**INTERAGENCY AGREEMENT
BETWEEN**

**THE MONTEREY COUNTY SPECIAL EDUCATION
LOCAL PLAN AREA
(SELPA)**

AND

**THE MONTEREY COUNTY HEALTH DEPARTMENT,
BEHAVIORAL HEALTH BUREAU
(MCBH)**

2026 – 2027

On October 8, 2010, California Governor Arnold Schwarzenegger vetoed a fiscal year 2010-11 appropriation for Educationally Related Mental Health Services (ERMHS) or an evaluation conducted to determine a student's mental health needs and whether mental health services are required for the student to benefit from their educational program, mandated by AB 3632 and stated in doing so that "[t]his mandate is suspended." AB 114, Statutes of 2011, Chapter 43 (AB 114) became effective July 1, 2011, and placed the responsibility for provision of mental health services for students with disabilities (AB 114 Services) with LEAs.

Monterey County Special Education Local Plan Area (SELPA) acknowledges that the Local Education Agencies (LEAs) are mandated to provide services necessary to ensure students a free and appropriate public education (FAPE), including Mental Health Services, pursuant to a student's Individualized Education Plan (IEP), the federal Individuals with Disabilities Education Act (IDEA) and state law. SELPA is authorized to obligate its member LEAs to the terms of this Agreement.

County of Monterey Health Department, Behavioral Health Bureau (MCBH) offers outpatient Mental Health Services or medically necessary services to assess and treat severe mental health conditions (hereinafter Mental Health Services), by qualified professionals at its current publicized rates. SELPA requests that MCBH facilitate the provisions of these Mental Health Services to students of the LEAs within SELPA who are eligible and where such services are deemed necessary in the IEP.

This Agreement defines the roles and responsibilities of SELPA, on behalf of its member LEAs, and MCBH in the provision of special education and related services to school-age individuals residing in Monterey County. Individuals referred to MCBH must be suspected of needing related services provided by MCBH. Special education and related services covered under the terms of this Agreement shall be at no cost to the parent or legal guardian of the student being served, though MCBH may bill appropriate payors (e.g. Medi-Cal) for mental health services rendered to qualifying individuals.

A primary goal of this Agreement is to ensure that necessary special education and related services are provided to qualifying individuals with special needs in an efficient manner through joint planning, cooperative service delivery, and the judicious use of resources in accordance with applicable federal and state laws and regulations.

Appendix C – Youth Screening Tool for Medi-Cal Mental Health Services

State of California – Health and Human Services Agency

Department of Health Care Services

Youth Screening Tool for Medi-Cal Mental Health Services

The Youth Screening Tool for Medi-Cal Mental Health Services is required for use when an individual under age 21, or a person on behalf of an individual under age 21, who is not currently receiving mental health services, contacts their Medi-Cal Managed Care Plan (MCP) or county Mental Health Plan (MHP) to seek mental health services. This tool determines whether an individual should be referred to the MCP delivery system or to the MHP delivery system for a clinical assessment and ensures that individuals have timely access to the appropriate mental health delivery system. The Youth Screening Tool for Medi-Cal Mental Health Services is not required to be used when individuals contact mental health providers directly to seek mental health services.¹

Instructions:

1. There are two versions of the Youth Screening Tool for Medi-Cal Mental Health Services:
 - One version of the tool is used when a youth is responding on their own behalf: *Youth Screening Tool for Medi-Cal Mental Health Services: Youth Respondent*.
 - One version of the tool is used when a person is responding on behalf of the youth: *Youth Screening Tool for Medi-Cal Mental Health Services: Respondent on Behalf of Youth*.
2. The answer to screening question 2 determines which version of the tool is used.
3. Each scored question is a “Yes” or “No” question. Not every question is scored.
4. Each scored question has a defined number of points for the selected answer. The number of points for each question cannot be more or less than what is on the scoresheet.
5. Select/mark the number in the “Yes” or “No” column based on the response provided.
6. If the youth, or the person responding on their behalf, is unable or chooses not to answer a question, skip the question and score it as “0.”

¹ As described in APL 22-028 and BHIN 22-065, MCPs and MHPs must allow contracted mental health providers who are contacted directly by individuals seeking mental health services to begin the assessment process and provide services during the assessment period without using the Screening Tools, consistent with the No Wrong Door for Mental Health Services Policy described in [BHIN 22-011](#).

7. If a response to question 5 indicates that a child who is age 3 or younger has not seen a pediatrician in the last 6 months, or that a child/youth age 4 or older has not seen a pediatrician or primary care physician (PCP) in the last year, the screener must offer to connect them to their MCP for a pediatrician/PCP visit in addition to the mental health delivery system referral generated by the screening score.²
8. If the youth, or the person responding on their behalf, responds “Yes” to question 6, 7, or 9, they meet criteria for specialty mental health services per [BHIN 21-073](#). In these cases, the screening is not required, and the screener must offer and coordinate a referral for clinical assessment by the MHP. Referral coordination must include follow up to ensure an assessment has been made available to the individual. Please reference [BHIN 21-073](#) for additional detail on specialty mental health services criteria and definitions of key terminology.
9. If the youth, or the person responding on their behalf, responds “Yes” to question 19, 20, or 21, the screener must immediately offer and coordinate a referral to a clinician for further evaluation of suicidality and/or homicidality after the screening is completed. Referral coordination should include sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services. The referral and subsequent clinical evaluation may or may not impact the mental health delivery system referral generated by the screening score.
10. A response of “Yes” to question 17 does not impact the screening score. If the youth, or the person responding on their behalf, responds “Yes” to question 17, the screener must offer and coordinate a referral to the county behavioral health plan for substance use disorder assessment in addition to the mental health delivery system referral generated by the screening score. The individual may decline this referral without impact to the mental health delivery system referral.
11. Once responses to all questions have been documented, the selected/marked numbers in the “Yes” column should be added together and that total number should be entered in the “Total Score” box.
 - a. Individuals with a total score of 0 – 5 must be referred to the MCP for a clinical assessment.
 - b. Individuals with a total score of 6 and above must be referred to the MHP for a clinical assessment.
12. Once a score has been generated, a referral must be coordinated.
 - a. If the individual’s score requires referral within the same delivery system, a timely clinical assessment must be offered and provided.
 - b. If the individual’s score requires referral to the other mental health delivery system (i.e., MCP to MHP or MHP to MCP), the referral must be coordinated with the other delivery system, including sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services and following up to ensure a timely clinical assessment has been made available to the individual.

² Bright Futures well-child visit guidelines indicate a child age 4 and older should be seen by a pediatrician annually, and a child age 3 and under should be seen by a pediatrician every 1, 3, or 6 months depending on their age.

HART

HART services are IEP driven, accompany individual mental health services, and can largely be provided in the home, and also in school and community settings, to address your child's treatment goal focused on improving social and emotional development linked to severe mental health needs by teaching them and their parents/caregivers prosocial replacement skills to use in response to challenging situations, feelings, or emotions.

The HART program utilizes a child-centered, strength-based approach that allows families to have a voice in treatment planning and is based on your child's identified areas of social emotional need.

The Monterey County Behavioral Health's HART program was created in partnership with the Monterey County SELPA to assist students who, due to complex and severe social and emotional challenges, have been identified by their IEP team as being at imminent risk of residential treatment.
