**Before the Planning Commission
in and for the County of Monterey, State of California**

In the matter of the application of:

ANTLE MIKE V TR ET AL (PLN190204)

RESOLUTION NO. 21-012

Resolution by the Monterey County Planning
Commission:

- 1) Finding the project is not subject to CEQA pursuant to the common sense exemption of the Guidelines Section 15061(b)(3) because the proposed activity includes no foreseeable effect on the environment; and
- 2) Approving a vesting tentative map for a Minor Subdivision splitting one parcel (47.255 acres) into two parcels of 8.0 acres (Parcel 1) and 39.255 acres (Parcel 2).

(PLN190204), ANTLE MIKE V TR ET AL, 701
Monterey-Salinas Highway, Salinas, CA, Toro Area
Plan (APN: 161-251-002-000).

The Antle application (PLN190204) for a vesting tentative map for a minor subdivision came on for hearing before the Monterey County Planning Commission on April 14, 2021. Having considered all the written and documentary evidence, the administrative record, the staff report, and other evidence presented, the Planning Commission finds and decides as follows:

FINDINGS

1. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development. The Project is a vesting tentative map for minor subdivision of one 47.255-acre legal lot of record (Assessor's Parcel Number 161-251-002-000) into two parcels:
 - Parcel 1 at 8.0 acres, and
 - Parcel 2 at 39.255 acres.
- EVIDENCE:** a) During the course of review of this application, the project was reviewed for consistency with the text, policies, and regulations of the:
 - 2010 Monterey County General Plan;
 - Toro Area Plan;
 - Monterey County Zoning Ordinance (Title 21);
 - Monterey County Subdivision Ordinance (Title 19);The project includes a subdivision within the Building Site 8 (B-8) Zoning district. Chapter 21.42 of the Zoning Ordinance (Title 21) establishes a B-8 District to restrict intensification of use that would potentially place additional burden on constrained resources, in this case water. Therefore, a condition of approval is applied to the resulting parcels that would prohibit the newly formed properties

from intensification of water use until such time as the B-8 is lifted, and notwithstanding existence of the B-8 or this approval, in accordance with requirements to reduce pumping from management by the applicable Groundwater Sustainability Agency, or state law. (See Finding 5). The project is consistent with the other relevant regulations and policies.

- b) The property is located at 701 Monterey-Salinas Highway in Salinas, CA (Assessor Parcel Numbers 161-251-002-000) and zoned Low Density Residential with building site and visual sensitivity overlays [LDR/B-8-VS(20')]. Pursuant to Section 19.04.005 of Title 19, approval of a minor subdivision application may be granted for a tentative parcel map proposing four or less parcels. The proposed vesting tentative parcel map would divide one lot into two. The proposed lot split is consistent with the LDR District which allows a minimum parcel size of 1 acre. The subdivision includes creation of two lots totaling 8 acres and approximately 40 acres. Therefore, the project application is for a minor subdivision (See Finding 6).
- c) Policy T-1.7 of the Toro Area Plan establishes a policy limiting development to the first single family dwelling per lot for the purpose of protecting groundwater in the El Toro groundwater area. As mapped in the 2010 General Plan, properties north of Highway 68, including the subject property, are not within the Policy T-1.7 area (GP Figure LU-10).
- d) The existing 47.255-acre lot contains one single family dwelling, a guesthouse, and an equestrian barn and stables. The proposed subdivision would place the dwelling and guesthouse on an 8-acre lot (Parcel 1) and the equestrian facility would be located on the 39.255-acre lot (Parcel 2).
- e) Existing development on the lot is not visible from scenic Highway 68 or any other public viewing area. No construction or site improvements are included with this project. Therefore, no visual assessment was required to satisfy the VS category of the parcel.
- f) Pursuant to Section 19.04.025.F of Title 19, the Planning Commission is the appropriate decision making body to consider an application for a minor subdivision if there is evidence of public controversy. Given this case requires a B-8 zoning district policy interpretation, the Planning Commission's consideration is warranted. Therefore, the HCD Director referred this project to the Planning Commission for consideration, based on the specific facts and circumstances applicable to this project.
- g) Pursuant to Section 19.04.005 of Title 19, a tentative parcel map is required for a Minor Subdivision unless the requirement is waived by the appropriate decision making body, or unless the subdivision is for either a portion of the operating right-of-way of a railroad corporation or land conveyed to/from a public utility. These circumstances do not apply to this project; therefore, a tentative parcel map is required for approval of this Minor Subdivision.
- h) Pursuant to Section 19.05.005 of Title 19, a vesting tentative map may be approved and filed in place of a tentative parcel map. Therefore, submittal of the vesting tentative map for this minor

