

# Salinas Valley Basin August Trough 2025

Lines of Equal Groundwater Elevation  
in the 400-Ft and East Side Deep  
Aquifers

### 10-ft Groundwater Elevation Contours

- Above Sea Level
- Sea Level
- Below Sea Level
- Potential Fault Zone

## Attachment B

Note: These groundwater contours represent a regional-scale approximation of the groundwater surface, based on available hydrogeological data, illustrating general groundwater flow patterns. They should not be interpreted as precise or localized features.
