The proposed project addresses the current gaps in providing MH and SUD support to our rural and lower income population. Monterey county proposes to not only supplement existing intensive services, but also include additional prevention/early intervention diversion services to our underserved areas using restorative justice principles and evidence-based treatment models.

## **EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS**

### **2. GRANT AMOUNT AND LIMITATION**

- A. In no event shall the BSCC be obligated to pay any amount in excess of the grant award. Grantee waives any and all claims against the BSCC, and the State of California on account of project costs that may exceed the sum of the grant award.
- B. Under no circumstance will a budget item change be authorized that would cause the project to exceed the amount of the grant award identified in this Grant Agreement.

### **3. BUDGET CONTINGENCY CLAUSE**

- A. This grant agreement is valid and enforceable only if sufficient funds are made available through the annual transfer of savings generated by Proposition 47 from the General Fund to the Safe Neighborhoods and Schools Fund and subsequent transfer from the Safe Neighborhoods and Schools Fund to the Second Chance Fund. (Gov. Code, § 7599.1 & Pen. Code, § 6046.2.) On or before July 31st of each fiscal year the Department of Finance will calculate the state savings associated with Proposition 47 and certify the calculation to the State Controller who shall transfer those funds to the Safe Neighborhoods and Schools Fund. (Gov. Code, § 7599.1.) The grantee agrees that the BSCC's obligation to pay any sum to the grantee under any provision of this agreement is contingent upon the availability of sufficient funding transferred to the Safe Neighborhoods and Schools Fund and subsequent transfer to the Second Chance Fund.
- B. If Proposition 47 funding is reduced or falls below estimates contained within the Proposition 47 Request for Proposals, the BSCC shall have the option to either cancel this Grant Agreement with no liability occurring to the BSCC or offer an amendment to this agreement to the Grantee to reflect a reduced amount.
- C. If BSCC cancels the agreement pursuant to Paragraph 3(B) or Grantee does not agree to an amendment in accordance with the option provided by Paragraph 3(B), it is mutually agreed that the Grant Agreement shall have no further force and effect. In this event, the BSCC shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to perform any provisions of this Grant Agreement except that Grantee shall be required to maintain all project records required by Paragraph 6 of Exhibit A for a period of three (3) years following the termination of this agreement.

### **4. PROJECT COSTS**

- A. Grantee is responsible for ensuring that actual expenditures are for eligible project costs. "Eligible" and "ineligible" project costs are set forth in the [July 2023 BSCC Grant Administration Guide](#).
- B. The provisions of the BSCC Grant Administration Guide are incorporated by reference into this agreement and Grantee shall be responsible for adhering to the requirements set forth therein. To the extent any of the provisions of the BSCC Grant Administration Guide and this agreement conflict, the language in this agreement shall prevail.
- C. Grantee is responsible for ensuring that invoices submitted to the BSCC claim actual expenditures for eligible project costs.
- D. Grantee shall, upon demand, remit to the BSCC any grant funds not expended for eligible project costs or an amount equal to any grant funds expended by the Grantee in violation of the terms, provisions, conditions or commitments of this Grant Agreement.
- E. Grant funds must be used to support new program activities or to augment existing funds that expand current program activities. Grant funds shall not replace (supplant) any federal, state and/or local funds that have been appropriated for the same purpose. Violations can result in

## **EXHIBIT B: BUDGET DETAIL AND PAYMENT PROVISIONS**

recoupment of monies provided under this grantor suspension of future program funding through BSCC grants.

### **5. PROMPT PAYMENT CLAUSE**

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

### **6. WITHHOLDING OF GRANT DISBURSEMENTS**

- A. The BSCC may withhold all or any portion of the grant funds provided by this Grant Agreement in the event the Grantee has materially and substantially breached the terms and conditions of this Grant Agreement.
- B. At such time as the balance of state funds allocated to the Grantee reaches five percent (5%), the BSCC may withhold that amount as security, to be released to the Grantee upon compliance with all grant provisions, including:
  - 1) submittal and approval of the final invoice;
  - 2) submittal and approval of the final progress report; and
  - 3) submittal and approval of any additional required reports, including but not limited to the Final Local Evaluation Report and the financial audit.
- C. The BSCC will not reimburse Grantee for costs identified as ineligible for grant funding. If grant funds have been provided for costs subsequently deemed ineligible, the BSCC may either withhold an equal amount from future payments to the Grantee or require repayment of an equal amount to the State by the Grantee.
- D. In the event that grant funds are withheld from the Grantee, the BSCC's Executive Director or designee shall notify the Grantee of the reasons for withholding and advise the Grantee of the time within which the Grantee may remedy the failure or violation leading to the withholding.

