**Before the Board of Supervisors
In and for the County of Monterey, State of California**

Resolution No. 26- _____

Resolution Amending the Monterey County Fee)
Resolution relating to Fee Articles for)
processing applications for land-use permits and)
entitlements, effective April 4, 2026, as follows:)
a. Find that modification of permit fees is)
statutorily exempt from the California)
Environmental Quality Act (CEQA) pursuant to)
Sections 15273 and 15378(b)(4) of the CEQA)
Guidelines; and)
b. Amend Article IX-Land Use to make)
adjustments to fees;)
c. Amend Article XVII—County Counsel to)
make adjustment to fees; and)
d. Amend Article XIX-Building Services to)
make adjustments to fees.

This resolution is made with reference to the following facts:

1. State law allows the County, after noticed public hearing, to adopt a resolution to adopt new fees or increase existing fees for processing land use permits and entitlements, provided the fees do not exceed the estimated reasonable cost of providing the service for which the fee is charged.
2. Section 1.40.010 of Chapter 1.40 of the Monterey County Code provides that all fees, penalties, refunds, reimbursements, and charges of any kind collected by the County may be specified in the Monterey County Fee Resolution.
3. Federal, state, and local laws and regulations mandate that the County provide certain services. Periodically, land use fees are amended to recover at least a portion of the costs to provide these services.
4. The Housing and Community Development (HCD) department contracted with Matrix Consulting Group in 2025 to prepare a fee study to determine the estimated reasonable costs for providing those fee-based services
5. The Housing and Community Development department is proposing adjustments to fee schedules based on the results of the fee study conducted by Matrix Consulting Group.
6. The land use fee adjustments made by this resolution are to recover staff costs of processing applications for land use for permits and entitlements and associated

planning, monitoring, and enforcement activities performed by the HCD. The increased fees do not exceed estimated reasonable or actual costs of performing the services, processing land-use applications and entitlements, and associated permitting, monitoring, and enforcement activities. Any adjustments to the fees reflect no more than the actual costs of the services or benefits received by the payor. To the extent that the fees do not result in full cost recovery, the shortfall may impact the County General Fund.

7. Land use fees for the HCD department consist of the following Fee Articles:
 - a. **Article IX** represents land use fees for Planning Services, which is a functional unit of the Housing and Community Development Department. This Article includes fees for services related to land-use entitlements and was last comprehensively updated in 2019 (Resolution 19-318) with minor updates in 2021 and 2024.
 - b. **Article XIX** represents fees for Building Services, which is a functional unit of the Housing and Community Development department. This Article includes fees relating to building permit and inspection services and was last comprehensively updated in 2019 (Resolution 19-318).
8. County Counsel's land use permit application fees are set out in **Article XVII** of the Monterey County Fee Resolution. These fees recover a portion of the cost of County Counsel staff advising County departments on processing land use permit applications and associated work. The proposed amendment to Article XVII changes County Counsel's fee structure for legal review associated with condition compliance and mitigation monitoring to align with the change in fee structure proposed by HCD for these services. The hourly rate in County Counsel's fee schedule is updated to \$340 per hour, from the current \$324 per hour, to reflect County Counsel billing rates that took effect on July 1, 2025.
9. These fees are not a "tax" and are exempt from voter approval under section 1(e) (1)-(3), (5) and (6) of Article XIII C of the California Constitution (Proposition 26, excepting from the definition of "tax" charges imposed for specific benefit conferred/privilege/service or product, and/or reasonable regulatory costs to local government for issuing permits and the administrative enforcement thereof, fines and penalties and charges for violation of law, and property development charges). These fees are imposed for a specific government service provided directly to the applicant that is not provided to those not charged, are imposed for the reasonable regulatory costs to the County for issuing permits for property development and the administrative enforcement thereof, and do not exceed the reasonable costs to the County of providing these services.
10. This action to modify land use fees is statutorily exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15273 and 15378(b)(4) of the CEQA Guidelines because the action involves modification to fees charged by the County for recovery of operating expenses associated with processing land use permits and is a governmental funding mechanism which does not involve any commitment to any

specific project which may result in a potentially significant physical impact on the environment. (CEQA Guidelines sections 15273 and 15378(b)(4).)

