CNA and the County agree to support the Equal Opportunity Program established by the County and that there shall be no discrimination within their respective organizations because of race, color, religion, national origin, ancestry, marital status, sex, gender, age (over 40), physical or mental disability, medical condition, genetic information, sexual orientation, gender identity, other legally protected status, or CNA membership.

The County is committed to providing a work environment free from discrimination and unlawful harassment. The County's anti-harassment policy is publicly available to Nurses, patients, visitors, physicians, and all other hospital employees.

The County strictly prohibits any adverse action or retaliation against an employee for participating in an investigation of alleged violation of this policy. If an employee feels that he or she is being retaliated against, the employee shall immediately contact their supervisor, manager, Department Head, Human Resources, or the Civil Rights Office. Only hours worked within the differential periods listed below will be eligible for the differential pay. For shifts worked which span both evening and night shifts the shift differential will only be paid according to the differential in which the actual hours worked fall/occur.

A. An evening shift differential of three dollars (\$3.00) per hour shall be paid to all represented employees who, as part of their regular shift, work at least four (4) hours between 2:45 p.m. and 12:45 a.m., and whose shift starts after 12:31 p.m. Employees who work a consecutive 12-hour shift starting at 10:45 a.m. shall be paid an evening shift differential of three dollars (\$3.00) for the hours worked after 2:45 p.m.

20.3 Standby/On-Call - NMC

NMC may place employees on Standby/On-Call duty. Standby/On-Call duty refers to a situation where an off-duty employee holds him/herself available for immediate response as directed by management. No employee shall be paid for Standby/On-Call duty time and other compensable duty time simultaneously.

Any worker who is directed by management to return to her/his work assignment after physical departure from the worksite shall, upon returning to the worksite, receive a minimum of two (2) hours at one and one-half (1 ½) base hourly rate of pay. However, call backs within that same two (2) hour window will be counted as the same two (2) hour minimum. Any hours worked in excess of the two (2) hour minimum will be recorded as hours worked and paid at one and one-half (1 ½) base hourly rate of pay. Employees at Natividad Medical Center must clock-in and clock-out upon arrival and departure when returning from/to Standby/On-Call.

Any worker called by telephone to respond to an inquiry by management and not directed to physically return to the worksite shall receive a minimum of one (1) hour at one and one-half (1 ½) base hourly

rate of pay. However, inquiry calls within that same one (1) hour window will be counted as the same one (1) hour minimum. Any inquiry calls in excess of the one (1) hour minimum will be recorded as hours worked and paid at one and one-half (1 ½) base hourly rate of pay. (At NMC, examples of an “inquiry call” in this case may include but not be limited to: response to a Meditech or CPOE clinical question.)

1. An employee who is required to hold him/herself available to report to assigned site within 30 minutes in the below listed classes shall be compensated for Standby/On-Call pay at the rate of twelve dollars (\$12) per hour.

3. An employee who is required to hold him/herself available to report to assigned site within 30 minutes in the below listed classes shall be compensated for Standby/On-Call pay at the rate of twenty-two dollars \$22.00 per hour.

Staff Nurse I/II/III	
----------------------	--

It is expressly understood and agreed that management may exercise its right to float employees to any unit in lieu of call-off or Standby/On-Call. Employees placed on Standby/On-Call may likewise be required, pursuant to the Floating-NMC section of this MOU, to float to any unit as required by workload needs. Such employees will receive three dollars and twelve cents (\$3.12) per hour of float differential in accordance with Floating-NMC section of this MOU.

While it is understood that the County has the sole authority to change the rules and procedures by which administered, no substantive changes in said rules and procedures will be implemented without notification and an opportunity to respond by MCRNA.

Staff Nurse I/II/III

20.5 Call-Back - NMC

In those situations where an employee who is not on Standby/On-Call duty or otherwise being compensated and who, following the completion of his/her work day and departure from his/her place of employment, is unexpectedly called back and must report to a work site in response to a directive from management because of unanticipated work requirements, that employee shall be credited with a minimum of two (2) hours of work.

An employee assigned to Natividad Medical Center’s Information Technology, who is not on Standby/On-Call, who can resolve the work-related issue while on the telephone and is not required to return to the work site, shall be compensated at the regular rate of pay for one hour. Any additional telephone calls that are received within that one hour period shall not result in any additional

compensation unless the phone call required the employee to report to the work site, wherein the employee shall be compensated appropriately. Any telephone calls received after the one hour period, will entitle the employee to another one hour of compensation at the regular rate of pay.

Once an employee has initially been called back to duty under call-back conditions, no additional call-back work credit shall be credited for any subsequent call-back which occurs within the initial call-back minimum period. Correspondingly, only one call back minimum will apply during any subsequent call-back period which occurs more than two (2) hours after the completion of any prior call-back period.

Example: After leaving the place of employment an employee is called back to work at 10:00 p.m., completes the call back assignment at 10:45 p.m., and then departs the place of employment.

Question: How much work time is credited to the employee?

Answer: Two (2) hours.

Question: If the above employee is called back again at 11:30 p.m., does he/she receive another two (2) hour call back minimum?

Answer: No.

Question: If the above employee is called back at 3:00 a.m., does he/she receive another call back minimum?

Answer: Yes.

Question: If the above employee is then called back at 4:15 a.m. after finishing the 3:00 a.m. call back, does he/she receive another call back minimum?

Answer: No.

20.6 Show Up Time - NMC

Bargaining unit employees who report to work for their regularly scheduled shift may be released from work for lack of work. The employee shall be entitled to a minimum of (2) hours pay. The employee may be required to perform other duties for the duration of the two (2) hours at the discretion of management.

20.7 Bilingual Skill Pay

Bilingual pay shall be paid to an employee occupying a designated bilingual position who has certification of proficiency in the required language as appropriate for the position starting with the first full pay period following certification.

An employee occupying a primary bilingual position shall be paid a bilingual pay differential of forty-five (\$45.00) per pay period.

An employee occupying a provisional bilingual position shall be paid a bilingual pay differential of twenty-five (\$25.00) per pay period.

20.8 Charge Pay - NMC

A charge pay premium pay of five dollars (\$5.00) per hour shall be paid to Staff Nurse IIs as authorized by Management of the hospital for hours worked and designated as charge nurse for a nursing unit.

A charge pay premium of two dollars (\$2.00) per hour shall be paid to Staff IIIs as authorized by Management of the hospital for hours worked and designated as charge nurse for a nursing unit with the exception of those that qualify for the below.

As negotiated under the previously recognized Monterey County Registered Nurses' Association, Staff Nurse IIIs receiving a five percent (5%) differential for all hours worked shall continue to receive the differential and shall not be eligible for the charge pay premium of two dollars (\$2.00) per hour as defined above.

20.9 Floating - NMC

A. Employees in the class of Staff Nurse who are regularly assigned to a specific unit shall be paid a float differential of three dollars and twelve cents (\$3.12) per hour for each hour he/she is assigned to float outside of their assigned nursing cluster provided that such float exceeds a minimum of two (2) hours. Clusters for pay are defined as:

- Labor & Delivery (L&D), Maternal Infant Unit (MIU), Neonatal Intensive Care Unit (NICU), Nursery, Pediatrics
- Medical Surgical (includes Intermediate Care), Acute Rehabilitation Unit (ARU*), *ARU staff will not care for telemetry patients
- Intensive Care Unit (ICU), Medical Surgical (Intermediate Care only).
- Operating Room, Outpatient Post Surgery Services (OPSS), PACU, Interventional Radiology
- Mental Health, Acute Rehabilitation Unit (ARU)

B. The RN's responsibility when floating to new patient care unit or assigned to a new patient population:

1. Nurses will only be assigned those duties and responsibilities for which competency has been validated within the last year, as prescribed by the NMC Professional Standards Committee. Acuity and patient safety should be considered when assigning patients.
2. An RN who has demonstrated competency for the patient care unit will be responsible for planning and implementing patient care, providing clinical supervision, and coordinating the care given by LVN's and/or Nursing Assistants and unlicensed nursing personnel.
3. RN's who have not completed the competency validation for the unit cannot be assigned total responsibility for patient care, including duties and responsibilities for planning and implementing patient care and providing clinical supervision and coordination of care given by LVN's and/or Nursing Assistants and unlicensed nursing personnel, until all standards for competencies for that unit have been met. The RN shall be required to accept a limited assignment of nursing care duties which utilizes his/her currently validated clinical competence. ARU staff will not be trained to care for telemetry patients
 - Employees required to float shall be cross-trained in the clusters listed below; however, management or the employee may request that they be cross trained in other areas outside of their assigned cluster to provide maximum efficiency and high quality patient care during times of high census or low staffing. NMC shall make a reasonable

effort to cross-train employees in all areas within their assigned cluster, and to rotate the float duty among permanent staff members, and to float per diem employees first if they are deemed competent in another area other than the unit in which they are assigned, considering patient care needs. NMC shall continue to make reasonable efforts to increase the staffing in the float pool.