### **7. EXECUTIVE ORDER N-6-22 – RUSSIA SANCTIONS**

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

## **EXHIBIT D: SPECIAL TERMS AND CONDITIONS**

### **1. GRANTEE'S GENERAL RESPONSIBILITY**

- A. Grantee agrees to comply with all terms and conditions of this Grant Agreement. Review and approval by the BSCC are solely for the purpose of proper administration of grant funds and shall not be deemed to relieve or restrict the Grantee's responsibility.
- B. Grantee is responsible for the performance of all project activities identified in Attachment 1: Proposition 47 Grant Program Request for Proposals and Attachment 2: Proposition 47 Grant Program Proposal.
- C. Grantee shall immediately advise the BSCC of any significant problems or changes that arise during the course of the project.

### **2. GRANTEE ASSURANCES AND COMMITMENTS**

Grantee agrees that in the event of any inconsistency between this Grant Agreement and Grantee's agreement with a subcontractor, the language of this Grant Agreement will prevail.
- B. Nothing contained in this Grant Agreement or otherwise, shall create any contractual relation between the BSCC and any subcontractors, and no subcontract shall relieve the Grantee of his responsibilities and obligations hereunder. The Grantee agrees to be as fully responsible to the BSCC for the acts and omissions of its subcontractors and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the Grantee. The Grantee's obligation to pay its subcontractors is an independent obligation from the BSCC's obligation to make payments to the Grantee. As a result, the BSCC shall have no obligation to pay or to enforce the payment of any moneys to any subcontractor.
- C. Grantee shall ensure that all subcontractors comply with the eligibility requirements stated in the Proposition 47 RFP and described in Appendix B.

## **EXHIBIT D: SPECIAL TERMS AND CONDITIONS**

### 1) Books and Records

Maintain adequate fiscal and project books, records, documents, and other evidence pertinent to the subcontractor's work on the project in accordance with generally accepted accounting principles. Adequate supporting documentation shall be maintained in such detail so as to permit tracing transactions from the invoices, to the accounting records, to the supporting documentation. These records shall be maintained for a minimum of three (3) years after the acceptance of the final grant project audit under the Grant Agreement and shall be subject to examination and/or audit by the BSCC or designees, state government auditors or designees, or by federal government auditors or designees.

### 2) Access to Books and Records

Make such books, records, supporting documentations, and other evidence available to the BSCC or designee, the State Controller's Office, the Department of General Services, the Department of Finance, California State Auditor, and their designated representatives during the course of the project and for a minimum of three (3) years after acceptance of the final grant project audit. The Subcontractor shall provide suitable facilities for access, monitoring, inspection, and copying of books and records related to the grant-funded project.

## **4. PROJECT ACCESS**

Grantee shall ensure that the BSCC, or any authorized representative, will have suitable access to project activities, sites, staff and documents at all reasonable times during the grant period including those maintained by subcontractors. Access to program records will be made available by both the grantee and the subcontractors for a period of three (3) years following the end of the grant period.

## **5. ACCOUNTING AND AUDIT REQUIREMENTS**

- A. Grantee agrees that accounting procedures for grant funds received pursuant to this Grant Agreement shall be in accordance with generally accepted government accounting principles and practices, and adequate supporting documentation shall be maintained in such detail as to provide an audit trail. Supporting documentation shall permit the tracing of transactions from such documents to relevant accounting records, financial reports and invoices.
- B. The BSCC reserves the right to call for a program or financial audit at any time between the execution of this Grant Agreement and three years following the end of the grant period. At any time, the BSCC may disallow all or part of the cost of the activity or action determined to not be in compliance with the terms and conditions of this Grant Agreement or take other remedies legally available.

## **6. DEBARMENT, FRAUD, THEFT OR EMBEZZLEMENT**

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to grantees that have been:

1. debarred by any federal, state, or local government entities during the period of debarment; or
2. convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

## **EXHIBIT D: SPECIAL TERMS AND CONDITIONS**

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation.

All Grantees must have on file with the BSCC a completed and signed Certification of Compliance with BSCC Policies on Debarment, Fraud, Theft and Embezzlement (Required as Attachment E of the original Proposal Package).

### **7. MODIFICATIONS**

Changes may include modification to project scope, changes to performance measures, compliance with collection of data elements, and other significant changes in the budget or program components contained in Attachment 1: Proposition 47 Grant Program Request for Proposal and Attachment 2: Proposition 47 Grant Program Proposal.