11. Said amendments to the land-use fees shall take effect no sooner than 60 days following adoption of the amendment.
12. A notice of this matter was provided by publication of notice in a newspaper of general circulation in the County and distribution of notice to interested persons, and all testimony from staff and the public has been heard and considered.

NOW, THEREFORE, BE IT RESOLVED THAT the Monterey County Board of Supervisors does hereby:

1. Certify that the foregoing recitals are true and correct.
2. Amend the Monterey County Fee Resolution, to take effect April 4, 2026, relating to fees for processing applications for land-use permits and entitlements, as follows:
 - a. Find that modification of permit fees is statutorily exempt from the California Environmental Quality Act (CEQA) pursuant to Sections 15273 and 15378(b)(4) of the CEQA Guidelines; and
 - b. Amend Article IX-Land Use to make adjustments to fees;
 - c. Amend Article XVII-County Counsel to make adjustment to fees; and
 - c. Amend Article XIX-Building Services to make adjustments to fees.

Article IX-Land Use, Article XVII-County Counsel, and Article XIX-Building Services, all as amended herein, are attached hereto and incorporated herein by reference.

ARTICLE IX – Land Use

ARTICLE IX- Land Use

Housing & Community Development Fee Schedule

(Per Resolution No. 26- _____, adopted _____, __ 2026 by the Monterey County Board of Supervisors)

These regulatory and user fees are based on the estimated reasonable cost of providing these services or performing these activities. This fee schedule has been comprehensively revised for land use related activities in response to requests for services (permit applications). Work done without a permit, where a permit would have been required, is subject to code enforcement and subsequently charged double the permit fee. Fees are based on the estimated reasonable cost for processing various land use permits established in: Monterey County Code, Title 20 (Coastal Implementation Plan) and Title 21 (Non-coastal Zoning Ordinance), and related planning services (Government Code §§ 65104, 65909.5, 66014); Title 19, Monterey County Code (Subdivisions); Public Resources Code sections 2761 - 2764 (Surface Mining and Reclamation Act) and Chapter 16.04, Monterey County Code (Surface Mining and Reclamation); California Environmental Quality Act (Public Resources Code §21000 et seq.); Monterey County Code Chapters 1.20, 1.22, 20.90, and 21.84 (code enforcement activities and process).

Unless a "deposit" is indicated, the fee is a flat fee based on the estimated reasonable cost, averaged across all applications, for processing the permit/entitlement/activity. In cases where the scope of an application is modified and/or exceeds the scope originally used to assign the fee and other associated fees, HCD reserves the right to re-assess the appropriate fee to the application and collect associated fees.

Work performed without a permit where a permit is required is subject to Code Enforcement Investigation and Compliance Support based on hourly rates, plus double the permit fee.

Footnotes:

1. An appeal fee applies to appeals of the HCD Director's Interpretations of the zoning or subdivision ordinance, regardless of planning area.

2. In the coastal zone, the appeal fee applies only to appeals of permits that are not appealable to the California Coastal Commission such as Administrative Permits, Design Approvals, Variances, and Tree Removal Permits in certain coastal areas. The appeal fee applicable to such permits would be subject to the same appeal fee listed in the appeal item for inland projects. The appeal fee does not apply to appeals of Coastal Development Permits that are appealable to the Coastal Commission. No fee is charged for postage & handling.