- Clusters for training are defined as:
- Labor & Delivery (L&D), Maternal Infant Unit (MIU), Neonatal Intensive Care Unit (NICU), Nursery, Pediatrics
- Medical Surgical Unit, Acute Rehabilitation Unit (ARU), Intensive Care Unit (ICU),
- Intensive Care Unit (ICU), Emergency Room (ER)
- Operating Room, Outpatient Post Surgery Services (OPSS), PACU, Interventional Radiology
- ARU, Mental Health

C. It is the dual responsibility of the hospital and employee to pursue and obtain competency skills training and validation for core competencies by attending required skills training provided by the Hospital. HR will send reminders.

Employees will be scheduled one shift per quarter in all departments within their cluster for orientation. For those in the cluster that includes Mental Health, orientation to Mental Health Unit will only be required once per year. Mental Health employees are not required to be orientated to other departments.

20.10 Educational Differential for Advanced Degrees

The County shall pay an educational differential, as listed in this section, for degrees achieved above the degree required by the minimum qualifications or required by law for the classification

- The employee must be assigned to a higher classification whose salary range is at least five percent (5%) higher than the range of the employee's regular classification.
- The assignment must be for over ten (10) consecutive working days.
- The employee must perform all of the duties of the higher classification.

For working out of class the employee shall be compensated at the step in the higher classification that provides an increase to the assigned employee of at least five percent (5%). Such additional compensation shall begin on the first day of the pay period following the assignment to the duties of the higher position.

ARTICLE 32 PERSONAL PROPERTY REIMBURSEMENT

Whenever an employee engaged in assigned official duties on behalf of the County sustains a loss of personal property, through no fault of the employee, that employee shall be eligible for reimbursement for such personal property.

A request for reimbursement must be submitted by claim to the Appointing Authority no later than thirty (30) calendar days from the date of loss. Management shall review the claim and when circumstances warrant, reimbursement shall be made.

Claims based on cash losses or losses due to lost or stolen credit cards shall not be considered.

Claims based upon damage to automobiles are subject to the following provisions. All four (4) conditions must be met before consideration will be given:

1. An employee, who drives his/her car incident to employment, shall have named the County as an additional insured on his/her automobile insurance policy as of the date the employee sustained the loss of his/her automobile.
2. Evidence of the required insurance coverage must be presented.
3. Invoice for work completed must be submitted. Reimbursement is limited to two hundred dollars (\$200).
4. The damage must have occurred while the employee was actually using the automobile on authorized County business, away from the employee's work place.

No reimbursement shall be granted for losses covered by some other source, insurance policy or agency.

A maximum limit of two hundred dollars (\$200) per incident shall apply to all claims for reimbursement.

No claims for reimbursement for items having a present value of less than ten dollars (\$10) shall be considered.

ARTICLE 33 GRIEVANCE PROCEDURE

A. Grievance Defined

A grievance is defined as a dispute over the interpretation or application of this Memorandum of Understanding by an employee adversely effected thereby, but shall not include the following:

- Disciplinary actions as defined herein which shall be subject to appeal through the procedure contained in this agreement for the appeal of disciplinary actions.
- Complaints regarding Equal Opportunity, Occupational Health and Safety, Workers' Compensation or discrimination complaints based on a lawfully pre-recognized protected classification or the applicable procedures for such complaints.
- The exercise of any County rights as specified in this Memorandum, so long as the exercise of such rights does not conflict with other provisions of this agreement.
- Any impasse or dispute in the meeting and conferring process, or any matter within the scope of representation.
- Any matter for which a different appeals procedure is provided either by statutes, ordinances,

resolutions, or agreements.

CNA shall be entitled to file a grievance on behalf of an employee or group of employees adversely affected by a grievable matter.

CNA may file a grievance on its own behalf only on those matters which pertain to the rights of CNA as an organization.

B. Limited Grievance Procedure Application

An employee shall be entitled to file a grievance which alleges that the County has failed to provide a specific condition of employment which is established by the Personnel Policies and Practices Resolution provided that the enjoyment of such right is not made subject to the discretion of the department head or the County, and provided further that the condition of employment which is the subject matter of the grievance is a matter within the scope of representation as defined in California Government Code Section 3504. Such limited grievances may not be appealed to arbitration.

C. No Discrimination

There shall be no restraint, interference, coercion, discrimination or reprisal against any employee for exercising any rights under the grievance procedure.

D. Time Limits

The time limits set forth herein are essential to the grievance procedure and shall be strictly observed. The time limits may be extended by agreement of the parties; however, any such extension must be confirmed in writing.

If at any stage of the grievance procedure the employee is dissatisfied with the decision rendered, it shall be the grievant's responsibility to submit the grievance to the next designated level within the time limits set forth.

Failure to submit the grievance within the time limits imposed shall terminate the grievance process and the grievance shall be considered settled on the basis of the last decision and the grievance shall not be subject to further appeal or reconsideration.

The grievant has the right to promptly proceed to the next step within the prescribed time limits if the appropriate management representative fails to respond within the time limits specified.

E. Grievance Procedure Steps

Step 1: Discussion with Immediate Supervisor

- The grievant shall first discuss the grievance informally with his/her immediate supervisor. The discussion shall be held within fifteen (15) working days of the action causing the grievance or of the date the action reasonably could have been expected to be known to the grievant. In no event shall any grievance be accepted for consideration more than six (6) months from the date of the action causing the grievance, regardless of the date the action became known to the grievant.
- Every reasonable effort shall be made to resolve the grievance at this level. The immediate supervisor shall verbally respond to the grievant within ten (10) working days of the informal discussion between the grievant and supervisor.

Step 2: Formal Written Grievance

- In the event the employee believes the grievance has not been satisfactorily resolved, the employee shall submit the grievance in writing to the supervisor within ten (10) working days after receipt

of the immediate supervisor's verbal response. The grievant shall file one (1) copy with the Human Resources Department. If the grievance is not presented within the time limits provided herein, it shall be deemed not to exist. Such written grievance shall:

1. Fully describe the grievance and how the employee(s) was/were adversely affected;
 2. Set forth the section(s) of the Memorandum of Understanding, allegedly violated;
 3. Indicate the date(s) of the incident(s) grieved;
 4. Specify the remedy or solution to the grievance sought by the employee(s);
 5. Identify the grievant and be signed by the grievant;
 6. Identify the person, if any, chosen by the grievant to be his/her representative.
- No modifications in the basic violation being alleged pursuant to this grievance procedure shall be made subsequent to filing of a grievance unless mutually agreed to by both the County and the grievant or the grievant's representative. However, corrections in citations or other clarifying amendments can be made at any time by the grievant or the grievant's representative.
 - Within seven (7) working days of receipt of the grievance, the immediate supervisor shall:
 1. Meet the grievant to discuss the grievance at the request of either party (i.e., the grievant, the grievant's representative or the supervisor);
 2. Deliver his/her written decision outlining the reasons behind the decision to the grievant and his/her representative within three (3) working days following the meeting, if held, or, if no meeting was held, within ten (10) working days of the receipt of the grievance.
 - Any grievance settled at this step shall be subject to the review and confirmation of the respective department head before the settlement may become effective. Such review will occur within five (5) working days or the grievance will automatically be moved to Step 3. In the event the department head does not confirm the settlement, the grievant may initiate Step 3 of this procedure.