### **8. TERMINATION**

- A. This Grant Agreement may be terminated by the BSCC at any time after grant award and prior to completion of project upon action or inaction by the Grantee that constitutes a material and substantial breach of this Grant Agreement. Such action or inaction includes but is not limited to:
- 1) substantial alteration of the scope of the grant project without prior written approval of the BSCC;
  - 2) refusal or inability to complete the grant project in a manner consistent with Attachment 1: Proposition 47 Grant Program Request for Proposal and Attachment 2: Proposition 47 Grant Program Proposal, or approved modifications;
  - 3) failure to provide the required local match share of the total project costs; and
  - 4) failure to meet prescribed assurances, commitments, recording, accounting, auditing, and reporting requirements of the Grant Agreement.
- B. Prior to terminating the Grant Agreement under this provision, the BSCC shall provide the Grantee at least 30 calendar days written notice stating the reasons for termination and effective date thereof. The Grantee may appeal the termination decision in accordance with the instructions listed in Exhibit D: Special Terms and Conditions, Number 8. Settlement of Disputes.

### **9. SETTLEMENT OF DISPUTES**

- A. The parties shall deal in good faith and attempt to resolve potential disputes informally. If the dispute persists, the Grantee shall submit to the BSCC Corrections Planning and Grant Programs Division Deputy Director a written demand for a final decision regarding the disposition of any dispute between the parties arising under, related to, or involving this Grant Agreement. Grantee's written demand shall be fully supported by factual information. The BSCC Corrections Planning and Grant Programs Division Deputy Director shall have 30 days after receipt of Grantee's written demand invoking this Section "Disputes" to render a written decision. If a written decision is not rendered within 30 days after receipt of the Grantee's demand, it shall be deemed a decision adverse to the Grantee's contention. If the Grantee is not satisfied with the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the Grantee may appeal the decision, in writing, within 15 days of its issuance

## **EXHIBIT D: SPECIAL TERMS AND CONDITIONS**

(or the expiration of the 30-day period in the event no decision is rendered), to the BSCC Executive Director, who shall have 45 days to render a final decision. If the Grantee does not appeal the decision of the BSCC Corrections Planning and Grant Programs Division Deputy Director, the decision shall be conclusive and binding regarding the dispute and the Contractor shall be barred from commencing an action in court, or with the Victims Compensation Government Claims Board, for failure to exhaust Grantee's administrative remedies.

- B. Pending the final resolution of any dispute arising under, related to or involving this Grant Agreement, Grantee agrees to diligently proceed with the performance of this Grant Agreement, including the providing of services in accordance with the Grant Agreement. Grantee's failure to diligently proceed in accordance with the State's instructions regarding this Grant Agreement shall be considered a material breach of this Grant Agreement.
- C. Any final decision of the State shall be expressly identified as such, shall be in writing, and shall be signed by the Executive Director, if an appeal was made. If the Executive Director fails to render a final decision within 45 days after receipt of the Grantee's appeal for a final decision, it shall be deemed a final decision adverse to the Grantee's contentions. The State's final decision shall be conclusive and binding regarding the dispute unless the Grantee commences an action in a court of competent jurisdiction to contest such decision within 90 days following the date of the final decision or one (1) year following the accrual of the cause of action, whichever is later.
- D. The dates of decision and appeal in this section may be modified by mutual consent, as applicable, excepting the time to commence an action in a court of competent jurisdiction.

### **9. UNION ACTIVITIES**

For all agreements, except fixed price contracts of \$50,000 or less, the Grantee acknowledges that applicability of Government Code §§16654 through 16649 to this Grant Agreement and agrees to the following:

- A. No State funds received under the Grant Agreement will be used to assist, promote or deter union organizing.
- B. Grantee will not, for any business conducted under the Grant Agreement, use any State property to hold meetings with employees or supervisors, if the purpose of such meetings is to assist, promote or deter union organizing, unless the State property is equally available to the general public for holding meetings.
- C. If Grantee incurs costs or makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no reimbursement from State funds has been sought for these costs, and that Grantee shall provide those records to the Attorney General upon request.

### **10. WAIVER**

The parties hereto may waive any of their rights under this Grant Agreement unless such waiver is contrary to law, provided that any such waiver shall be in writing and signed by the party making such waiver.

Section 1. Project  
Need

Target Population and Project Need: The Public Defender's Office (PDO) Effecting Change in Circumstances (ECC) project will provide diversion and support services to justice-involved adults and youth experiencing mental health or substance use disorders (SUD) in Monterey County. The project aims to address existing service gaps that lead to unnecessary delays and difficulties in delivering diversion services for participants who have been arrested, charged with or convicted of a misdemeanor or non-violent felony. The project also seeks to address the underlying causes of unlawful behavior by altering conditions that lead to legal problems, improving participants' quality of life, and supporting their (re)integration into society, thus reducing their risk for recidivism.

