RE: County of Monterey, Agricultural Commissioner's Office – Bee Booth

By this letter, I hereby certify that the County of Monterey is lawfully self-insured for purposes of General Liability and Automobile Liability related to County sanctioned activities.

By order of the Board of Supervisors, the County of Monterey maintains a reserve fund to cover occurrences within a self-insured retention level of \$2.5 million. Above the self-insured retention, the County maintains a primary excess layer up to \$10 million (total layers up to \$50 million) through a Joint Powers Authority agreement with other counties called Public Risk, Innovations, Solutions, and Management ("PRISM") (formerly CSAC – EIA) with a master policy number 26 GL2-13, effective 7/1/2026 – 7/1/2027.

This policy and its limits are inclusive of Employment Practice Liability (EPL), Errors and Omissions Liability (E&O), and property damage.

Also through PRISM, the County purchases a broad form property policy covering fire, vandalism, extended coverage, business interruption, etc. The primary layer of this coverage (\$10 million) is through PRISM memorandum number PRISMPR 26-27, effective 3/31/2026 – 3/31/2027 with excess layers above the primary.

The County is self-insured for purposes of Workers' Compensation with statutory limits.

Respectfully,

Susan K. Blitch
County Counsel