3. For certain applications, a "deposit" is indicated because the cost of processing varies widely depending on the application. Where a "deposit" is indicated, the fee will be based on actual hours, measured by actual time spent on an application in quarter-hour (.25) increments. Applicant is required to pay the deposit, which is initially established based on an estimated minimum set of hours multiplied by the applicable billable rates. If during the processing of applications County staff determines that the deposit is insufficient to cover actual processing time, the applicant will be asked to increase the deposit amount based on a revised estimate provided by the County. The revised estimate will be calculated based on the established billable rate(s) multiplied by actual hours expended. Should the instance arise where the deposit is insufficient to cover the actual cost of the actual processing time, the applicant will be billed to cover the outstanding amount. All outstanding amounts must be paid prior to the County finalizing the application. On deposit applications, the applicant and Director of Housing and Community Development may elect, on a case-by-case basis, to agree to a different deposit amount based on the estimated cost of processing a specific application. Invoices shall be provided to the applicant on a frequency dependent upon the application's progress. The fee will be calculated based on the number of hours expended by County staff multiplied by the applicable billable rate noted in the fee article. Costs for consultants and other expenses shall be reimbursed by the applicant based on actual costs incurred.

4. "Extraordinary development applications" are those applications that require staff time well beyond a typical application, as determined by the Director of Housing and Community Development or Chief of Planning. These applications may include, by way of example and without limitation, applications for large-scale development involving multiple discretionary entitlements, significant technical review by other land use agencies, and/or an anticipated lengthy time frame for processing because of scope and complexity. Consistent with these criteria, any project requiring the preparation of an Environmental Impact Report shall qualify as an extraordinary development application. The applicant shall be responsible for paying the associated staff hours multiplied by the applicable billable rate noted in the fee article, as well as any other costs incurred, including consultant costs.

5. Fees collected for application appointments and Development Review Committee Conferences shall be credited against any subsequent discretionary permit, except design approval, provided the discretionary permit application is made within 12 months of the application fee payment date.

6. Certificate of Compliance (COC) requests not required by a condition of approval will not be processed until a Parcel Legality Status Determination demonstrating COC eligibility is obtained. Parcel Legality Status Determination fees are invoiced separately from the Certificate of Compliance fees. Condition Compliance fees cover the processing of COCs required by conditions of approval.

7. Hazard Tree Removal - No Fee applies when a tree is deemed hazardous by a professional licensed arborist or tree trimmer/remover.

8. Applications approved after the effective date of this article with mitigation measures shall be subject to the mitigation monitoring fees set forth in this Article. Projects approved prior to the effective date of this article with mitigation measures shall be subject to the mitigation monitoring fees set forth in the Monterey County Fee Resolution that was in effect on the application approval date.

9. Applications with conditions of approval that do not include mitigation measures, approved after the effective date of this Article shall be subject to the condition compliance fees set forth in this Article, and applications approved prior to the effective date of this Article shall be subject to the condition compliance fees set forth in the Monterey County Fee Resolution that was in effect on the application approval date.

10. When the construction of a principally permitted use in a zoning district necessitates an entitlement for a Coastal Development Permit due to proximity to a resource (e.g. 100 feet of ESHA or 750 feet of known archaeological resources), but evidence provided with an application demonstrates that development will not directly impact a resource, the fee for a Coastal Development Permit shall apply rather than a Combined Development Permit fee. Should tree removal also be required, the Coastal Development Permit - Tree Removal fee shall be additive.

11. "Combined Development Permit" - Any person desiring to develop property, which under the terms of Monterey County Code requires more than one discretionary permit, may apply for a Combined Development Permit. The Director of Housing and Community Development or Chief of Planning, may elect to charge fees based on specific entitlements that are consolidated in the Combined Development Permit. Instances where alternative fees may be apply include, by way of example and without limitation, applications for multiple Administrative/Coastal Administrative Permits, which may be charged a single Administrative Permit fee; or an Administrative/Coastal Administrative Permit combined with a Use Permit/Coastal Development Permit due to proximity to resources, in which case a single Use Permit/Coastal Development Permit fee may be charged.