ECC will primarily seek to serve low-income Hispanic adults and juveniles in Monterey County with mental health or substance abuse disorders who are eligible for diversion programs, but remain in custody on pending misdemeanor or nonviolent felony charges due to financial challenges and/or systemic service gaps. Additionally, youth who have been arrested, but who have not yet entered the court system will be a special focus population to reduce the number of individuals who enter the justice system; thus reducing the number of those who may be at risk for recidivism in the future (i.e., prevention). The project seeks to address four main gaps in service which prolong incarceration and result in unnecessary delays and difficulties in obtaining diversion programs for adults and juveniles with mental health or substance abuse needs, including:

[1] A 48–96-hour gap after arrest and before the first court appearance where important screening and intake interviews are not being conducted, resulting in prolonged incarceration. The project's Adult Rapid Response Team would close this gap by conducting in-custody screening and intake prior to the first court appearance, increasing the probability of the Public Defender to obtain release at the initial appearance, and providing immediate referrals to mental health, SUD and additional wraparound services such as supported housing, employment and/or education assistance.

[2] A lack of an intensive juvenile diversion program that includes a restorative justice component. Currently, there is no restorative justice program to which the Probation Department can divert first-time offenders in lieu of juvenile court proceedings. The program's Juvenile Rapid Response Diversion would create such a program to allow first time offenders to avoid becoming wards of the juvenile court, and also connect

youth with mental health, SUD, and other support services, all of which have been shown to reduce recidivism among youth (Zeola, Guina & Nahhas, 2017; Tolou-Shams, et. Al, 2023).

[3] The inability of persons in-custody to be evaluated by a mental health professional for mental health diversion. While a person is in jail, their Medi-Cal benefits are suspended (California Dept. of Public Health Billing Manual, 2024). Sometimes referred to as a “lockout,” healthcare providers are unable to receive compensation for providing services to people in jail, including case plans for the individual upon release. Justice-impacted individuals are put in a position where they are eligible for mental health diversion, but cannot get a psychologist or psychiatrist to evaluate them and draw up the case plans required by the court in order to grant mental health diversion, resulting in extended time in jail. The Mental Health Diversion component of the program would employ a behavioral health professional (e.g., MSW-LCSW, psychologist, etc.) to conduct the assessment; provide a diagnosis; determine the level of care required; develop a care plan, and; refer to the appropriate specialist(s) (e.g. outpatient or inpatient behavioral health practitioners, psychiatrists, etc.) for treatment, for people currently unable to obtain these services due to the Medi-Cal “lockout”.

This will allow individuals to exit custody, immediately begin needed treatment, and connect with wraparound support services.

[4] The County’s diversionary Sobering Center currently only operates four days a week due to a lack of funding. The current three-day gap results in individuals arrested for acute intoxication ending up in jail or the emergency room instead of being diverted to the safe space provided by the Sobering Center where they can be stabilized enough to be self-released and/or referred to needed services. The Sobering Center estimates that the added ECC project funding will allow them to treat 150 new individuals annually with services provided 24/7, closing this service gap.

Addressing Disparities: The project will primarily serve ethnically diverse individuals residing in rural, underserved communities including the high-poverty areas of Pajaro/Castroville to the north, Soledad to the south, and parts of Salinas, each of which have a poverty rate of 17%, which is far above the County’s and California’s rate of 12% (U.S. Census Bureau, 2023). Over 39% of Monterey County residents work in low-wage agricultural and hospitality jobs (U.S. Census Bureau, 2023), where, for example, agricultural workers receive the lowest average wages of any county in California (Employment Development Department, 2023). Most justice-impacted individuals from these communities are low-income which results in more time spent in jail due to their lack of money for bail, despite their eligibility for diversion programs. For those who are justice-impacted, time spent in custody can have a significant impact on the financial security/social stability of and interpersonal relationships between the individual and their families.

Additionally, reports from local law enforcement agencies including the Monterey County Sheriff’s Office, Probation Department and local Police Departments show that people of color are disproportionately affected by the criminal justice system in Monterey County. The below table shows that

although 61% of the county’s population is Hispanic, 84% of juvenile cases and 82% of adult cases were filed against Hispanic individuals. In addition to economic challenges and various systemic disparities that lead to these outcomes, many may also face barriers related to their immigration status (29% of residents are foreign-born) and more than half (55%) speak a language other than English at home, compared to 44% statewide and 21% nationally (U.S. Census Bureau, 2023). As a result of these multiple factors, Hispanic individuals are more likely than any other group to experience prolonged time in custody as they await mental health or SUD diversion.

#### Juvenile and Adults Cases by Race/Ethnicity in Monterey County, 2022-2023

Race	Juvenile Cases	Adult Cases	County Population
Asian	1%	0.4%	7%
Black	4%	3%	3%
Hispanic	84%	82%	61%
Pac. Islander	1%	0%	1%
White	8%	14%	28%
Other	2%	2%	7%

The ECC project will significantly improve support for this population by addressing the systemic service gaps that result in these disparate outcomes. ECC funding will be used to increase staff to expedite the diversion of justice-impacted individuals into much-needed mental health and SUD treatment and provide social services including supportive housing, transportation assistance, employment assistance, and restorative justice services. Diversion is the first step in connecting justice-involved youth and adults with the resources they need to lead healthy and productive lives, thus reducing their risk for recidivism. In addition to evaluating the project’s impacts on recidivism rates, the potential cost savings to local human services agencies, law enforcement, and medical facilities as a result of these diversion efforts will be assessed.