Step 3: Department Head Review

- If a grievance is not settled at Step 2 of this procedure, the grievance may be appealed to the department head in writing within ten (10) working days from the receipt of the decision of the immediate supervisor or his/her failure to respond to the grievance. Said grievance appeal must specifically set forth the reason the answer previously provided by the supervisor is not satisfactory.

In submitting the grievance to Step 3, the grievant or CNA may request a meeting with the department head.

- If requested at the time of filing with the department head, a meeting will be held within seven (7) working days of the receipt of the appeal. The department head shall deliver his/her written decision to the grievant and/or his/her representative within three (3) working days of the date of the grievance meeting, if a meeting was held, or within ten (10) working days of the receipt of the appeal if no meeting was held. The department head's decision shall include the reasons on which the decision is based and the remedy or correction which has been offered, if any, to the grievant.

Step 4: Director of Human Resources /Mediation

- If a grievance is not settled at Step 3 of the procedure, the grievance may be appealed, in writing to the Director of Human Resources or his/her designee within ten (10) working days from the receipt of the department head's written response. Said grievance appeal must specifically set forth the reason the answer(s) previously provided by management is/are not satisfactory. A meeting

may be held by mutual agreement of the parties.

- Within ten (10) working days from receipt of the grievance, the Director of Human Resources or his/her designee shall deliver his/her written decision to the grievant and his/her representative. Said decision shall be final and binding, except as provided in the Arbitration section.
- In the event a represented employee chooses to waive a hearing by the Director of Human Resources or his/her designee, CNA on behalf of the employee shall, within the ten (10) day appeal period, make a written request to the Director of Human Resources or his/her designee to seek within 10 working days the assistance of a mediator from the State conciliation service in an attempt to resolve the grievance. The mediator shall have no authority to resolve the grievance except by agreement of CNA and the County. In the event the grievance is not resolved, neither evidence nor concessions agreed to or offered during mediation shall be admissible at the subsequent hearing.

If the grievance is not resolved through mediation, the Director of Human Resources or his/her designee shall issue a decision which shall be final and binding except as outlined in the provisions of this agreement concerning arbitration.

F. Notice of Meetings

The County and the grievant or the grievant's representative shall be responsible for giving notice of meetings and conferences to their representative parties at least twenty-four (24) hours prior to any meeting regarding a grievance whenever possible.

G. Representation

The employee has the right to the assistance of one employee representative/job steward in addition to a staff representative of CNA in the preparation and/or presentation of his/her grievance in Steps 1 through 4 of this procedure provided, however, that supervisory employees shall not represent non-supervisory employees.

An employee is also entitled to represent him/herself individually at any step of the grievance procedure, except in the arbitration procedure outlined this agreement. Only CNA may file for arbitration of a grievance.

A grievant may not change his/her designation of representative organization during the processing of a grievance, except by mutual agreement of the parties.

If the employee is represented in a formal grievance meeting, the department may also designate a management representative to be present in such a meeting.

H. Grievance Withdrawal

The grievant and his/her representative may withdraw the grievance at any state of the grievance procedure by giving written notice to the County representative who last took action on the grievance, with a copy to the Human Resources Department.

I. Grievance Resolution

If a grievance is resolved at Step 2, 3 or 4 in the procedure as provided herein, the grievant concerned shall indicate acceptance of the resolution by affixing his/her signature in the appropriate space indicated. If the employee has been represented by MCRNA at the Step of the procedure at which a resolution is reached, MCRNA representative shall also sign the appropriate document acknowledging that the employee has accepted the resolution.

Decisions on grievances where an employee represents him/herself shall not be considered precedent setting or binding with regard to any future grievances filed with respect to the same or similar matters.

J. Reconsideration

By mutual agreement, the parties may revert the grievance to a prior level for reconsideration. If the grievance is not then settled at the prior level, the grievant shall continue to have the rights set forth in this procedure.

K. Consolidation

The County may consolidate grievances, where, in its discretion, the grievances present substantially similar issues.

CNA may file group grievances at the second step of the grievance procedure by listing each person who claims to be adversely affected and all other data required in this section.

L. Processing Grievances

The grievant shall be granted reasonable time off with pay from regularly scheduled duty hours to process a grievance, provided that the time off will be devoted to the prompt and efficient investigation and handling of grievances, subject to the following:

- Neither a grievant nor a grievant's representative who is a county employee shall suffer any lost pay for attending any regularly scheduled grievance hearing required by the procedure herein set forth.
- A grievant or a grievant's representative shall notify their supervisor as soon as possible of scheduled grievance hearings and of any changes in the time or date of scheduled hearings in which they must participate.
- In no event shall a grievant be represented by more than one county employee at the grievance hearings.

ARTICLE 34 ARBITRATION

A. Grievance Arbitration

Within ten (10) working days from the receipt of the written decision resulting from a grievance heard by the Director of Human Resources, or his/her designated representative as provided in the Grievance Procedure section of this agreement, MCRNA, and only MCRNA, may request that the grievance, as defined below, be submitted to arbitration as provided hereinafter.

Only those unresolved grievances filed and processed in accordance with the Grievance Procedure of this agreement, and which directly concern or involve the interpretation and application of the specific terms and provisions of this agreement, may be submitted to arbitration.

Notwithstanding any other provisions of this agreement the following matters are expressly excluded from the arbitration:

- All matters relating to Equal Opportunity, Occupational Health and Safety or Workers' Compensation;
- "Interest" matters or matters within the scope of representation;
- Any matter for which a different appeals procedure is provided either by statutes, ordinances, resolutions or agreements;

- Grievances filed under the Limited Grievance Procedure Applications section of the Grievance Procedure of this agreement.

See the Nondiscrimination section of this MOU regarding discrimination grievances.

A request by CNA for arbitration of a grievance must be received by the Director of Human Resources or his/her designee within ten (10) working days of receipt by CNA of the written grievance procedure fourth step decision. Failure to request arbitration within the above time limits shall constitute an automatic forfeiture and an irrevocable waiver of the right to process the grievance appeal to arbitration. The notice shall set forth the specific issue or issues still unresolved through the grievance procedure which is being submitted to arbitration.

The parties shall select a mutually acceptable arbitrator.

The fees and expenses of the arbitrator shall be shared equally by the parties, it being understood and agreed that all other expenses including, but not limited to, fees for witnesses, transcripts and similar costs incurred by the parties during such arbitration, will be the responsibility of the individual party involved.

The decision of an arbitrator shall be final and binding upon the parties but shall not add to, subtract from, nor otherwise modify the terms and conditions of this agreement.

ARTICLE 35 LAYOFF PROCEDURE

A. Policy

The County may layoff an employee because of lack of work, lack of funds, material change in duties or organization, or in the interest of economy or causes outside the County's direct control. The County shall inform CNA regarding the effects of any planned reduction in force or layoffs which will affect the department's work force.

If it appears to a department that a reduction in force of three (3) or more employees within the bargaining unit may be required, the department shall contact CNA and offer to discuss the possible reduction and to invite suggestions for possible cost saving alternatives to layoffs. If alternatives to layoffs are not developed by the time the department determines a layoff should occur, the procedure outlined in Section 33 B below shall be followed.

The County shall give CNA written, advance notice of any layoff of a CNA member.

B. Procedure

Layoffs will be determined within County departments, not the County as a whole. In the event of a reduction in force in a department, the department head shall designate the classes, positions, and number of employees to be eliminated. The department at this time shall provide CNA with a current seniority list for those employees and classes affected.

Layoffs shall be made among all representation unit employees in the same class series within a County department in the following order:

- Temporary employees.
- Probationary new employees (excluding promotional probationary employees.)
- Permanent employees.

No permanent employee within a department shall be laid off in any class if there are temporary employees in an active status in the same class within that department.

Layoff shall be by ranking sequence of employees except as otherwise provided herein.

