SUMMARY DISCUSSION:

The University of California, Berkeley School of Public Health (BPH) Master of Public Health (MPH) program requirement includes a summer practicum of 400 hours. BPH MPH includes a Maternal, Child, Adolescent Health (MCAH) track. Students within this track complete their practicum within the field of MCAH. The practicum provides opportunities for the student to integrate public health theories and practices in a work environment and exposes them to professional and career development activities. Hosting a MCAH MPH intern supports County of Monterey Health Department public health workforce development.

This work supports the County of Monterey Health Department 2018-2024 Strategic Plan Goals: 1. Empower the community to improve health, and 4. Engage Health Department workforce and improve operational functions to meet current and developing population health needs. It also supports two of