ARTICLE XVII COUNTY COUNSEL FEES

(Authorized per the following resolutions adopted by the Monterey County Board of Supervisors: Resolution No. 08-132, adopted April 22, 2008; Resolution No. 13-143, adopted May 7, 2013; Resolution No. 14-0421, adopted February 25, 2014; Resolution No. 15-075 adopted March 24, 2015; Resolution No. 16-250, adopted September 27, 2016; Resolution No. 19-318, adopted September 17, 2019; Resolution No. 21-132, adopted May 11, 2021; Resolution No. 25-020, adopted February 4, 2025; and Resolution No. ____, adopted ____, 2026.)

SECTION 1. LAND USE FEES.

A. Fees for Processing Various Land Use Permits Established in Monterey County Code, Title 20 (Coastal Implementation Plan) and Title 21 (Non-coastal Zoning Ordinance) and Related Planning Services (Government Code §§ 65104, 65909.5, 66014)

<u>DESCRIPTION</u>	<u>AMOUNT</u>¹	<u>UNIT/TIME</u>
Administrative Permit (Inland) —General		
Application fee	\$204	Each permit
Appeal, inland permits and coastal permits if not appealable to Coastal Commission ²	\$340	Each appeal
Appeal of Director's Interpretation ³	\$340	Each appeal

¹ The County Counsel flat fees are based on an hourly rate of \$340.00, representing the fully burdened labor rate for the Deputy County Counsel IV, Step 7 job classification as of July 1, 2025. Unless a “deposit” or “hourly” rate is indicated, the application fee is a fixed, one-time fee based on the estimated reasonable cost, averaged across all applications, of processing the permit/entitlement for which the fee is charged. On matters for which a deposit is required, fees will be based on actual time multiplied by the hourly top step fully burdened labor rate of the individual providing the service; applicant is required to pay the indicated deposit and will be billed subsequently if the deposit is insufficient to cover actual processing time. On deposit matters, applicant and County Counsel may elect, on a case-by-case basis, to agree to a different deposit amount based on the estimated actual cost of processing a specific application. County Counsel time providing advice to the Board of Supervisors and Planning Commission or prosecuting or defending litigation is not incorporated into the fee calculations.

Where indicated in this Article, the application fee is separate from condition compliance and mitigation monitoring fees. Fees for condition compliance and mitigation monitoring are set forth separately in this Article.

² The appeal fee applies to appeals of decisions on project applications in the non-coastal areas of the County. In the coastal zone, the appeal fee applies only to appeals of permits that are not appealable to the California Coastal Commission such as most Administrative Permits, Design Approvals, Variances, and Use Permits for Tree Removal in certain coastal areas. County Counsel's appeal fee is based on the estimated reasonable cost of addressing procedural issues on appeal and does not cover time spent on substantive review, which sets the fee substantially lower than actual cost. The appeal fee is subsidized by the County General Fund.

³ This appeal fee applies to appeals of the HCD Director's interpretations of the zoning or subdivision ordinance, regardless of planning area. County Counsel's appeal fee is based on the estimated reasonable cost of addressing procedural issues on appeal and does not cover time spent on substantive review, which sets the fee substantially lower than actual cost. The appeal fee is subsidized by the County General Fund.

Appeal of Fee Determination ⁴	\$340	Each appeal
Coastal Administrative Permit--General		
Application fee	\$204	Each permit

Design Approval Requiring Public Hearing		Each DA
Application Fee	\$340	
Development Agreement	hourly	Deposit (\$3400)
Director’s Interpretation	\$690	Each
Emergency Permit		Each permit
Application fee	\$204	
Extraordinary Development Application ⁶		
Application fee	\$3400	Per application

⁴ This appeal fee is based is based on the estimated reasonable cost of addressing procedural issues on appeal and does not cover time spent on substantive review, which sets the fee substantially lower than actual cost. The appeal fee is subsidized by the County General Fund.

⁵ The condition compliance fee shall be collected after approval of the discretionary entitlement for the project. The condition compliance fee is a flat fee assessed per permit. The fee is based on the estimated minimum reasonable cost, averaged across all land use permit approvals, of legal review of documents associated with compliance with conditions of approval. A separate mitigation monitoring fee is applicable to projects with mitigation measures and is in addition to the condition compliance fee. For projects with conditions of approval, projects approved after the effective date of this Article shall be subject to the condition compliance fees set forth in this Article. Projects approved prior to the effective date of this Article shall be subject to the condition compliance fees set forth in the County Fee Resolution that was in effect on the project approval date.

