EXHIBIT A-2 - SCOPE OF SERVICES/PAYMENT PROVISIONS

**To Agreement by and between
County of Monterey, hereinafter referred to as “County”
and
CONSOR North America, Inc., hereinafter referred to as “CONTRACTOR”**

A. SCOPE OF SERVICES

A.1 CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

At the County's request, CONTRACTOR prepared the following scope and anticipated level of effort to perform additional services for the San Miguel Canyon Road and Castroville Boulevard Roundabout Project (Prunedale Roundabout Project or Project).

Since the Notice to Proceed (NTP) issued by County, CONTRACTOR has evaluated potential impacts and associated costs. To date, CONTRACTOR has based their design on the primary goal to achieve the February 2026 date by eliminating the need for permanent right of way acquisition. This goal was agreed upon in the preliminary finding meeting with County on August 10, 2023.

Based on CONTRACTOR's meeting with County on May 31, 2024, CONTRACTOR began identifying what impacts would be necessary to construct the proposed roundabout without requiring a temporary retaining wall. CONTRACTOR presented their findings to County in a meeting on June 21, 2024, and County concurred with the Project approach.

With this revised Project approach, CONTRACTOR will need to redevelop the 30% roundabout design and coordinate with County throughout the process. The updated roundabout location will require permanent right of way acquisition from up to four (4) parcels and a temporary construction easement to account for the temporary detour impacts.

Following the public outreach meeting held on September 6, 2024, the Project team met various times to discuss additional efforts needed to determine the feasibility of the Project and address the public concerns which included feedback from Supervisor Glenn. CONTRACTOR's team also produced additional pedestrian and bus stop alternatives for County review following the public meeting.

Additional project management and design engineering services have been included along with additional right of way services to prepare appraisals and right of way acquisition documents.

Phase I – Preliminary Engineering and Environmental Documentation TASK 1 – PROJECT MANAGEMENT

Task 1.1 – Project Team Meetings (Supplemental)

This amended task includes the backfill of budget exceeding the original agreed upon amount along with the cost to complete. Due to the Project changes, extended project timeline, and additional meetings to coordinate between CONTRACTOR and County, CONTRACTOR is

EXHIBIT A-2 - SCOPE OF SERVICES/PAYMENT PROVISIONS

requesting additional task budget to backfill this task along with additional budget to continue meeting with County on a regular basis and ensure the project is delivered successfully. CONTRACTOR is expecting less coordination will be needed following the 30% preliminary design phase and environmental document circulation. Therefore, CONTRACTOR has included one (1) monthly status meeting over the duration of fourteen (14) months with County Project Manager and related monthly progress reports over the same extended period. No additional coordination meetings are expected between CONTRACTOR and County beyond one (1) monthly meeting.

Task 1.2 – Schedule Project Tasks (Supplemental)

This amended task includes the backfill of budget exceeding the original agreed upon amount along with the cost to complete. Due to the Project changes, extended Project timeline, and additional meetings to coordinate between CONTRACTOR and County, CONTRACTOR is requesting additional task budget to backfill this task along with additional budget to continue scheduling tasks and keep the Project on revised timelines.

TASK 2 – ENVIRONMENTAL DOCUMENTATION

Task 2.1 – Wetland Delineation and Preliminary Jurisdictional Determination Consultations with Regulatory Agencies

Environmental Preliminary Determination (Supplemental):

This amended task includes the backfill of budget exceeding the original agreed upon amount along with the cost to complete. Due to the various relocations of the roundabout, CONTRACTOR spent additional effort coordinating changes with SWCA, Inc. dba SWCA Environmental Consultants (SWCA) (CONTRACTOR's subcontractor) along with updates and changes to the Area of Potential Effects (APE) map. CONTRACTOR is requesting additional task budget to backfill this task along with additional budget to coordinate finalization of the environmental document. CONTRACTOR is expecting minimal coordination with SWCA to finalize the environmental document, and CONTRACTOR expects no additional changes to the APE map.

