Dear County,
I object to the cutting down of 15 oak trees.
We need every tree right now to suck up our C02 and pollution and many architects are now incorporating trees into their building sites.

It's time humans stop being so selfish and start thinking about how we can save trees which are saving us and our children. I large tree absorbs one ton of carbon and ten pounds of heavy metals and pollution a year.
They also keep the air cool and damp and help prevent fire dangers from global warming.
Make them save the trees. Thank you,
Sincerely, Lorna Moffat 256 Figueroa st #10,
Monterey, Ca. 93940