subdivision is in accordance with the Monterey County Subdivision Ordinance (See Finding 9).

- i) Pursuant to Policy PS-3.1 of the 2010 General Plan, the applicant must provide evidence of assured long-term sustainable water supply for both quality and quantity. No further development beyond the existing equestrian facility is proposed. An equestrian facility will remain on Parcel 2, while Parcel 1 is developed with a single family dwelling and guesthouse, neither of which require additional water usage beyond that currently existing. It is reasonably foreseeable that Parcel 2 could be developed with a single family dwelling in the future; however, a condition requiring any potential future development not increase water demand on the parcel has been applied. No construction or development is included in this project. Therefore, implementation of the minor subdivision would have a net zero contribution to water demand.
- j) PS-3.1 of the 2010 General Plan requires evidence of long-term sustainable water supply in terms of yield and quality for all lots created through subdivision. See Finding 6.
- k) Policy PS-3.2 of the 2010 General Plan provides the factors used in developing criteria for proof of a long-term sustainable water supply. Adequate water quality from the onsite well has been verified by the Environmental Health Bureau. An application for a small water system has been submitted to Environmental Health. Technical, managerial, and financial assurances for the maintenance and operation of the water system are included in the application. No increase in demand on ground water will be allowed.
- l) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190204.

2. **FINDING:** **SITE SUITABILITY** – The site is physically suitable for the use proposed.

- EVIDENCE:**
- a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, Monterey County Regional Fire District (RFD), HCD-Development, HCD-Environmental Services, and the Environmental Health Bureau. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Conditions recommended have been incorporated.
 - b) Access to the parcel exists on a paved road off Highway 68. The existing access would remain as the access to both parcels formed from the subdivision, in accordance with Policy T-2.7 of the Toro Area Plan that prohibits new direct access points for single family residences onto Highway 68. No comments were received from Monterey County RFD on the appropriateness of the road for fire protection service by the fire department.
 - c) Monterey County RFD provided a comment for acknowledgement of fire hydrant coverage for two parcels instead of one parcel. The applicant is required to create a small water system to draw from the existing well that would separate water provision to two parcels

instead of one. Condition No. 5 requires that prior to approval of the final map, the water system division be memorialized on the Final Map in accordance with Condition No. 8 applied by EHB to obtain a 2-connection small water system permit. Therefore, each of the newly-formed parcels would receive separate fire hydrant coverage.

- d) The applicant provided historic water use data of the property developed with both the equestrian facility and the residential home at an estimated 13.53 acre feet per year (AFY). Prior to recordation of the final map, the applicant/owner shall submit to EHB and HCD-Planning for review and approval a note on the vesting tentative map with allocation for each parcel created by the subdivision a water demand cap, not to exceed a cumulative 13 AFY total, which represents a decrease in water use of 0.53 AFY from current demand.
- e) The draft of the VTM indicates two septic disposal replacement/repair areas, one each for the resulting separate parcels in conformance with the EHB Local Agency Management Program (LAMP) for onsite wastewater treatment systems (OWTS) that have been reviewed and approved by EHB.
- f) HCD-Development reviewed the project proposal and applied Condition Nos. 6 and 7 to include all utility companies' recommendations for required easements and professional survey of all existing and proposed rights-of-way easements, respectively.
- g) No new structures or uses are proposed as part of this action.
- h) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190204.

