RECOMMENDATION:

It is recommended that the Monterey County Water Resources Agency Board of Directors recommend that the Water Resources Board of Supervisors:

- a. Approve and adopt a FY 2021-22 cost of living adjustment (COLA) increase of 1.6% for Zones 2B, 2Y and 2Z for the Castroville Seawater Intrusion Project (CSIP) and the Salinas Valley Reclamation Project (SVRP);

- d. Direct the Clerk of the Board of Supervisors to publish a hearing notice once a week for two consecutive weeks prior to the date set for the hearing.

SUMMARY/DISCUSSION:

This board report requests the minimum annual 1.6% COLA increase for Zone 2B (CSIP project), Zone 2Y (operations and maintenance of CSIP), and Zone 2Z (operations and maintenance of the SVRP). The CSIP water delivery charge of \$6.43 will increase to \$6.53, and the water service charge of \$74.83 will increase to \$76.03.

Zones 2B, 2Y, and 2Z were established to provide revenue to construct, operate and maintain the CSIP and the SVRP, which includes debt service for the municipal bonds, a State Revolving Fund loan, and a Small Reclamation Projects loan from the U.S. Bureau of Reclamation that funded the construction of the projects. The operation of the CSIP and SVRP assists in the reduction of seawater intrusion in the groundwater aquifers in the Salinas Valley by providing an alternative source

of irrigation water in the form of recycled water. This will reduce the reliance on groundwater pumping in the northern portion of the Salinas Valley.

The Monterey County Water Resources Agency Act (California Water Code, Appendix §§ 52-20, 52-24) and Ordinances Nos. 3635 and 3636 require the adoption of annual resolutions by the Agency Board of Supervisors to continue the assessments, water delivery charge, and water service charge for the CSIP and SVRP.

OTHER AGENCY INVOLVEMENT:

This item was presented to the Finance Committee on April 2, 2021 and the Committee supported the recommendation.
