### **SUMMARY:**

This summary outlines the renewal request and continued use of Lippincott clinical and learning programs provided by Wolters Kluwer Health, Inc. (WKH), nationally recognized as a gold-standard source of evidence-based clinical practice resources. The services include Lippincott Procedures, Lippincott Learning, and Blended Learning, which together support standardized, safe, and high-quality patient care while ensuring staff competency and regulatory compliance. Lippincott Procedures is a web-based clinical reference that provides step-by-step evidence-based procedural guidance. The resource includes more than 1,700 validated procedures and skills spanning nursing, respiratory therapy, and physical therapy. Content is regularly updated to reflect current evidence and professional practice standards, ensuring clinicians have reliable, real-time access to best practices at the point of care.

Lippincott Learning and Blended Learning provide comprehensive online competency management and continuing education resources. The library includes evidence-based courses developed in

collaboration with The Joint Commission Resources and supports both self-directed and instructor-led learning. These programs are now fully integrated with the HealthStream Learning Management System, allowing leadership to assign required education, track completion electronically, and monitor compliance across clinical departments. To ensure deliverables are met, a structured oversight process will be implemented through ongoing evaluation of utilization metrics and periodic review to confirm alignment with regulatory requirements, accreditation standards, and organizational priorities.

### **DISCUSSION:**

The Lippincott programs provide significant benefits to both the hospital and the patients it serves. For the organization, these services support standardization of care, regulatory compliance, and workforce competency. By providing staff with a trusted source of evidence-based procedures and education, the hospital reduces practice variation, strengthens clinical governance, and supports compliance with The Joint Commission and other accrediting bodies. The availability of customizable, evidence-based learning modules allows the organization to tailor education to unit-specific needs while maintaining consistency across departments. Overall, the continued use of Lippincott programs represents a strategic investment in clinical excellence, patient safety, and workforce development, aligning with the hospital's mission to deliver high-quality, evidence-based care to the community.