1. Rank in Class Defined

Rank shall be defined as the length of continuous service in a class series as determined by County personnel records while occupying a permanent position within the County. Length of continuous service is prorated based on the employee's regular schedule (FTE, full-time equivalent). Continuous service for purposes of ranking for layoff shall be defined to include work related injury leave of up to one (1) year's duration.

2. Natividad Medical Center--Temporary Status Option

A permanent employee of Natividad Medical Center subject to layoff shall be entitled to assume temporary employee status in lieu of layoff provided the employee is qualified to assume the duties and responsibilities of an existing temporary position and class. No new temporary positions shall be created for the sole purpose of eliminating permanent employees.

3. Order of Layoff, Exception to Ranking Sequence

Layoffs of employees within each category of employment status within a department and within a class series shall be based on ranking sequence unless it can be demonstrated that: 1) an employee possesses special skills, training, or abilities, or 2) the employee's past job performance or disciplinary record justifies an alternative ranking, or 3) the employee may be, by virtue of ranking sequence subject to disparate treatment.

4. Ranking in Previous Class

A permanent full-time or part-time employee may elect to be ranked with employees in any class in the same department with the same or lower salary in which the employee has served in permanent status in the County service. An employee must notify his/her Appointing Authority within two (2) days after receipt of written notice of layoff of election of this option except if the second day following notice of layoff is not a regularly scheduled work day, the employee may give notice on the next work day.

5. Demotion in Lieu of Layoff

In lieu of layoff, the department head may offer a permanent employee a demotion to any class for which the employee is qualified. Employees demoted in lieu of layoff, pursuant to this paragraph, shall not be eligible for the "Y" rating procedure. An employee who chooses a demotion in lieu of layoff shall have the right of restoration to his or her former class when an opening occurs and his or her ranking sequence warrants restoration subject to the provisions of Reemployment of Employees Laid Off below.

C. Notice

Written notice of layoff shall be served on the affected employees in person or mailed by the United States Postal service to the employee's latest address on file with the County. The layoff notice shall be served or mailed at least twenty-one (21) calendar days prior to the expected effective date of separation unless delay results from consideration of demotion under the provisions of the Layoff section. The notice shall include:

- The reason for the layoff.
- The effective date of the action.
- A reference to the provisions governing reemployment.

- Notice that employment counseling is available.
- A copy of the notice shall be given to CNA.

D. Reemployment of Employees Laid Off.

The names of persons laid off under these procedures shall be maintained on a departmental recall list for the class series from which the employee was laid off for a period of one (1) year from the date of layoff. When filling any position, the department head shall reemploy laid off employees from the departmental recall list for the class of the position in inverse order of layoff. No new employee shall be hired nor shall any employee be promoted in any class until all employees on layoff status in that class have had the opportunity to return to work.

However, when the best interest of the County requires an employee with demonstrated special qualifications, skills or training, the department head may make an exception to the above order of recall in order to appoint an employee out of ranking sequence.

Every employee given notice of layoff may request employment counseling and evaluation in order to determine those job classes within the County for which the employee meets employment eligibility requirements and desires to be considered for employment from a preferred eligible list. Such counseling and evaluation shall be available by appointment in order of request. Following the counseling and evaluation, laid off employee's name shall be placed on a preferred eligible list for each class designated as a result of the counseling and evaluation. When the Human Resources Department receives a request to refer applicants to a department for a vacant position in a class for which there exists a preferred eligible list, the laid off employee on the list shall be considered for employment prior to any job applicant. A competitive job related selection process may be used to determine the order in which laid off employees on a preferred eligible list for a class will be referred for an interview.

A laid off employee may be removed from the department recall list or a preferred eligible list for any of the following reasons:

- The expiration of one (1) year from the date of layoff.
- Reemployment within the County.
- Failure to accept employment or report to work.
- Failure to appear for a job interview after notification by telephone or by mail addressed to the employee's last address on file with the County.
- Failure to respond within seven (7) days to a communication regarding availability of employment.
- Request in writing by the laid off employee to be removed from the list.

E. Restoration of Benefits for Recalled Employees

Any employee who has been laid off and is hired from a departmental recall list within one (1) year from the date of layoff shall be entitled to:

- Restoration of permanent status for employees who are rehired from a departmental recall list and class from which they were laid off, and who have completed their probationary period. For employees who have not completed their probationary period, credit for that portion which has been completed shall be given if rehired from a departmental recall list.
- Restoration of all sick leaves credited to the employee's account on the date he/she was laid off.

- Credit for all prior service for the purpose of determining vacation accrual rates and service awards.
- Placement in the same step of the salary range the employee held at the time of layoff.
- Reinstatement of credit for service time (ranking) as of the date of layoff.

F. Insurance Coverage

Each permanent employee who is enrolled in the County Health Plan at the time of layoff may, prior to the effective date of the layoff, elect to enroll in a health insurance conversion plan offered by our then current health plan administrative carrier. In the event the laid off employee so elects, the County will pay an amount equal to two (2) times the employee only premium at the time of layoff toward the cost of the health insurance conversion plan. The above insurance provision does not apply to employees who retire coincidental to their layoff.

G. Appeal Procedure (Layoff)

An employee directly affected by the operation of this policy may, within five (5) working days after a notice of layoff is received, request a meeting with a department head or the department head's designated representative to review the application of this policy as it affects the employee's status. A representative of CNA may accompany the employee.

CNA, and only CNA, after making an attempt to resolve the matter informally, may within seven (7) days of the date of an alleged violation of this policy file a grievance for final consideration and determination at the department head level in accordance with the provisions of the grievance procedure in effect between the County and CNA. A grievance filed in accordance with this paragraph shall not be subject to Article 34, "Arbitration," of this agreement.

ARTICLE 36 DISCIPLINE

Article 30 does not apply to per diem employees as they are at-will.

A. Disciplinary Actions

The Appointing Authority or his/her designee may take disciplinary action against any employee in the service of Monterey County provided that the rules and regulations prescribed herein are followed and that any permanent employee who is not on any form of probationary status has the right to appeal pursuant to this section, except as herein provided. As used in this section, "disciplinary action" shall mean dismissal, involuntary leave, disciplinary demotion, reduction in salary, or formal written reprimand. Unless agreed upon by the parties to this Agreement, the Appointing Authority or his/her designee will make an effort to notice, either in person, email or by U.S. Postal Service, the employees of the need for an Investigatory meeting no more than forty-five (45) days after the departmental Human Resources Office learns of the specific alleged employee misconduct so long as the notice does not jeopardize the investigation.

B. Notice of Disciplinary Action

In order to institute disciplinary action, the Appointing Authority or his/her designee shall serve notice of the proposed disciplinary action in accordance with the following procedures.

Except as otherwise provided herein or when emergency or other special circumstances require immediate action, a notice of proposed disciplinary action (other than for formal reprimand) shall be delivered to the employee, either personally or by the United States Postal Service, to the current address listed on the employee's most recent personnel action form, no less than five (5) calendar days prior to the effective date of any punitive action against the employee. The employee will be provided

with a "Release of Information" form that they may sign authorizing the County to provide the Union with all materials upon which the action is based. The County will notify the Union and mail the materials to the Union within two (2) working days.

The notice of proposed disciplinary action shall include the following:

- a. The nature of the disciplinary action;
- b. The effective date of the action;
- c. The causes for the action in ordinary, concise language with the dates and places thereof, when known;
- d. A statement that identifies the material upon which the action is based and states that it is available for inspection; and
- e. A statement advising the employee of his/her right to respond either verbally or in writing to the Appointing Authority or his/her designee imposing the disciplinary action prior to the effective date and the right to be represented in that response and reference to that section of this agreement titled "Appeals from Disciplinary Action" and a statement that members of the bargaining unit are represented by the California Nurses Association, hereinafter, "the Association."

C. Implementation of Discipline

In the case of an Involuntary Leave Without Pay of five (5) working days or less, or an Involuntary Leave With Pay of twenty (20) working days or less, the suspension may be imposed by a single notice containing items a, b, c and d above. This notice shall be delivered to the employee on or as soon after the effective date of the involuntary leave as possible.