#### Section 2. Community Engagement

Local Advisory Committee Membership and Diversity: The ECC project has convened a diverse group of stakeholders with an extensive history of collaboration and community engagement, many serving as members of the Prop 47-Cohorts I-III project’s Local Advisory Committees (LAC) including mental health, medical and SUD treatment professionals, homeless advocates, justice-involved people, community activists, County officials, education professionals, and law enforcement. Through long-term participation in the previous three Prop 47 projects, these individuals have gained significant experience and expertise serving as LAC members, and have already been vetted through extensive community feedback sessions. Additionally, new members with expertise in restorative justice, mental health, and SUD advocacy have also been invited to participate. Invited LAC members reside in and are employed across all areas of Monterey County and have experience with the project’s populations of focus.

The importance of recruiting a diverse body of members with experience living or working with the communities of focus is reflected in research on

localized needs such as Monterey County’s Community Health Needs Assessment (CHNA), a tool used to determine the health status, behaviors, and needs of Monterey County residents. Data from the 2022 CHNA report shows significant differences in outcomes for rural residents (focus population) compared with more urban areas. The stark disproportionality of self-reported mental health status compared with active treatment is shown below. In North Monterey County, for example, nearly 47% of individuals report “fair” or “poor” mental health, while only 8% are currently engaged in mental health treatment, showing how few are receiving the care they need.

The below table illuminates regional disparities related to drug and alcohol use and treatment. For example, the rate of illicit drug use in North County (14.2%) is more than twice the County rate (6.1), but only 1.7% of North County residents have ever sought treatment. The rates of excessive drinking are also higher in South County (27.2%) and Salinas (23.1%) than the County rate (18.1%), with a similar percentage in each area (4-5%) ever having sought treatment.

Related Problem

This research reveals significant discrepancies between those reporting mental health and SUD-related needs and the percentage of individuals receiving treatment in the more rural parts of Monterey County. The ECC project has assembled a diverse group of stakeholders with experience and expertise in addressing the barriers and challenges faced by residents of these areas.

Engagement Process: As described in the previous section, the ECC project obtained input for LAC membership from those with expertise in regional and disciplinary areas of need, to identify individuals whose knowledge and experience could best guide this project. Most of the selections were individuals with a demonstrated history of involvement in working with the target population. Additionally, some selections were first-time participants who showed a desire to become involved and to improve their community. Following the solicitation process, the Public Defender organized and publicly announced the first meeting of the LAC for

interested parties, which took place on June 5th, 2024 to discuss the project and ECC proposal. 26 LAC members were in attendance. Attendees were encouraged to ask questions and provide comments on the project. All participants who spoke during the meeting shared their enthusiasm for the project, mentioning the potential positive impacts it could have on the community including providing services to areas in need and underserved populations, as well as the potential economic benefits such as cost-savings to local hospitals and government agencies. The meeting was held via Zoom to encourage attendance by those in rural areas of the county or who were unable to travel. The meeting was ADA compliant, and accommodations were available if needed.

LAC Notification and Participation: Advisory Committee meetings will be noticed publicly on the main Monterey County website in addition to the websites of the Monterey County Public Defender, Monterey County Behavioral Health, and the CBO representatives on the Committee. Meetings will also be noticed during the public meetings of the Community Correctional Partnership, Restorative Justice Committee, and Juvenile Justice Committee. In an effort to provide opportunities for participation by community members and organizations located in the project's rural communities of focus, meeting locations will rotate throughout the County during the project and remote access by Zoom links will always be available to allow people to attend online and improve accessibility. All meetings will provide the opportunity for public comment to solicit feedback from the community and contribute to ongoing quality improvement.

Section 3. Project Description

Goals, Objectives and Impacts: As outlined in the Project Work Plan (Attachment H), the ECC goals and objectives address the systemic service gaps and barriers which prevent justice-impacted individuals, primarily people of color, from being diverted from custody into much-needed treatment and wraparound services. The ECC project would provide direct access to mental health services, residential and outpatient substance use disorder treatment, restorative justice programs, transitional and permanent housing, education and job training assistance, employment support and acute detoxification in order to support sustainable recovery and provide resources needed to avoid future interactions with the criminal justice system, thus reducing recidivism.