TASK 7 – DESIGN/ENGINEERING

Task 7.3 – Retaining Wall/Slope Design

On December 20, 2024, County directed CONTRACTOR to remove scope and cost from Task 7.3 as part of this Amendment No. 2. During preliminary design CONTRACTOR has spent a minor amount of the budget within Task 7.3. This budget was used for preliminary wall layouts during initial design and roundabout placement. The scope within this task will be removed from the Agreement as part of this Amendment No. 2. The remaining budget in this task (the amount of \$37,886.56) will be removed from Task 7.3 and used as a credit towards Amendment No. 2 total cost. This Amendment No. 2 will effectively close Task 7.3.

Task 7.4 – Preparation of 30% Preliminary Design (Supplemental)

Preparation of 30% Preliminary Design exceeded budget due to an extended Project timeline and various checks and analysis requested by County. Based on County direction, the roundabout

EXHIBIT A-2 - SCOPE OF SERVICES/PAYMENT PROVISIONS

location will be revised. Additional design for pedestrian facilities within the roundabout has been completed by CONTRACTOR following the public meeting to address and truth-out public comments. CONTRACTOR has completed additional exhibits to depict to County the pedestrian elements that were discussed during the public meeting. CONTRACTOR is requesting additional task budget to backfill this task along with additional budget to reinitiate 30% design and complete the redesign of the roundabout and all design analysis checks.

The current roundabout design, location, and layout which includes minimal pedestrian facilities is the alternative that will be carried forward throughout the remainder of design. Implementing minimal pedestrian facilities within the roundabout does not conform to current roundabout and pedestrian design guidance and is not recommended by CONTRACTOR. Following a meeting with County on October 24, 2024, and follow-up conversations in November, 2024, it has been directed by County to move forward with minimal pedestrian facilities included within the roundabout influence area. Additional work including a design standard decision document will be provided by CONTRACTOR which will describe County's decision to build minimum pedestrian facilities instead of the preferred pedestrian facilities as laid out in National Cooperative Highway Research Program (NCHRP) 1043. CONTRACTOR's team will document why a minimal pedestrian design will be implemented instead of the full pedestrian accommodations laid out in the NCHRP 1043 guidance. Small design changes are expected during the remainder of the 30% design process as further refinement continues. The size, location, approach configuration, pedestrian layout, and general layout of the roundabout are expected to remain unchanged throughout the remainder of the design phases.

Phase II – Final Plans, Specifications & Estimate (PS&E)

TASK 10 – ENGINEERING SUPPORT FOR RIGHT OF WAY ACTIVITIES

Task 10.1 – Preparation of Plats and Legal Descriptions (Supplemental)

Wallace Group (CONTRACTOR's subcontractor) will provide one (1) additional legal description and exhibit map for Project right of way acquisitions and one (1) legal description and exhibit map for a temporary construction easement. This request, as part of this Amendment No. 2, brings the total legal descriptions and exhibit maps that are part of this scope to five (5).

Task 10.3 – Right of Way Services

Task 10.3 is added to the Agreement as part of this Amendment No. 2. Monument (CONTRACTOR's subcontractor) will complete the appraisal effort. The appraisal effort will not begin until the environmental document is complete and the final right of way lines are set. CONTRACTOR will coordinate project impacts with Monument and respond to all relevant property owner inquiries. CONTRACTOR will support Monument on all relevant project elements. Please note: the fee for the appraisals, review the negotiations are subject to change based on bids at the time of the appraisals and negotiation.

- The appraisal will be prepared by individuals licensed with the State of California, Office of Real Estate Appraisers, as a Certified General Real Estate Appraiser. CONTRACTOR's appraisers both retain the requisite qualifications and experience necessary to complete appraisals in a competent and professional manner, in accordance with applicable laws and policies.
- Prepare the Notice of Decision to Appraiser letter for each property, advising the property
