

Jessica McKillip, Executive Director for ITNMontereyCounty since 2018 has grown the organization to over 700 members, delivering over 101,000 rides since January 2011 and proudly serves on the Mobility Advisory Council for MST; current Chair of the Legislative & Advocacy committee of AAA.

A California native raised on a small family farm in the Central Valley, moving to Monterey in 2000 to attend Cal State Monterey Bay where she graduated with a dual major in Public Health & Social Work in the Collaborative Health and Human Services Department. Her work in the nonprofit sector since 2006 has stretched from operating local farmers markets, expanding a healthy eating youth education program in after-school programs, to operating a downtown business district with numerous committee projects in historic Oldtown Salinas.

While Jessica has lived on the peninsula for over 24 years she has volunteered with the Marina Chamber of Commerce, Salinas Valley Food & Wine Festival, and Monterey Young Professionals Group. She is currently a member Monterey Cypress Auxiliary Unit 694, and President Elect of Junior League of Monterey County; and cares deeply about making a positive difference. Jessica is excited to be at the helm of an organization changing the way transportation looks and feels for seniors and visually impaired adults in the county.