Identification of the Target Population: ECC project participants will be identified, assessed for mental health and SUD needs, and then referred to the appropriate services via a multi-step process possible through a collaborative multi-departmental partnership between Monterey County Sheriff's Office, Public Defender's Office (PDO), Probation Department, Behavioral Health, local law enforcement, and CBO partners, and assistance from a team of trained health/social service interns from the

Department of Health, Human Services and Public Policy (HHSPP) at California State University, Monterey Bay (CSUMB). The referral and assessment process will vary depending on the population receiving diversion, as described below:

**Adult Mental Health and/or SUD Diversion:** The referral process for new adult arrestees in pretrial custody will begin with daily booking reports provided by the Sheriff's Office, reviewed by existing PDO staff. These reports would identify arrestees in custody on misdemeanor or low-level felony offenses that could be eligible for diversion. Once a pool of clients is determined, and upon receipt of the clients, HHSPP interns would utilize an existing risk/needs assessment tool to interview them and identify mental health and/or SUD needs. Those with qualifying needs would be referred to the lead attorney at the Public Defender for development of a plan, to include pretrial release, any housing or transportation needs, pretrial diversion, and post-case and reentry services.

**Juvenile Mental Health and/or SUD Diversion:** The referral process for juvenile arrestees having mental health or substance disorder needs will be performed by the Monterey County Probation Department. Juveniles who are identified as having such needs and who are otherwise amenable to pretrial diversion will be referred to mental health and/or SUD services as well as the Monterey County Restorative Justice program; enrollment and participation in these services will be required in lieu of sending the case to the District Attorney for court proceedings.

**Sobering Center Diversion:** Referrals to Sun Street Center's Sobering Center are received from local law enforcement and parole and include arrestees charged with 647(f) or first offender 23152. Law enforcement delivers arrestees to the Sobering Center in lieu of booking them in jail. In addition, the Sobering Center makes referrals to Sun Street Centers' outpatient and residential SUD treatment programs and DUI Treatment Program, as well as other community agencies, based on client needs.

**Services Types, Sources and Method of Delivery:** The ECC project is anticipated to serve over 400 justice-involved individuals, primarily individuals of color, residing in the most underserved areas of Monterey County. Local law enforcement data shows that 84% of juvenile cases and 82% of adult cases in Monterey County in 2022-23 were made against individuals who identify as Hispanic, while CHNA data highlights severe mental health and SUD inequities in the high-poverty areas of North and South Monterey County, where many arrestees reside. This project seeks to address systemic gaps that exacerbate income and racial inequality and perpetuate the cycle of incarceration by providing vital services to support the unique needs of each participant.

As described in the previous section, the ECC project will offer various case-managed services based on individual client needs including legal assistance, residential and outpatient substance disorder treatments, restorative justice programs, outpatient mental health provisions, bridge housing, permanent housing, education, and transportation assistance. Each client in case-managed care (those with care plans through adult and juvenile mental health or SUD diversion) will receive an initial risk and

needs assessment prior to their first court hearing and will be directly connected with services which may include mental health or SUD treatment and restorative justice, transportation and housing programs as required in their custodial release plan. As the legal processes come to a resolution, the service plan will address longer-term issues such as education, employment, and aftercare to be overseen by ECC and CBO case managers. Additional services provided by the project will include acute detoxification provided by the Sobering Center. Service duration can range from short-term, (less than 48 hours in the case of persons diverted to the Sobering Center), up to 24-months in the case of persons placed on mental health or SUD diversion treatment plans.

**Service Delivery Approach:** All service providers will be vetted to ensure they are culturally competent in the areas of ethnic and language diversity, gender-identification variations, and providing services to those persons who have a history of trauma.

For youth, the juvenile diversion program is centered around the restorative justice model of viewing crime as a violation of interpersonal relationships, using empathy and face-to-face interactions as the main teaching tools for juveniles to learn about and reflect on the impact of their crime on their victims, in an effort to change their perspective and influence future decisions.

The ECC project will address the main barriers to serving our focus population of people in pretrial custody which include financial barriers (i.e., low-income status leading to personal resource limitations) and lack of access to health insurance (due to Medi-Cal lock-out). The project will fund mental health providers who can develop treatment plans for those in custody, which will eliminate the major barrier to receiving mental health and substance abuse disorder treatment.

**Process to Determine Providers:** Service providers will be prioritized who are able to directly deliver services on-site in the identified underserved rural areas of Monterey County or by providing transportation from these areas to the point of service; in both situations, it is paramount that the target population be met where they are. Priority will also be given to providers with experience assisting immigrant groups with unique language requirements, especially indigenous peoples from North and Central America who relocate in fairly large numbers to Monterey County for agricultural jobs. All providers will have staff in their organization, who have personally or professionally dealt with a mental health or substance use disorder and/or experienced justice system impacts, housing deficits, and/or other challenges common to the focus population.