3. **FINDING:**

HEALTH AND SAFETY - The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE:

- a) The project was reviewed by HCD-Planning, Monterey County Regional Fire District, HCD-Development, HCD-Environmental Services, and Environmental Health Bureau. The respective agencies found that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood and no conditions were recommended.
- b) The site is served by an onsite well and septic systems. A small water system will be created to serve both proposed lots using the existing well (Condition No. 8). Adequate water quality and quantity can be produced by the existing well.
- c) Condition No. 3 requires a deed restriction be recorded against the resulting parcels that prohibits future development and intensification of land based on the historic water demand of 13.53 AFY, with an agreed upon reduction of 0.53 AFY. Future use and development of the lot will be limited to no more than 13 AFY unless the B-8 overlay district is removed, and notwithstanding existence of the B-8 or this

approval, in accordance with requirements to reduce pumping by the applicable Groundwater Sustainability Agency, or state law. Conditions 3, 4, 9, and 10 have been added to address the water use limitations.

- d) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed minor subdivision found in Project File PLN190204.

4. **FINDING:** **NO VIOLATIONS** - The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

- EVIDENCE:**
- a) Staff reviewed Monterey County HCD-Planning and HCD-Building Services records finding no violations existing on subject property. There are no known violations on the subject parcel.
 - b) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190204.

5. **FINDING:** **ENVIRONMENTAL REVIEW** - The project is not subject to the California Environmental Quality Act (CEQA) for environmental review in accordance with the common sense exemption of CEQA Guidelines Section 15061(b)(3).

- EVIDENCE:**
- a) CEQA Guidelines Section 15061(b)(3) exempts projects that can be viewed with certainty not to have a significant effect on the environment. The proposed activity is division of one parcel into two separate parcels and extension of the access and utility easement, and includes no construction or development that would have a substantial adverse change on any physical conditions that exist within the area in accordance with definitions of "environment" and "significant effect on the environment" in Public Resources Code (PRC) Division 13, Chapter 2.5. Therefore, common sense indicates there is no possibility the project would have a significant effect on the environment.
 - b) The custodian of documents and materials, which constitute the record of proceedings, upon which the decision is based is the County Housing and Community Development, 1441 Schilling Place South, 2nd floor, Salinas, California.
 - c) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190204.

6. **FINDING:** **MINOR SUBDIVISION** – The minor subdivision proposal conforms to the regulations of the California Government Code (Subdivision Map Act) and Title 19 (Subdivision Ordinance) of the Monterey County Code governing the requirements to allow subdivision of a parcel into five or fewer lots. The minor subdivision complies with relevant policies of the 2010 General Plan that set forth requirements for approval of land subdivision. See Finding 1.

- EVIDENCE:**
- a) The project would divide one 47.255-acre parcel into two lots. Therefore, the project is governed by the provisions of Section 66411.1 – Improvements for Divisions of Land which is not a Subdivision of Five or More Lots (California Government Code), along with those of Chapter 19.04 – Minor Subdivisions (Monterey County Code) of Title 19.
 - b) Pursuant to Section 19.04.025 of Title 19, provisions of the minor subdivision must not conflict with easements acquired by the public at large, for access through, or use of, property within the proposed subdivision. Condition No. 5 requires that existing and required easements and rights-of-way be identified on the final parcel map. The existing road atop the access and utility easement extension remains as the access road to each parcel created by the subdivision and does not conflict with any existing or required easements or rights-of-way.
 - c) No construction or development is included in this project. Therefore, implementation of the minor subdivision would have a net zero contribution to the septic system. Notwithstanding, future project proposals on either of the newly formed parcels that require additional septic system capacity shall be subject to review by the County of Monterey Bureau of Environmental Health (EHB) for evaluation of the need for septic system infrastructure.
 - d) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development found in Project File PLN190204.

7. **FINDING:** **VESTING TENTATIVE MAP** – The Vesting Tentative Map submitted for proposal of the Minor Subdivision conforms to the regulations of state and local jurisdictions for approval of a vesting tentative map.