Except as provided above, in order to implement the proposed disciplinary action or a lesser disciplinary action based on the same cause(s), a notice of disciplinary action shall be delivered to the employee, either personally or by the United States Postal Service to the current address listed on the employee's most recent Personnel Action form, on or before the effective date of the disciplinary action.

The notice of disciplinary action shall contain the information in items A, B, C and D above and, in addition, shall include a statement as to the right of appeal and representation by a party of his/her own choice and shall include a referral to the section of this agreement concerning appeals from disciplinary action and shall include a statement that members of the bargaining unit are represented by the Association.

D. Reprimand

An Appointing Authority or his/her designee may reprimand an employee by furnishing him/her with a statement, in writing, of the specific reasons for such reprimand. A copy of notice of the reprimand shall be included in the employee's personnel file, and shall not be subject to appeal, but the employee and/or his/her representative shall have the right to discuss the reprimand with the Appointing Authority or his/her designee. The Appointing Authority or his/her designee may correct the reprimand, or notice of reprimand, at his/her discretion. The employee may submit a written response that shall be placed in his/her personnel file.

E. Involuntary Leave Without Pay

Any involuntary leave without pay invoked as a disciplinary action under this section against any employee in the County service, whether for one or more periods, shall not exceed sixty (60) calendar days in any one (1) calendar year; provided, however, that where a an employee is placed on an

involuntary leave without pay because of criminal information or indictment filed against such employee, the period of involuntary leave may exceed sixty (60) calendar days and continue until, but not after, the expiration of thirty (30) calendar days after the dropping of charges, or the judgment or conviction or acquittal of the offense charged in the complaint, or indictment has become final. An employee placed on such involuntary leave shall forfeit all rights, privileges, and salary while on such involuntary leave.

The sixty (60) day restriction shall apply only to managerial imposition of discipline and is not intended to restrict the ability of a third-party neutral to invoke a greater period of involuntary leave.

F. Involuntary Leave Pending Investigation for Disciplinary Action

An Appointing Authority or his/her designee may place an employee under his/her control on involuntary leave from his/her position at any time for reasons of investigation for disciplinary action. Such involuntary leave shall be subject to the limits set forth in this MOU. Written notice of such involuntary leave shall be given to the employee as soon as possible but not later than seventy-two (72) hours after such action is taken. Such involuntary leave is not a disciplinary action and shall not be subject to appeal unless it, or any portion of it, subsequently becomes a disciplinary action.

G. Reduction in Salary

An Appointing Authority or his/her designee may reduce the salary of an employee, for disciplinary reasons, provided that such reduction shall be to a step within the salary range of the classification of the position held by the employee. An employee so reduced in salary shall retain his/her anniversary date but shall not be eligible for advancement to a higher step in the salary range of his/her job classification for a period of six (6) months from the date their reduction in salary became effective.

H. Disciplinary Demotion

An Appointing Authority or his/her designee may demote an employee, for disciplinary reasons, to any position with a lower salary range, provided the employee meets minimum qualifications for the lower-level position. Such demoted employee shall not be eligible for promotion for a period of six (6) calendar months.

I. Dismissal

The continued tenure of each employee who has permanent status shall be subject to his/her satisfactory conduct and the rendering of efficient service. Should the cause for disciplinary action so warrant, an employee may be dismissed.

J. Absence Without Leave Separation

An employee absent from duty for a period which exceeds three (3) working days without authorized leave shall be considered to have abandoned his/her position and to have automatically resigned.

Such resignation shall be rescinded by the Appointing Authority if the employee can show to the satisfaction of the Appointing Authority that it was impossible to contact the department of employment, provided the employee contacts the department within five (5) working days of notice of separation under this section through United States Mail.

K. Statute of Limitations

Any disciplinary action for cause against a county employee shall not be valid unless the notice of disciplinary action is served within one (1) year of the date of discovery of the event which gave rise to the cause of discipline. Matters of serious nature (e.g., fraud, embezzlement, falsification of records) shall require written notice to the employee of disciplinary action within the three (3) years

after the event which gave rise to the disciplinary action. Disciplinary action based on fraud, embezzlement, or the falsification of records shall be valid, if the notice of such action is served within the three (3) years after the discovery of such fraud, embezzlement, or falsification.

Nothing herein shall preclude the County from disciplining an employee for cause which consists of a course of conduct or history of performance that began more than three (3) years prior to the notice of disciplinary action. Such disciplinary and/or performance record of beyond three (3) years shall only be used to determine the disciplinary penalty to be imposed.

L. Appeals from Disciplinary Action

All Unit S employees covered in this Agreement and who are not on probation, shall have the right of appeal from disciplinary actions other than written reprimands.

The written notice of appeal must:

- State the basis of the appeal and contain a specific admission or denial of each of the material allegations contained in the notice of disciplinary action, and;
- Be filed with the County Administrative Officer within ten (10) working days of the effective date of the disciplinary action, and;

Appeals to arbitration shall only be filed by the Association.

Failure to appeal within the time limit set forth in this section shall constitute an irrevocable waiver of the right to process the appeal to arbitration.

Within ninety (90) calendar days of the receipt of the appeal to the County Administrative Officer the County and the Association shall agree upon an arbitration hearing date.

The parties shall select a mutually acceptable arbitrator.

The fees and expenses of the arbitrator in non-termination cases shall be shared equally by the parties, it being understood and agreed that all other expenses including, but not limited to, fees for witnesses, transcripts and similar costs incurred by the parties during such arbitration, will be the responsibility of the individual party involved. In cases of termination, the fees and expenses of the arbitrator shall be paid by the County.

ARTICLE 37 PERSONNEL RECORDS

The County and MCRNA agree that personnel records are not subject to public inspection.

All personnel records are and remain the property of the County.

Employees shall have the right to inspect and review any official record relating to his/her performance as an employee, which is kept or maintained by the County. Employees who request a copy, shall be provided a copy of written reprimands or counseling memos.

When any comment adverse to an employee's interest is entered in his/her official personnel records, the employee shall have opportunity to read the adverse entry.

Notwithstanding any other provision of this item, County and MCRNA agree that an employee is not entitled to inspect or review such documents as reference letters, background investigations, records pertaining to investigation of a possible criminal offense, or material designated confidential by law.

At his/her request, an employee shall be provided one (1) copy of any document placed in the employee's file except for employment applications and those documents listed above.

An employee, or a staff representative of MCRNA with the prior written consent of the employee, may upon request inspect that employee's personnel file during regular business hours by appointment.

The Appointing Authority shall keep the official personnel records of all employees within his/her department.

It is mutually recognized that all performance related materials contained within an employee's personnel file may provide material substance and support to proposed and imposed disciplinary actions. Nothing in this Agreement shall preclude the use of any material in an employee's personnel file from being used in any proceeding involving the decision of the Appointing Authority to take disciplinary action against the employee.

ARTICLE 38 TRANSFERS AND REASSIGNMENTS

38.1 Reassignments

The County retains the sole right to reassign employees from one work site or nursing unit to another. Except when an immediate reassignment is necessary to meet the requirements of the department, employees shall receive notice five (5) business days prior to the effective date of the reassignment. The County also retains the right to reassign employees from one bureau to another in the event of operational need, reorganization, or a change in funding.

38.2 Transfers- Natividad Medical Center

Transfer opportunities at Natividad Medical Center will be posted every Monday in the HR bulletin board outside the cafeteria and in the HR department. Employees covered by this agreement may request to transfer to another unit/department within Natividad Medical Center after serving a minimum of one (1) year in their current unit/department.

38.3 Transfers- Health Department:

The Health Department has work sites throughout the County. Health Department Human Resources will work collaboratively with CNA to establish an effective and efficient method for communicating transfer opportunities.

Employees covered by this agreement may request to transfer to another unit/bureau within the Health Department after serving a minimum of one (1) year in their current unit/bureau.

Employees who desire to be transferred within their respective job classes to a specific work location within their own department may submit a written request for transfer to the appropriate department representative. Such requests filed hereunder shall be retained for a period of one (1) year from date of filing and must be renewed if the employee still desires to be considered for reassignment beyond that date. Management shall respond to the request for transfer by notifying the employee of the status of their request within ninety (90) calendar days of its receipt.