**Start-Up Time:** Monterey County Public Defender already has established relationships with several eligible providers through the previous three Prop 47 projects, many of whom have existing networks with community organizations, law enforcement, and our focus communities. For instance, the Sobering Center provider is already working with local law enforcement agencies to provide services Thursday-Sunday and will be able to begin 24/7 operations immediately. Further, many end-user providers are already in place, ready to implement services if funding is provided to address systemic gaps. For example, funding staff to create treatment and care plans for in-custody persons would fill the current gap that prevents or

delays the focus population from accessing existing service providers.

**Leveraged Funds:** The ECC project leverages Medi-Cal funds for mental health treatment, SUD treatment, and in- and out-patient services. By leveraging these funds, the plan will be able to provide services to a larger pool of the focus population.

**Guiding Principles of Prop 47 and the ECC Project:** The ECC project stands as a beacon of hope and transformation for our community, particularly for justice-impacted individuals, primarily people of color, who have long been ensnared in a cycle of incarceration and systemic neglect. By meticulously addressing the systemic service gaps and barriers that hinder their path to recovery and reintegration, the ECC project offers a lifeline to those in need.

Consider the stark reality faced by adults and youth alike who find themselves entangled in the justice system, often grappling with untreated mental health and substance use disorders while languishing in custody. The statistics speak volumes: the majority of juvenile cases in Monterey County involve individuals of Hispanic descent, while a significant portion of both adult and juvenile populations struggle with mental health and substance use disorders. These are not just numbers; they represent real lives, real families, and real communities impacted by the failures of our current systems.

Through a comprehensive approach that combines multi-departmental partnerships, rigorous assessment protocols, and a wide array of tailored services, the ECC project aims to break the chains of recidivism and offer a pathway to sustainable recovery and empowerment. From legal assistance to residential treatment, from restorative justice programs to transitional housing, every aspect of the project is meticulously designed to meet the unique needs of each participant and to address the root causes of their involvement in the justice system.

Crucially, the ECC project is not just a theoretical endeavor; it is a practical, actionable plan backed by years of experience and grounded in the realities of our community. Leveraging existing relationships and prioritizing culturally competent providers, the project maximizes resources and ensures that no one is left behind.

But perhaps most importantly, the ECC project is a testament to the power of collaboration and compassion. It is a testament to what we can achieve when we come together as a community, recognizing the inherent dignity and potential of every individual, regardless of their past mistakes or circumstances.

Section 4. Project      Project Evaluation Team and Monitoring Activities: Researchers from the

## Evaluation and Monitoring

Institute for Community Collaborative Studies (ICCS) at CSUMB have over seven years of experience in successfully evaluating Prop 47 projects and will evaluate the project. ICCS has participated in all planning meetings for the ECC project and will be actively engaged in designing and implementing the project evaluation from startup to closeout. The table below identifies the fidelity monitoring and data collection efforts that will take place during each phase of the project including the following: 1) development of the tools, systems, and processes needed for data collection; 2) ongoing qualitative data collection through quarterly provider meetings and annual interviews, 3) ongoing quantitative data collection through quarterly and recidivism reporting in each service year; and 4) a final analysis that includes a process evaluation, an outcome evaluation and an assessment of progress made toward project-related goals and objectives.

**Process and Outcome Measures:** The process and outcome measures that will be used for this project, as well as goals and objectives, are described in detail in Attachment H: Work Plan. A 10% reduction in recidivism is included as an outcome measure under Goal #1.

**Preliminary Research Plan:** During the Implementation Phase of the project, ICCS researchers will collaborate with project partners to develop the Local Evaluation Plan (LEP) to include the project theory and logic model. The Public Defender (PDO) will review and update all existing agreements as needed, including those with the Monterey County Sheriff's Office (MCSO) and Behavioral Health. New data-sharing agreements will be established with additional providers, who will receive training on recording and reporting de-identified client data. Baseline data will be collected during the Implementation Phase to the extent possible, using data available from DPO's Digital Case Management System, reports from MCSO and the Probation Department, and internal data from providers. Any gaps in data collection will be identified and addressed before implementation of service delivery. The research plan for the ongoing process and outcome evaluation is described below:

**Process Measures and Methodology:** The ongoing process evaluation will describe how the project's activities are implemented as reflected in the work plan and logic model, as well as the level to which the outputs are being achieved. The evaluation will use qualitative data collected on an ongoing basis from each provider through quarterly stakeholder meetings, as well as annual interviews, with the measures for the process evaluation following directly from the activities and outputs described in the work plan and logic model.

**Outcome Measures and Methodology:** The ongoing outcome evaluation will include a two-prong analysis:

1. **Provider Reports:** This component of the outcome evaluation will use quantitative data derived from quarterly reports submitted to evaluators by each provider. The evaluation team will use this de-identified data to populate a client services database in which information on each participant (identified by a unique ID#) is tracked over time. This centralized database allows the evaluation team to track outputs and outcomes, avoid duplication of clients, and maintain a record of referrals between providers.