- EVIDENCE:**
- a) The vesting tentative map (Section 19.05.055 of Title 19) is physically suitable for the minor subdivision (Finding 2), is not likely to cause serious public health problems (Finding 3) or substantial environmental damage (Finding 6), is consistent with the Toro Area Plan (Findings 1 and 2), and would not conflict with access easements through Parcel 2 (Finding 2).
 - b) Requirements for submittal of the vesting tentative map are modified to comply with those of the HCD Director in accordance with Section 19.05.035.P of Title 19 whenever the Director finds that circumstances justify such modifications. The applicant proposes no construction or development on either newly developed parcel, now or in the future. Notwithstanding the applicant's intent not to intensify water use or demand with new development on the newly formed parcels, Condition No. 5 requires, prior to final map approval, submittal of a Final Map in accordance with the provisions of Chapter 19.05 of Title 19. Conformance with these provisions ensures potential future owners of either newly-formed parcel do not incur the burden of implementing requirements of subdivision approval.
 - c) The application, plans and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed development area found in Project File PLN190204.

8. **FINDING:** **APPEALABILITY** - The decision on this project may be appealed to the Board of Supervisors.
- EVIDENCE:** a) Per Section 19.16.020.A of the Monterey County Subdivision Ordinance (Title 19), the decision on this project may be appealed to the Board of Supervisors.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Planning Commission does hereby:

- A. Find the project is not subject to CEQA pursuant to the common sense exemption of the Guidelines Section 15061(b)(3) because the proposed activity includes no construction or development that would have a significant effect on the environment; and
- B. Approve a vesting tentative map for a minor subdivision splitting one parcel (47.255 acres) into two parcels of 8.0 acres (Parcel 1) and 36.909 acres (Parcel 2), in general conformance with the attached map and subject to conditions, both being attached hereto, and incorporated herein, by reference.

PASSED AND ADOPTED this 14th day of April 2021

DocuSigned by:

75F460591F63#25...
Erik Lundquist, AICP, Planning Commission Secretary

COPY OF THIS DECISION MAILED TO APPLICANT ON 5/14/21.

THIS DECISION IS APPEALABLE TO THE BOARD OF SUPERVISORS.

IF ANYONE WISHES TO APPEAL THIS DECISION, AN APPEAL FORM MUST BE COMPLETED AND SUBMITTED TO THE CLERK OF THE BOARD ALONG WITH THE APPROPRIATE FILING FEE ON OR BEFORE 5/24/21.

This decision, if this is the final administrative decision, is subject to judicial review pursuant to California Code of Civil Procedure Sections 1094.5 and 1094.6. Any Petition for Writ of Mandate must be filed with the Court no later than the 90th day following the date on which this decision becomes final.

NOTES

- 1. This permit expires 2 years after the above date of granting, thereof.

Monterey County RMA Planning

Conditions of Approval/Implementation Plan/Mitigation Monitoring and Reporting Plan

PLN190204

1. PD001 - SPECIFIC USES ONLY

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: This Vesting Tentative Map (PLN190204) allows Minor Subdivision of an existing legal lot of record (47.255 acres) into 2 parcels: Parcel 1 (8 acres) and Parcel 2 inclusive of an access and utility easement (39.255 acres), subject to water demand caps noted on the VTM and recorded on the Final Map, to be in effect until such time as the B-8 overlay is lifted from the parcel, though notwithstanding existence of the B-8 or this approval, in accordance with requirements to reduce pumping from management of the Salinas Valley Groundwater Basin, or by law. The property is located at 701 Monterey Salinas Highway, Salinas (Assessor's Parcel Number 161-251-002-000), Toro Area Plan. This permit was approved in accordance with County ordinances and land use regulations subject to the terms and conditions described in the project file. Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Chief of Planning. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled. (HCD - Planning)

Compliance or Monitoring Action to be Performed: The Owner/Applicant shall adhere to conditions and uses specified in the permit on an ongoing basis unless otherwise stated.

2. PD002 - NOTICE PERMIT APPROVAL

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: The applicant shall record a Permit Approval Notice. This notice shall state: "A Vesting Tentative Map (Resolution Number 21-012) was approved by the Planning Commission for Assessor's Parcel Number 161-251-002-000 on 14 April 2021. The permit was granted subject to 11 conditions of approval which run with the land. A copy of the permit is on file with Monterey County HCD - Planning."

