
 1. Have furnished written notice to the Contractor and sent a copy, or notice thereof, to the Owner, within 90 days after having last performed labor or last furnished materials or equipment included in the claim stating, with substantial accuracy, the amount of the claim and the name of the party to whom the materials were furnished or supplied or for whom the labor was done or performed; and
 2. Have either received a rejection in whole or in part from the Contractor, or not received within 30 days of furnishing the above notice any communication from the Contractor by which the Contractor has indicated the claim will be paid directly or indirectly; and
 3. Not having been paid within the above 30 days, have sent a written notice to the Surety (at the address described in Paragraph 12) and sent a copy, or notice thereof, to the Owner, stating that a claim is being made under this Bond and enclosing a copy of the previous written notice furnished to the Contractor.
5. If a notice required by Paragraph 4 is given by the Owner to the Contractor or to the Surety, that is sufficient compliance.
6. When the Claimant has satisfied the conditions of Paragraph 4, the Surety shall promptly and at the Surety's expense take the following actions:
 - 6.1 Send an answer to the Claimant, with a copy to the Owner, within 45 days after receipt of the claim, stating the amounts that are undisputed and the basis for challenging any amounts that are disputed.
 - 6.2 Pay or arrange for payment of any undisputed amounts.
7. The Surety's total obligation shall not exceed the amount of this Bond, and the amount of this Bond shall be credited for any payments made in good faith by the Surety.
8. Amounts owed by the Owner to the Contractor under the Construction Contract shall be used for the performance of the Construction Contract and to satisfy claims, if any, under any Construction Performance Bond. By the Contractor furnishing and the Owner accepting this Bond, they agree that all funds earned by the Contractor in the performance of the Construction Contract are dedicated to satisfy obligations of the Contractor and the Surety under this Bond, subject to the Owner's priority to use the funds for the completion of the work.
9. The Surety shall not be liable to the Owner, Claimants or others for obligations of the Contractor that are unrelated to the Construction Contract. The Owner shall not be liable for payment of any costs or expenses of any Claimant under this Bond, and shall have under this Bond no obligations to make payments to, give notices on behalf of, or otherwise have obligations to Claimants under this Bond.
10. The Surety hereby waives notice of any change, including changes of time, to the Construction Contract or to related subcontracts, purchase orders and other obligations.
11. No suit or action shall be commenced by a Claimant under this Bond other than in a court of competent jurisdiction in the location in which the work or part of the work is located or after the expiration of one year from the date (1) on which the Claimant gave the notice required by Subparagraph 4.1 or Clause 4.2.3, or (2) on which the last labor or service was performed by anyone or the last materials or equipment were furnished by anyone under the Construction Contract, whichever of (1) or (2) first occurs. 15.2 Construction Contract: The agreement between the Owner and the Contractor identified on the signature page, including all Contract Documents and changes thereto.

15.3 Owner Default: Failure of the Owner, which has neither been remedied nor waived, to pay the Contractor as required by the Construction Contract or to perform and complete or comply with the other terms thereof.

Blanket Additional Insured - Owners, Lessees or Contractors - with Products-Completed Operations Coverage Endorsement

Primary and Noncontributory Insurance

With respect to other insurance available to the additional insured under which the additional insured is a named insured, this insurance is primary to and will not seek contribution from such other insurance, provided that a **written contract** requires the insurance provided by this policy to be:

1. primary and non-contributing with other insurance available to the additional insured; or
2. primary and to not seek contribution from any other insurance available to the additional insured.

But except as specified above, this insurance will be excess of all other insurance available to the additional insured.

VI. Solely with respect to the insurance granted by this endorsement, the section entitled **COMMERCIAL GENERAL LIABILITY CONDITIONS is amended as follows:**

The Condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended with the addition of the following:

Any additional insured pursuant to this endorsement will as soon as practicable:

1. give the Insurer written notice of any **claim**, or any **occurrence** or offense which may result in a **claim**;
2. send the Insurer copies of all legal papers received, and otherwise cooperate with the Insurer in the investigation, defense, or settlement of the **claim**; and
3. make available any other insurance, and tender the defense and indemnity of any **claim** to any other insurer or self-insurer, whose policy or program applies to a loss that the Insurer covers under this **coverage part**. However, if the **written contract** requires this insurance to be primary and non-contributory, this paragraph 3. does not apply to insurance on which the additional insured is a named insured.

The Insurer has no duty to defend or indemnify an additional insured under this endorsement until the Insurer receives written notice of a **claim** from the additional insured.

VII. Solely with respect to the insurance granted by this endorsement, the section entitled **DEFINITIONS is amended to add the following definition:**

Written contract means a written contract or written agreement that requires you to make a person or organization an additional insured on this **coverage part**, provided the contract or agreement:

- A.** is currently in effect or becomes effective during the term of this policy; and
- B.** was executed prior to:
 1. the **bodily injury or property damage**; or
 2. the offense that caused the **personal and advertising injury**;
 for which the additional insured seeks coverage.

Any coverage granted by this endorsement shall apply solely to the extent permissible by law.

All other terms and conditions of the Policy remain unchanged.