When management contemplates filling vacancies and/or openings by transferring employees from one work site or location to a different location, management will consider the following criteria:

- The overall needs of the department
- Requirements of job
- Special qualifications, skills, abilities or training to perform job
- The duration and/or permanence of the transfer

If the above criteria are equally met, the seniority of the employee with the Health Department shall determine selection.

38.4 Shift Changes- Natividad Medical Center

After the completion of their probationary period or one (1) year an employee may notify the Natividad Human Resources Department of their desire to change shifts by submitting a Shift Change form. Human Resources will record the date and time of the request and maintain the information of employees, by unit, in the order in which the shift change was requested. This information will be available to employees in the Natividad Human Resources Department for their corresponding unit. The order of shift change requests will be on a first come, first serve basis.

When a shift becomes available the department manager will consider the oldest request on file first and determine if it is operationally feasible to grant such request. If the oldest request is not selected the department will inform the employee of the reason for not selecting the oldest request.

If an employee declines the shift change, they will remain on the list in their same order; however, if they decline the second time they will be automatically removed from the list and will have to resubmit their request for shift change.

APPENDIX B AB 394

The County of Monterey agrees to adhere to the relevant provisions of Assembly Bill 394 as required by the legislation for the Health Department and Natividad. Assembly Bill 394 is included as an Appendix to this agreement for reference. This Article is not subject to the grievance procedure.

Assembly Bill 394:

FEBRUARY 11, 1999

An act to add Section 2725.3 to the Business and Professions Code, and to add Section 1276.4 to the Health and Safety Code, relating to health care.

LEGISLATIVE COUNSEL'S DIGEST

AB 394, Kuehl, Health facilities: nursing staff.

Existing law provides for the licensing, registration, and regulation of nurses, and sets forth the scope of practice.

This bill would prohibit a general acute care hospital, an acute psychiatric hospital, and a special hospital, as defined, from assigning an unlicensed person to perform nursing functions in lieu of a registered nurse, or from allowing unlicensed personnel under the direct clinical supervision of a registered nurse to perform certain functions.

Existing law prohibits operation of a health facility, as defined, without a license issued by the State Department of Health Services and provides for the issuance of licenses and for the regulation of health facilities and sets forth the services to be provided therein.

Willful or repeated violation of these provisions is a crime.

This bill would require the department, with regard to general acute care hospital, acute psychiatric hospitals, and special hospitals, to adopt regulations that establish certain minimum nurse-to-patient

ratios, and would require these health facilities to adopt written policies and procedures for training and orientation of nursing staff. This bill would authorize the department to take into consideration the unique nature of the University of California teaching hospitals as education institutions when establishing the ratios, in accordance with certain requirements. This bill would also require a county hospital in Los Angeles County to be subject to a phase-in process developed in conjunction with the department.

By changing the definition of an existing crime this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS :

SECTION 1. The Legislature finds and declares all of the following:

- a. Health care services are becoming complex and it is increasingly difficult for patients to access integrated services.
- b. Quality of patient care is jeopardized because of staffing changes implemented in response to managed care.
- c. To ensure the adequate protection of patients in acute care settings, it is essential that qualified registered nurses and other licensed nurses be accessible and available to meet the needs of patients.
- d. The basic principles of staffing in the acute care setting should be based on the patient's care needs, the severity of condition, services needed, and the complexity surrounding those services.

SEC. 2. Section 2725.3 is added to the Business and Professions Code, to read:

3. (a) A health facility licensed pursuant to subdivision (a), (b), or (f), of Section 1250 of the Health and Safety Code shall not assign unlicensed personnel to perform nursing functions in lieu of a registered nurse and may not allow unlicensed personnel to perform functions under the direct clinical supervision of a registered nurse that require a substantial amount of scientific knowledge and technical skills, including, but not limited to, any of the following:
 1. Administration of medication.
 2. Venipuncture or intravenous therapy.
 3. Parenteral or tube feedings.
 4. Invasive procedures including inserting nasogastric tubes, inserting catheters, or tracheal suctioning.
 5. Assessment of patient condition.

6. Educating patients and their families concerning the patient's health care problems, including post-discharge care.
7. Moderate complexity laboratory tests.

- b. (b) This section shall not preclude any person from performing any act or function that he or she is authorized to perform pursuant to Division 2 (commencing with Section 500) or pursuant to existing statute or regulation as of July 1, 1999.

SEC. 3. Section 1276.4 is added to the Health and Safety Code, to read:

4. 7.4.(a) By January 1, 2001, the State Department of Health Services shall adopt regulations that establish minimum, specific, and numerical licensed nurse-to-patient ratios by licensed nurse classification and by hospital unit for all health facilities licensed pursuant to subdivision (a), (b), or (f) of Section 1250. The department shall adopt these regulations in accordance with the department's licensing and certification regulations as stated in Sections 70053.2, 70215, and 70217 of Title 22 of the California Code of Regulations, and the professional and vocational regulations in Section 1443.5 of Title 16 of the California Code of Regulations. The department shall review these regulations five years after adoption and shall report to the Legislature regarding any proposed changes. Flexibility shall be considered by the department for rural general acute care hospitals in response to their special needs. As used in this subdivision, "hospital unit" means a critical care unit, burn unit, labor and delivery room, post-anesthesia service area, emergency department, operating room, pediatric unit, step-down/intermediate care unit, specialty care unit, telemetry unit, general medical care unit, sub-acute care unit, and transitional inpatient care unit. The regulation addressing the emergency department shall distinguish between regularly scheduled core staff licensed nurses and additional licensed nurses required to care for critical care patients in the emergency department.
- (b) These ratios shall constitute the minimum number of registered and licensed nurses that shall be allocated. Additional staff shall be assigned in accordance with a documented patient classification system for determining nursing care requirements, including the severity of the illness, the need for specialized equipment and technology, the complexity of clinical judgment needed to design, implement, and evaluate the patient care plan and the ability for self-care, and the licensure of the personnel required for care.
- c. "Critical care unit" as used in this section means a unit that is established to safeguard and protect patients whose severity of medical conditions requires continuous monitoring, and complex intervention by licensed nurses.
 - d. All health facilities licensed under subdivision (a), (b), or (f) of Section 1250 shall adopt written policies and procedures for training and orientation of nursing staff.
 - e. No registered nurse shall be assigned to a nursing unit or clinical area unless that nurse has first received orientation in that clinical area sufficient to provide competent care to patients in that area, and has demonstrated current competence in providing care in that area.
 - f. The written policies and procedures for orientation of nursing staff shall require that all temporary personnel shall receive orientation and be subject to competency validation

consistent with Sections 70016.1 and 70212 of Title 22 of the California Code of Regulations.

- g. Requests for waivers to this section that do not jeopardize the health, safety, and well-being of patients affected and that are needed for increased operational efficiency may be granted by the state department to rural general acute care hospitals meeting the criteria set forth in Section 70059.1 of Title 22 of the California Code of Regulations.
- h. In case of conflict between this section and any provision or regulation defining the scope of nursing practice, the scope of practice provisions shall control.
- i. The regulations adopted by the department shall augment and not replace existing nurse-to-patient ratios that exist in regulation or law for the intensive care units, the neonatal intensive care units, or the operating room.
- j. The regulations adopted by the department shall not replace existing licensed staff-to-patient ratios for hospitals operated by the State Department of Mental Health.
- k. The regulations adopted by the department for health facilities licensed under subdivision (b) of Section 1250 that are not operated by the State Department of Mental Health shall take into account the special needs of the patients served in the psychiatric units.
- l. The department may take into consideration the unique nature of the University of California teaching hospitals as educational institutions when establishing licensed nurse-to-patient ratios. The department shall coordinate with the Board of Registered Nursing to ensure that staffing ratios are consistent with the Board of Registered Nursing approved nursing education requirements. This includes nursing clinical experience incidental to a work-study program rendered in a University of California clinical facility approved by the Board of Registered Nursing provided there will be sufficient direct care registered nurse preceptors available to ensure safe patient care.
- m. (m) A county hospital in a county of the first class, as defined in Section 278022 of the Government Code, shall be subject to a phase-in process developed in conjunction with the department. This phase-in process shall be completed within one year of the adoption of the regulations that implement this section.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIIB of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIIB of the California Constitution.