Compliance or Monitoring Action to be Performed: Proof of recordation of this notice shall be furnished to the Director of HCD - Planning prior to recordation of the final map. (HCD - Planning)

3. PDSP001 - DEED RESTRICTION: NO INCREASE IN WATER DEMAND OR USE

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: Owner shall record a deed restriction applicable to each of the two parcels resulting from the subdivision (Parcel 1 - 8.0 acres; Parcel 2 - 39.255 acres) that provides in sum and substance as follows:

Unless the B-8 zoning overlay is lifted, the total annual cumulative water use and water demand on the two parcels resulting from the subdivision shall not exceed 13 AFY. Notwithstanding the existence of the B-8 zoning overlay, it is recognized that this restriction is subject to any reductions in groundwater pumping as may be required by the applicable groundwater management agency or state law.

Each lot resulting from the subdivision shall be entitled to no less than 1 AFY.

At such time as the first lot is conveyed to a separate entity, the owners of each of the two parcels resulting from the subdivision shall enter into a written binding recorded agreement (referred to herein as the "water allocation agreement") that allocates the cumulative total of the 13 AFY of water use between the two parcels consistent with the terms of the deed restriction, including that the cumulative total water use shall not exceed 13 AFY, that such total is subject to reduction as required by management of the Salinas Valley Groundwater Basin, and that each parcel is entitled to a minimum 1 AFY per lot (Condition No. 10).

(HCD-Planning)

Compliance or Monitoring Action to be Performed: Prior to approval of the Final Map, owner shall submit the deed restriction to HCD-Planning for review and approval by the Chief of Planning and approval as to form by County Counsel.

Concurrently, with recordation of the final map, owner shall record the deed restrictions on each of the two parcels.

Within ten days of recording the deed restrictions, the owner shall submit to HCD-Planning evidence of recordation of the two Deed Restrictions.

Owner shall record the water allocation agreement in accordance with the water system permit requirements (Condition No. 10).

4. PDSP002 - NOTE ON MAP: WATER DEMAND RESTRICTION

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: A note shall be placed on the final map or a separate sheet to be recorded with the Final Map stating that: "Cumulative water use on the two parcels created by this final map and water allocation of said two parcels are restricted in accordance with the recorded deed restrictions on the parcels and water system permit requirements."

The note shall be located in a conspicuous location on the Final Map, subject to approval by the County Surveyor.

Compliance or Monitoring Action to be Performed: Prior to recordation of the final map, the applicant/owner shall submit to EHB and HCD-Planning for review and approval the note on the final map.

5. PDSP003 - FINAL MAP (TITLE 19)

Responsible Department: RMA-Planning

Condition/Mitigation Monitoring Measure: The Final Map shall be subject to the provisions of Chapters 19.03 and 19.04 of Title 19 of the Monterey County Code.

Owner shall submit a Final Map to HCD-Planning for review and approval by the Chief of Planning. The Final Map shall be prepared, in form and content, in accordance with provisions of Chapters 19.03 and 19.04, and shall include at minimum, existing and proposed easements, roads, setbacks, utilities, domestic water systems, septic systems, grading, as required by the Chief of Planning.

Owner shall submit to HCD-Planning for review and approval data and reports in accordance with provisions of Chapters 19.03 and 19.04, as required by the Chief of Planning.

Compliance or Monitoring Action to be Performed: Prior to final map approval, applicant owner shall submit a draft, subject to provisions of Chapters 19.03 and 19.04 Title 19, to HCD-Planning for review and approval by the Chief of Planning.

6. PW0015 – UTILITY’S COMMENTS

Responsible Department: RMA-Public Works

Condition/Mitigation Monitoring Measure: Submit the approved vesting tentative map to applicable utility companies. Subdivider shall submit utility company recommendations for required easements, if any, to HCD-Development.

Compliance or Monitoring Action to be Performed: Prior to recordation of the Final Map, Owner/Applicant/Subdivider shall provide a copy of the approved tentative map to all applicable public utility companies for review. Subdivider shall submit utility comments to HCD-Development.