⁶ “Extraordinary Development Applications” are those applications which will require staff time well beyond the typical application, as determined by the Director of Housing and Community Development or Chief of Planning. These applications may include, by way of example and without limitation, applications for large scale development involving multiple discretionary entitlements, significant technical review by other land use agencies, and an anticipated lengthy time frame for processing because of their scope and complexity. Consistent with these criteria, any project requiring the preparation of an EIR shall qualify as an Extraordinary Development Application. The amount paid to the County is for staff costs separate from the cost of consultants. The County may utilize a consultant, whose expenses shall be fully funded by the project applicant.

E. Recordation Fee

The applicant for a discretionary land use development permit, use permit, construction permit, Williamson Act agreement, Mills Act contract, lot line adjustment, and/or any procedure that requires processing through the County and includes recording/filing of a document with the Monterey County Recorder shall, in addition to the payment of any and all other County fees, be required to pay any and all applicable standard recording/filing fees no later than the time of the recording/filing of that document. The payment of the applicable recording/filing fee shall be required whether or not the document is processed on behalf of the applicant by an employee of

⁸ The fees for compliance review of mitigation measures shall be collected after approval of the discretionary entitlement for the project. The mitigation monitoring fee is a flat fee assessed on each permit with mitigation measures and is in addition to the condition compliance fee. The flat fee is based on the estimated minimum reasonable cost, averaged across all land use permit approvals, of legal review of documents associated with compliance with mitigation measures. For projects with mitigation measures, projects approved after the effective date of this Article shall be subject to the mitigation monitoring fees set forth in this Article. Projects approved prior to the effective date of this Article shall be subject to the mitigation monitoring fees set forth in the County Fee Resolution that was in effect on the project approval date.

⁹ This fee applies only to deed restrictions that are not pursuant to a condition of approval or mitigation measure for a discretionary entitlement. If the deed restriction is pursuant to a condition of approval or mitigation measure for a discretionary entitlement, the applicable condition compliance or mitigation monitoring fee would apply.

the County of Monterey (e.g., Clerk of the Board) or is processed by the applicant. Failure to ensure full payment of such recording/filing fee by the time of the recording/filing shall be grounds for rejection of the recording/filing of that document with no liability to the County.

¹Applicable to projects that must comply with Monterey County Code 16.10 Digging and Excavation on the Former Fort Ord.

²General guidelines for complex tents & temporary structures that will require special inspections and signed letter from a structural engineer are as follows:

- a) more than single story;
- b) structural elements are covered/not visible and did not obtain approval of a building inspection throughout the build;
- c) contain complex truss systems, including truss systems with more than one truss section in length, width, or height, or are constructed to support display coverings;
- d) stages or elevated structures supporting stage appurtenances

General Notes

1. Hourly fees are charged in 0.25 hour increments

2. "Extraordinary development applications" are those applications which will require staff time well beyond the typical application, as determined by the Chief of Planning or Building Official. These applications may include, by way of example and without limitation, applications for large scale development involving multiple discretionary entitlements, significant technical review by other land use agencies, and/or an anticipated lengthy time frame for processing because of their scope and complexity. Consistent with these criteria, any project requiring the preparation of an EIR shall qualify as an extraordinary development application. The amount paid to the County is for staff costs. The County may utilize a consultant, whose expenses shall be fully funded by the project applicant.

3. All applications require diagram of project attached to permit.

4. Construction valuation is determined from the current International Code Council Building Valuation Data to be updated annually with the first published valuation table of the calendar year.

5. Technical Expertise services required for projects including, but not limited to Water Resources Agency, shall be billed based on Cost Plus administrative fees for costs incurred to process such requests and shall be calculated at the time of service.