Staffing Regulations adopted by DHS effective 1/1/04

70217. Nursing Service Staff.

- a. Hospitals shall provide staffing by licensed nurses, within the scope of their licensure in accordance with the following nurse-to-patient ratios. Licensed nurse means a registered

nurse, licensed vocational nurse and, in psychiatric units only, a licensed psychiatric technician. Staffing for care not requiring a licensed nurse is not included within these ratios and shall be determined pursuant to the patient classification system.

No hospital shall assign a licensed nurse to a nursing unit or clinical area unless that hospital determines that the licensed nurse has demonstrated current competence in providing care in that area and has also received orientation to that hospital's clinical area sufficient to provide competent care to patients in that area. The policies and procedures of the hospital shall contain the hospital's criteria for making this determination.

Licensed nurse-to-patient ratios represent the maximum number of patients that shall be assigned to one licensed nurse at any one time. "Assigned" means the licensed nurse has responsibility for the provisions of care to a particular patient within his/her scope of practice. There shall be no averaging of the number of patients and the total number of licensed nurses on the unit during any one shift nor over any period of time. Only licensed nurses providing direct patient care shall be included in the ratios.

Nurse Administrators, Nurse Supervisors, Nurse Managers, and Charge Nurses, and other licensed nurses shall be included in the calculation of the licensed nurse-to-patient ratio only when those licensed nurses are engaged in providing direct patient care. When a Nurse Administrator, Nurse Supervisor, Nurse Manager, Charge Nurse or other licensed nurse is engaged in activities other than direct patient care, that nurse shall not be included in the ratio. Nurse Administrators, Nurse Supervisors, Nurse Managers, and Charge Nurses who have demonstrated current competence to the hospital in providing care on a particular unit may relieve licensed nurses during breaks, meals, and other routine, expected absences from the unit.

Licensed vocational nurses may constitute up to 50 percent of the licensed nurses assigned to patient care on any unit, except where registered nurses are required pursuant to the patient classification system or this section. Only registered nurses shall be assigned to Intensive Care Newborn Nursery Service Units, which specifically require one registered nurse to two or fewer infants. In the Emergency Department, only registered nurses shall be assigned to triage patients and only registered nurses shall be assigned to critical trauma patients. Nothing in this section shall prohibit a licensed nurse from assisting with specific tasks within the scope of his or her practice for a patient assigned to another nurse. "Assist" means that licensed nurses may provide patient care beyond their patient assignments if the tasks performed are specific and time-limited.

1. The licensed nurse-to-patient ratio in a critical care unit shall be 1:2 or fewer at all times. "Critical care unit" means a nursing unit of a general acute care hospital which provides one of the following services: an intensive care service, a burn center, a coronary care service, an acute respiratory service, or an intensive care newborn nursery service. In the intensive care newborn nursery service, the ratio shall be 1 registered nurse: 2 or fewer patients at all times.
2. The surgical service operating room shall have at least one registered nurse assigned to the duties of the circulating nurse and a minimum of one additional person serving as scrub assistant for each patient-occupied operating room. The scrub assistant may be a licensed nurse, an operating room technician, or other person who has demonstrated current competence to the hospital as a scrub assistant, but shall not be

a physician or other licensed health professional who is assisting in the performance of surgery.

3. The licensed nurse-to-patient ratio in a labor and delivery suite of the peri-natal service shall be 1:2 or fewer active labor patients at all times. When a licensed nurse is caring for ante-partum patients who are not in active labor, the licensed nurse-to-patient ratio shall be 1:4 or fewer at all times.
4. The licensed nurse-to-patient ratio in a postpartum area of the peri-natal service shall be 1:4 mother-baby couplets or fewer at all times. In the event of multiple births, the total number of mothers plus infants assigned to a single licensed nurse shall never exceed eight. For postpartum areas in which the licensed nurse's assignment consists of mothers only, the licensed nurse-to-patient ratio shall be 1:6 or fewer at all times.
5. The licensed nurse-to-patient ratio in a combined Labor/Delivery/Postpartum area of the peri-natal services shall be 1:3 or fewer at all times the licensed nurse is caring for a patient combination of one woman in active labor and a postpartum mother and infant. The licensed nurse-to-patient ratio for nurses caring for women in active labor only, ante-partum patients who are not in active labor only, postpartum women only, or mother-baby couplets only, shall be the same ratios as stated in subsections (3) and (4) above for those categories of patients.
6. The licensed nurse-to-patient ratio in a pediatric service unit shall be 1:4 or fewer at all times.
7. The licensed nurse-to-patient ratio in a post-anesthesia recovery unit of the anesthesia service shall be 1:2 or fewer at all times, regardless of the type of anesthesia the patient received.
8. In a hospital providing basic emergency medical services or comprehensive emergency medical services, the licensed nurse-to-patient ratio in an emergency department shall be 1:4 or fewer at all times that patients are receiving treatment. There shall be no fewer than two licensed nurses physically present in the emergency department when a patient is present.

At least one of the licensed nurses shall be a registered nurse assigned to triage patients. The registered nurse assigned to triage patients shall be immediately available at all times to triage patients when they arrive in the emergency department. When there are no patients needing triage, the registered nurse may assist by performing other nursing tasks. The registered nurse assigned to triage patients shall not be counted in the licensed nurse-to-patient ratio.

Hospitals designated by the Local Emergency Medical Services (LEMS) Agency as a "base hospital", as defined in section 1797.58 of the Health and Safety Code, shall have either a licensed physician or a registered nurse on duty to respond to the base radio 24 hours each day. When the duty of base radio responder is assigned to a registered nurse, that registered nurse may assist by performing other nursing tasks when not responding to radio calls, but shall be immediately available to respond to requests for medical direction on the base radio. The registered nurse assigned as base radio responder shall not be counted in the licensed nurse-to-patient ratios.

When licensed nursing staff are attending critical care patients in the emergency department, the licensed nurse-to-patient ratio shall be 1:2 or fewer critical care patients at all times. A patient in the emergency department shall be considered a critical care patient when the patient meets the criteria for admission to a critical care service within the hospital.

Only registered nurses shall be assigned to critical trauma patients in the emergency department, and a minimum registered nurse-to-critical trauma patient ratio of 1:1 shall be maintained at all times. A critical trauma patient is a patient who has injuries to an anatomic area that: (1) require lifesaving interventions, or (2) in conjunction with unstable vital signs, pose an immediate threat to life or limb.

9. The licensed nurse-to-patient ratio in a step-down unit shall be 1:4 or fewer at all times. Commencing January 1, 2008, the licensed nurse-to-patient ratio in a step-down unit shall be 1:3 or fewer at all times. A “step down unit” is defined as a unit which is organized, operating, and maintained to provide for the monitoring and care of patients with moderate or potentially severe physiologic instability requiring technical support but not necessarily artificial life support. Step-down patients are those patients who require less care than intensive care, but more than that which is available from medical/surgical care. “Artificial life support” is defined as a system that uses medical technology to aid, support, or replace a vital function of the body that has been seriously damaged. “Technical support” is defined as specialized equipment and/or personnel providing for invasive monitoring, telemetry, or mechanical ventilation, for the immediate amelioration or remediation of severe pathology.
10. (10) The licensed nurse-to-patient ratio in a telemetry unit shall be 1:5 or fewer at all times. Commencing January 1, 2008, the licensed nurse-to patient ratio in a telemetry unit shall be 1:4 or fewer at all times. “Telemetry unit” is defined as a unit organized, operated, and maintained to provide care for a continuous cardiac monitoring of patients in a stable condition, having or suspected of having a cardiac condition or a disease requiring the electronic monitoring, recording, retrieval, and display of cardiac electrical signals. “Telemetry unit” as defined in these regulations does not include fetal monitoring nor fetal surveillance.
11. (11) The licensed nurse-to-patient ratio in medical/surgical care units shall be 1:6 or fewer at all times. Commencing January 1, 2005, the licensed nurse-to-patient ratio in medical/surgical care units shall be 1:5 or fewer at all times. A medical/surgical unit is a unit with beds classified as medical/surgical in which patients, who require less care than that which is available in intensive care units, step-down units, or specialty care units receive 24 hour inpatient general medical services, post-surgical services, or both general medical and post-surgical services. These units may include mixed patient populations of diverse diagnoses and diverse age groups who require care appropriate to a medical/surgical unit.
12. (12) The licensed nurse-to-patient ratio in a specialty care unit shall be 1:5 or fewer at all times. Commencing January 1, 2008, the licensed nurse-to-patient ratio in a specialty care unit shall be 1:4 or fewer at all times. A specialty care unit is defined as a unit which is organized, operated, and maintained to provide care for a specific

medical condition or a specific patient population. Services provided in these units are more specialized to meet the needs of patients with the specific condition or disease process than that which is required on medical/surgical units, and is not otherwise covered by subdivision (a).