7. PW0036 - EASEMENTS AND RIGHT-OF-WAY

Responsible Department: RMA-Public Works

Condition/Mitigation Monitoring Measure: Provide for all existing and required easements and rights of way.

Compliance or Monitoring Action to be Performed: Prior to recordation of the Parcel Map, Subdivider’s Surveyor shall include all existing and required easements or rights of way on Parcel Map.

8. CC01 INDEMNIFICATION AGREEMENT

Responsible Department: County Counsel-Risk Management

Condition/Mitigation Monitoring Measure: The property owner agrees as a condition and in consideration of approval of this discretionary development permit that it will, pursuant to agreement and/or statutory provisions as applicable, including but not limited to Government Code Section 66474.9, defend, indemnify and hold harmless the County of Monterey or its agents, officers and employees from any claim, action or proceeding against the County or its agents, officers or employees to attack, set aside, void or annul this approval, which action is brought within the time period provided for under law, including but not limited to, Government Code Section 66499.37, as applicable. The property owner will reimburse the County for any court costs and attorney's fees which the County may be required by a court to pay as a result of such action. The County may, at its sole discretion, participate in the defense of such action; but such participation shall not relieve applicant of his/her/its obligations under this condition. An agreement to this effect shall be recorded upon demand of County Counsel or concurrent with the issuance of building permits, use of property, filing of the final map, recordation of the certificates of compliance whichever occurs first and as applicable. The County shall promptly notify the property owner of any such claim, action or proceeding and the County shall cooperate fully in the defense thereof. If the County fails to promptly notify the property owner of any such claim, action or proceeding or fails to cooperate fully in the defense thereof, the property owner shall not thereafter be responsible to defend, indemnify or hold the County harmless. (County Counsel-Risk Management)

Compliance or Monitoring Action to be Performed: Upon demand of County Counsel or concurrent with the issuance of building permits, use of the property, recording of the final/parcel map, or recordation of Certificates of Compliance, whichever occurs first and as applicable, the Owner/Applicant shall submit a signed and notarized Indemnification Agreement to the Office of County Counsel for review and approval as to form by County Counsel and approval by the Chief of Planning.

Proof of recordation of the Indemnification Agreement, as outlined, shall be submitted to HCD.

9. EHSP01 - NEW WATER SYSTEM PERMIT

Responsible Department: Health Department

Condition/Mitigation Monitoring Measure: Pursuant to Monterey County Code Chapter 15.04, Domestic Water Systems, obtain a two connection water system permit from the Environmental Health Bureau. The water system shall be limited to a total annual cumulative water usage of 13 acre feet per year (AFY). The water system permit shall provide for annual reporting on water usage and shall provide penalties if the 13 AFY is exceeded.

Compliance or Monitoring Action to be Performed: Prior to filing final map, submit necessary water system application, reports and testing results to Environmental Health Bureau for review and approval.

10. EHSP02 - WATER SYSTEM AGREEMENT

Responsible Department: Health Department

Condition/Mitigation Monitoring Measure: Pursuant to Monterey County Code Chapter 15.04, Domestic Water systems and consistent with Condition No. 3, the water system permit shall require that, at such time as the first lot is sold separately, the owners of each of the two parcels resulting from the subdivision shall enter into the water allocation agreement as specified in Condition No. 3. Said water allocation agreement shall be incorporated into the water system permit.

Compliance or Monitoring Action to be Performed: Prior to approval of the final map, owner shall submit form of the water allocation agreement to Environmental Health Bureau (EHB) for review and approval by the EHB Director and approval as to form by County Counsel.

Owners shall incorporate approved said agreement into the water system permit.

Prior to close of escrow, owners shall record EHB-approved agreement.

11. EHSP03 - METER ON WELL

Responsible Department: Health Department

Condition/Mitigation Monitoring Measure: An approved NSF water meter shall be placed on any production well for this subdivision to record yearly production from the well(s).

Compliance or Monitoring Action to be Performed: On a yearly basis, EHB staff shall conduct an annual meter reading for production of the well(s) for this subdivision.

If water use on the two parcels exceeds the cumulative total of 13 afy, the owners of the parcels in the water system shall be subject to the penalties stated in the water system permit.