The Prop 47 client database is also used to match clients for the recidivism analysis.

2. Recidivism: To conduct this evaluation, PDO will utilize a data-sharing agreement with the MCSO and Probation to obtain arrest reports, which date back to April 1998 and are updated every month. PDO will then match arrest records to Prop 47 clients to assess their arrest history within the County. In addition, the evaluation will also analyze conviction data, which comes directly from the Monterey County Superior Court via PDO. PDO then compiles conviction histories for Prop 47 clients arrested after being admitted into the project.

Findings from the process and outcome analysis will be compiled and presented to the project partners and the LAC at the end of each service year to inform performance measurement and quality improvement. A final analysis will also take place during closeout to include a process and outcome evaluation and assessment of progress made toward project-related goals and objectives; the findings will be summarized in the Local Evaluation Report and submitted to the BSCC at the end of the project period.

## Appendix B: Criteria for Non-Governmental Organizations Receiving BSCC Grant Subawards

**Required Attachment: Applicants will be prompted to upload this document from the BSCC [Proposition 47 webpage](#) to the BSCC Submittable Application Portal.**

**Instructions:** The form on the following page must be submitted with the proposal even if there are no plans to subcontract at the time of submission, or if the name of the subcontract party is unknown. In either of these cases, the applicant should write “N/A” in the Name of Subcontracted Party column and complete the signature box. A signature on this form provides an assurance to BSCC that the signing authority has read and acknowledged these terms.

The Proposition 47 Request for Proposals (RFP) includes requirements that apply to non-governmental organizations (NGOs)<sup>1</sup> providing services with grant funds. Grantees are responsible for ensuring that all contracted third parties continually meet these requirements as a condition of receiving any Proposition 47 funds. The RFP describes these requirements as follows:

Any non-governmental organization that receives Proposition 47 grant funds (as either a direct grantee, subgrantee, or subcontractor) must:

- Have been duly organized, in existence, and in good standing for at least six (6) months prior to the effective date of its Proposition 47 Grant Agreement with the BSCC or with the start date of the grantee’s subcontract agreement;
  - Non-governmental entities that have recently reorganized or have merged with other qualified non-governmental entities that were in existence prior to the six (6) month date are also eligible, provided all necessary agreements have been executed and filed with the [California Secretary of State](#) prior to the start date of the Grant Agreement with the BSCC or the start date of the grantee’s subcontract agreement;
- Be registered with the [California Secretary of State’s Office](#), if applicable;
- Be registered with the [California Office of the Attorney General, Registry of Charitable Trusts](#), if applicable;
- Have a valid Employer Identification Number (EIN) or Taxpayer ID (if sole proprietorship);
- Have a valid business license, if applicable;
- Have no outstanding civil judgments or liens; and
- Have any other state or local licenses or certifications necessary to provide the services requested (e.g., facility licensing by the Department of Health Care Services), if applicable.

### Completing the NGO Assurance (next page)

1. Provide the name of the Applicant Agency (the Grantee).
2. List all contracted parties (if known\*).
3. Check Yes or No to indicate if each contracted part meets the requirements.
4. Sign and submit with the proposal.

**\*Note:** If the name of the contracted part is unknown, write TBD in the “Name of Contracted Party” field and sign the document.

In addition to the administrative criteria listed above, any non-governmental, community-based organization that receives Proposition 47 grant funds must have a proven track record working with the target population and the capacity to support data collection and evaluation efforts.

---

<sup>1</sup> Non-Governmental Organizations (NGOs) include community-based organizations, faith-based organizations, non-profit organizations/501(c)(3)s, for profit service providers, evaluators (except government institutions such as universities), grant management companies and any other non-governmental agency or individual.

## Appendix C: Certification of Compliance with BSCC Policies Regarding Debarment, Fraud, Theft, and Embezzlement

**Required Attachment: Applicants will be prompted to upload this document from the BSCC [Proposition 47 webpage](#) to the BSCC Submittable Application Portal**

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to applicants that have been:

1. debarred by any federal, state, or local government entities during the period of debarment;  
OR
2. convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

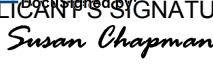

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation.

By checking the following boxes and signing below, applicant affirms that:

- I/We are not currently debarred by any federal, state, or local entity from applying for or receiving federal, state, or local grant funds.
- I/We have not been convicted of any crime involving theft, fraud, or embezzlement of federal, state, or local grant funds within the last three years. We will notify the BSCC should such debarment or conviction occur during the term of the Grant contract.
- I/We will hold subgrantees and subcontractors to these same requirements.

A grantee may make a request in writing to the Executive Director of the BSCC for an exception to the debarment policy. Any determination made by the Executive Director shall be made in writing.