13. (13) The licensed nurse-to-patient ratio in a psychiatric unit shall be 1:6 or fewer at all times. For purposes of psychiatric units only, “licensed nurses” also includes licensed psychiatric technicians in addition to licensed vocational nurses and registered nurses. Licensed vocational nurses, licensed psychiatric technicians, or a combination of both, shall not exceed 50 percent of the licensed nurses on the unit.
 14. (14) Identifying a unit by a name or term other than those used in this subsection does not affect the requirement to staff at the ratios identified for the level or type of care described in this subsection.
- b. In addition to the requirements of subsection (a), the hospital shall implement a patient classification system as defined in section 70053.2 above for determining nursing care needs of individual patients that reflects the assessment, made by a registered nurse as specified at subsection 70215(a)(l), of patient requirements and provides for shift-by-shift staffing based on those requirements. The ratios specified in subsection (a) shall constitute the minimum number of registered nurses, licensed vocational nurses, and in the case of psychiatric units, licensed psychiatric technicians, who shall be assigned to direct patient care. Additional staff in excess of these prescribed ratios, including non-licensed staff, shall be assigned in accordance with the hospital’s documented patient classification system for determining nursing care requirements, considering factors that include the severity of the illness, the need for specialized equipment and technology, the complexity of clinical judgment needed to design, implement, and evaluate the patient care plan, the ability for self-care, and the licensure of the personnel required for care. The system developed by the hospital shall include, but shall not be limited to, the following elements:
1. Individual patient care requirements.
 2. The patient care delivery system.
 3. Generally accepted standards of nursing practice, as well as elements reflective of the unique nature of the hospital’s patient population.
- c. A written staffing plan shall be developed by the administrator of nursing service or a designee, based on patient care needs determined by the patient classification system. The staffing plan shall be developed and implemented for each patient care unit and shall specify patient care requirements and the staffing levels for registered nurses and other licensed and unlicensed personnel. In no case shall the staffing level for licensed nurses’ fall below the requirements of subsection (a). The plan shall include the following:
1. Staffing requirements as determined by the patient classifications system for each unit, documented on a day-to-day, shift-by-shift basis.
 2. The actual staff and staff mix provided, documented on a day-to-day, shift-by-shift basis.

3. The variance between required and actual staffing patterns, documented on a day-to-day, shift-by-shift basis.
- d. In addition to the documentation required in subsections (c) (1) through (3) above, the hospital shall keep a record of the actual registered nurse, licensed vocational nurse and licensed psychiatric technician assignments to individual patients by licensure category, documented on a day-to-day, shift-by-shift basis. The hospital shall retain:
 1. The staffing plan required in subsections (c)(1) through (3) for the time period between licensing surveys, which includes the Consolidated Accreditation and Licensing Survey process, and
 2. The record of the actual registered nurse, licensed vocational nurse and licensed psychiatric technician assignments by licensure category for a minimum of one year.
- e. The reliability of the patient classification system for validating staffing requirement shall be reviewed at least annually by a committee appointed by the nursing administrator to determine whether or not the system accurately measures patient care needs.
- f. At least half of the members of the review committee shall be registered nurses who provide direct patient care.
- g. If the review reveals that adjustments are necessary in the patient classification system in order to assure accuracy in measuring patient care needs, such adjustments must be implemented within thirty (30) days of that determination.
- h. Hospitals shall develop and document a process by which all interested staff provide input about the patient classification system, the system's required revisions, and the overall staffing plan.
- i. The administrator of nursing services shall not be designated to serve as a charge nurse or to have direct patient care responsibility, except as described in subsection (a) above.
- j. Registered nursing personnel shall:
 1. Assist the administrator of nursing services so that supervision of nursing care occurs on a 24- hour basis.
 2. Provide direct patient care.
 3. Provide clinical supervision and coordination of the care given by licensed vocational nurses and unlicensed nursing personnel.
- k. Each patient care unit shall have a registered nurse assigned, present and responsible for the patient care in the unit on each shift.
 1. A rural General Acute Care Hospital as defined in Health and Safety Code Section 1250(a), may apply for and be granted program flexibility for the requirements of subsection 70217(i) and for the personnel requirements of subsection(j)(1) above.

- m. (m) Unlicensed personnel may be utilized as needed to assist with simple nursing procedures, subject to the requirements of competency validation. Hospital policies and procedures shall describe the responsibility of unlicensed personnel and limit their duties to tasks that do not require licensure as a registered or vocational nurse.
- n. Nursing personnel from temporary nursing agencies shall not be responsible for a patient care unit without having demonstrated clinical and supervisory competence as defined by the hospital's standards of staff performance pursuant to the requirements of subsection 70213(c.) above.
- o. Hospitals which utilize temporary nursing agencies shall have and adhere to a written procedure to orient and evaluate personnel from these sources. Such procedures shall require that personnel from temporary nursing agencies be evaluated as often, or more often, than staff employed directly by the hospital.
- p. All registered and licensed vocational nurses utilized in the hospital shall have current licenses. A method to document current licensure shall be established.
- q. The hospital shall plan for routine fluctuations in patient census. If a healthcare emergency causes a change in the number of patients on a unit, the hospital must demonstrate that prompt efforts were made to maintain required staffing levels. A healthcare emergency is defined for this purpose as an unpredictable or unavoidable occurrence at unscheduled or unpredictable intervals relating to healthcare delivery requiring immediate medical interventions and care.

70225. Surgical Service Staff.

- a. A physician shall have overall responsibility for the surgical service. This physician shall be certified or eligible for certification in surgery by the American Board of Surgery. If such a surgeon is not available, a physician, with additional training and experience in surgery shall be responsible for the service.
- b. One or more surgical teams consisting of physicians, registered nurses and other personnel shall be available at all times.
- c. A registered nurse with training and experience in operating room techniques shall be responsible for the nursing care and nursing management of operating room service.

 - 1. Implementation of established policies and procedures.

2. Providing continuous staffing with physicians trained and experienced in emergency medical service. Such physicians shall be assigned to and be located in the emergency service area 24 hours a day.
3. Providing experienced physicians in specialty categories to be available in-house 24 hours a day. Such specialties include but are not limited to medicine, surgery, anesthesiology, orthopedics, neurosurgery, pediatrics, and obstetrics-gynecology.

(A) The most senior resident in any of the specialties may be considered an experienced physician.

4. Maintenance of a roster of specialty physicians immediately available for consultation and/or assistance.
 5. Assurance of continuing education for all emergency service staff including physicians, nurses, and other personnel.
- b. All physicians, dentists, and podiatrists providing services in the emergency room shall be members of the organized medical staff.
 - c. A registered nurse qualified by education and/or training shall be responsible for nursing care within the service.
 - d. All registered nurses shall have training and experience in emergency lifesaving and life support procedures.
 - e. A registered nurse trained and experienced in emergency nursing care shall be on duty at all times.
 - f. There shall be sufficient licensed nurses and other skilled personnel on duty as required to support the services.
